

DHA Pediatrics

Designed as a mobile-optimized site, DHA Pediatrics provides a curated, system-based collection of clinical practice guidelines, emergency resuscitation cards, push and call buttons for local market subspecialty and inpatient teams, as well as links to local residency academic calendars. *It is intended to assist any clinician caring for children within DHA.*

Current market MTFs include:

- Madigan Army Medical Center
- Naval Medical Center Portsmouth
- Naval Medical Center San Diego
- San Antonio Military Health Center
- Tripler Army Medical Center
- Walter Reed National Military Medical Center

Capabilities include:

- Clinical practice guidelines (AAP, NASPGHAN, IDSA, AAN, etc.)
- Emergency resuscitation cards (PALS, NRP, ACLS)
- Push to call buttons for subspecialty consultants
- Digital push to call buttons for: inpatient team, Labs, Rads at the MTF
- Local MTF SOPs (Hyperbilirubinemia, Infant Fever, etc.)
- Residency academic calendars
- Recommended online resources (ACT sheets, PediTools, GI kids, etc.)

The mobile site is available at <https://staging-mobile.health.mil/dhapeds/#/> or by scanning the QR code below, and a password is required for access. Please send an email from your **military email address** to the MML at dha.ncr.education-trng.mbx.mhs-medical-library@health.mil to request the password. Credentials will be verified before the password is sent.
