PRE-DECISIONAL DRAFT

PRE DECISIONAL DRAFT

Previous T&I Subcommittee Reports

Title	Year
Low-Volume High-Risk Surgical Procedures: Surgical Volume & Its Relationship to Patient Safety & Quality of Care (Parts 1 & 2)	2018 & 2019
Combat Trauma Lessons Learned from Military Operations of 2001 through 2013	2015
Battlefield Medical Research Development Training & Evaluation Priorities	2012
Management of Traumatic Brain Injury in Tactical Combat Casualty Care	2012
Needle Decompression of Tension Pneumothorax Tactical Combat Casualty Care Guideline Recommendations (update to 2011 report)	2012
Supraglottic Airway Use in Tactical Evacuation Care	2012
Prehospital Use of Ketamine in Battlefield Analgesia	2012
Needle Decompression of Tension Pneumothorax & Cardiopulmonary Resuscitation TCCC	2011
PRE-DECISIONAL DRAFT	

Previous T&I Subcommittee Reports

Title	Year
Combat Ready Clamp Addition to the Tactical Combat Casualty Care Guidelines	2011
Addition of Tranexamic Acid to the Tactical Combat Casualty Care Guidelines	2011
Use of Dried Plasma in Prehospital Battlefield Resuscitation	2011
Tactical Evacuation Care Improvements within the Department of Defense	2011
Tactical Combat Casualty Care Training for Deploying Personnel	2011
Battlefield Trauma Care Research Development Test & Evaluation Priorities	2011
Tactical Combat Casualty Care Guidelines on the Prevention of Hypothermia	2010
Tactical Combat Casualty Care Guidelines on Fluid Resuscitation	2010
Tactical Combat Casualty Care Burn Management Guidelines	2010

PRE-DECISIONAL DRAFT

Tasking

PRE DECISIONAL DRAFT

On September 28, 2023, the Assistant Secretary of Defense for Health Affairs directed the Defense Health Board (DHB) to recommend guidance on better integrating military-civilian training partnerships to improve prolonged field/in-theater care.

PRE-DECISIONAL DRAFT

Prolonged Theater Care

- Principal Deputy Assistant Secretary of Defense for Health Affairs
 approved changing the name of the tasking from *Prolonged Field Care* to *Prolonged Theater Care* to better describe the spectrum of medical care
 provided in-theater
- Due to the urgency of the topic, findings & recommendations from Part 1
 of the report would be deliberated in March 2024, followed by
 deliberation of Part 2 findings & recommendations in September 2024

PRE-DECISIONAL DRAFT

7

PRE DECISIONAL DRA

TOR Objectives & Scope

- **Review the curriculum & experience** of current military-civilian trauma training partnerships.
- **Provide recommendations to best prepare DoD personnel** at military-civilian trauma training partner sites for prolonged field care in near-peer conflicts. Comment on the curriculum, locations, frequency of training, occupational specialties of participating DoD personnel, & best use of selection & performance criteria outlined in the Blue Book.
- Provide recommendations to better integrate military-civilian partnerships with attention to Direct Care MTF staffing & Regional Medical Operations Centers.

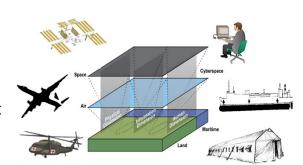

PRE-DECISIONAL DRAFT

Problem Statement: The Future of Warfare

• Large-Scale Combat Operations

- o Multiple domains
- o High rate of casualties
- o Contested freedom of movement
- Constrained medical logistics
- Change in injuries

PRE-DECISIONAL DRAFT

9

PRE DECISIONAL DRAFT

Problem Statement: The Future of Warfare

Peer/Near-Peer Conflict

- o Changing warfighter demographics
- o Delayed, complex, lengthy evacuations
- o Stress on continental US (CONUS) healthcare systems

PRE-DECISIONAL DRAFT

Background: Definitions

- Prolonged Field Care (PFC)
 - o Point of injury care in resource limited, austere environments
 - o Evolved from medical observations by Special Forces & Marine Corps
- Prolonged Casualty Care (PCC)
 - Care delivered by medics & corpsmen (conventional forces)
 - o Provision of Tactical Combat Casualty Care beyond the "Golden Hour"
- Tactical Combat Casualty Care (TCCC): operational trauma guidelines

PRE-DECISIONAL DRAFT

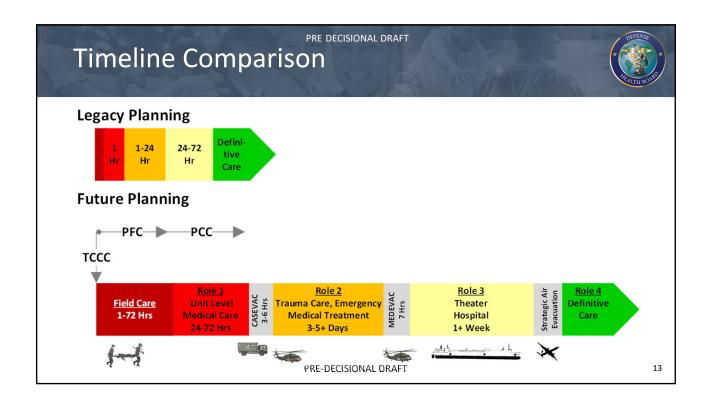

11

Background: Definitions

- Prolonged Theater Care (PTC)
 - Full spectrum & continuum of medical care provided by military medical & non-medical personnel from point of injury to definitive care, including PFC, PCC, prolonged hospital care in the combat zone, & prolonged definitive care in OCONUS MTFs

