

Data Request: Requesting an M-2 query using the de-identified (limited) data set. Only requesting the number of TRICARE beneficiaries with a diagnosis of Parkinson's Disease (primary or secondary ICD9 332.0). Of those individuals I a requesting the number of individuals with a diagnosis of one or more the following three: Psychosis: 298.0, 298.1, 298.4-289.9; Hallucinations: 293.82, 386.16, 780.1; Delusions: 293.81, 297.1.

Source: MHS Data Repository (MDR)

- Comprehensive Ambulatory/Provider Encounter Record
- Standard Inpatient Data Record
- TRICARE Encounter Data Institutional
- TRICARE Encounter Data Non-Institutional

Notes:

- Assumed the Psychosis diagnosis codes included 298.4 through 298.9 (i.e., assumed 289.9 was a typo)
- Request did not specify a period of interest. Used FY2014, due to the relative completeness of purchased care claims.

Results:

Diagnosis:	# of Patients (FY14)
Parkinsons	31,843
Parkinsons+Psychosis	2,657
Parkinsons+Hallucinations	951
Parkinsons+Delusions	227
Parkinsons+Any*	3,386

* Note: Patients with Parkinson's Disease and any Psychosis, Hallucinations or Delusions