PRE-DECISIONAL DRAFT

- MCPs intended to provide pre-deployment training
- MCPs aid in the sustainment of critical wartime skills to prevent the "peacetime effect" or "Walker Dip"
- GAO identified MCPs as an important adjunct to training enlisted medical personnel, who comprise 66% of the total medical force
- MCPs distinct from training agreements with civilian hospitals for initial clinical skills acquisition

Summary of Activities to Date

Date	Meeting	Discussion Topics
Oct 11, 2023	T&I Meeting	TOR Overview, Objectives, Guiding Principles, Report Timeline
Oct 25, 2023	T&I Meeting	Brief on Integrated CONUS Medical Operation Plan Report Development: Report Outline, Subject Matter Experts
Nov 1, 2023	T&I Meeting	Brief on Strategic Priorities in Peer/Near-Peer Conflict Report Development: Report Outline
Nov 8, 2023	T&I Meeting	Brief on PFC/PCC in the Joint Trauma System
Nov 15, 2023	T&I Meeting	Brief on Walking Blood Bank Report Development: Report Outline

PRE-DECISIONAL DRAFT

Summary of Activities to Date

Date	Meeting	Discussion Topics
Nov 29, 2023	DHB Meeting	Tasker Introduction at DHB Meeting
Dec 13, 2023	T&I Meeting	Report Development: Report Outline, Review Information Brief, Report Timeline
Dec 20, 2023	T&I Meeting	Brief with Joint Staff Surgeon
Jan 10, 2024	T&I Meeting	Report Development
Jan 31, 2024	T&I Meeting	Report Development
Feb 7, 2024	T&I Meeting	Report Development
Feb 14, 2024	T&I Meeting	Report Development
Feb 21, 2024	T&I Meeting	Report Development

PRE-DECISIONAL DRAFT

.6

Guiding Principles

PRE DECISIONAL DRAFT

- Recommendations should be actionable & relate to a specific finding
- Recommendations should center on education & training as it relates to the care delivery paradigm in peer/near-peer conflict & the evacuation process, or in-theater care
- Recommendations should adhere to clear definitions of the setting/context of care
- Recommendations should identify/define all parties involved (i.e., who is being treated & who is providing the treatment)

PRE-DECISIONAL DRAFT

Finding 1

A registry of military-civilian & Department of Veterans Affairs Administration partnerships has not been fully established or sustained; thus, the existing Joint Trauma System Military-Civilian Training Partnership Registry contains insufficient information to evaluate program performance or readiness skills of military medical personnel training at military-civilian training partnership sites.

PRE-DECISIONAL DRAFT

Recommendation 1

Assistant Secretary of Defense for Health Affairs should review and report findings to the Secretary of Defense annually from the Joint Trauma System Military-Civilian Training Partnership Registry, consistent with requirements outlined to-ensure implementation & sustainment of a comprehensive Joint Trauma System Military-Civilian Training Partnership Registry consistent with the requirements outlined in section 708 of the National Defense Authorization Act for Fiscal Year 2017.

21

Finding 2

PRE DECISIONAL DRAFT

Current active duty military medical forces may be insufficient to meet the demands future requirements of large-scale combat operations, & current models used to estimate personnel requirements against casualty estimates may be unreliable.

PRE-DECISIONAL DRAFT

CW0 Suggested amendment: ASD(HA) should issue a report annually based on the needs of the DoD. Clarice Waters, 2024-03-05T15:14:37.059

Recommendation 2

DoD should urgently update casualty flow models to determine the optimum size & structure of the active duty medical forces & rapidly recruit military personnel to meet these requirements.

PRE-DECISIONAL DRAFT

23

Finding 3

PRE DECISIONAL DRAFT

Neither the Services nor the Joint Trauma System military-civilian training partnership registry adequately define, track, or assess wartime medical skills training for enlisted personnel at military-civilian trauma training partnerships.

PRE-DECISIONAL DRAFT

Recommendation 3

Under Secretary of Defense for Personnel & Readiness, in conjunction with the Services, should oversee the standardization of the essential wartime medical skills of enlisted personnel & apply the requirements of section 708 of the National Defense Authorization Act for Fiscal Year 2017 beyond combat casualty care teams to the wartime training of enlisted medical personnel.

PRE-DECISIONAL DRAFT

25

Finding 4

PRE DECISIONAL DRAFT

Despite the potential demand for standardized, justin-time training for Army combat medics, Navy corpsmen, & Air Force medical service specialists during large-scale combat operations, there are no plans in place to develop standardized, just-in-time training for enlisted personnel.

PRE-DECISIONAL DRAFT

Recommendation 4

Under Secretary of Defense for Personnel & Readiness, in conjunction with the Services, should develop standardized just-in-time programs of instruction for scaling the training of for Army combat medics, Navy corpsmen, & Air Force medical service specialists to meet force flow & large-scale combat operations demands as reflected in military operational plans.

PRE-DECISIONAL DRAFT

27

Finding 5

PRE DECISIONAL DRAFT

The Defense Health Agency does not define readiness gaps that should be filled by military-civilian trauma training partnerships through tracking of the clinical activity (relative to combat casualty & expeditionary medical care) of medical personnel at military treatment facilities.

PRE-DECISIONAL DRAFT

Recommendation 5

The Director, Defense Health Agency, should develop a system to track skills related to combat casualty & expeditionary medical care acquired by credentialed & noncredentialed military medical personnel at military treatment facilities & use this information to support Service goals to guide entry into & sustainment of military-civilian trauma training partnerships.

PRE-DECISIONAL DRAFT

29

Finding 6

PRE DECISIONAL DRAFT

The Defense Health Agency & Services do not have a joint system for tracking the knowledge, skills, or ongoing clinical activity across the clinical readiness life cycle & are unable to aggregate data to provide a composite picture of individual & military medical readiness.

PRE-DECISIONAL DRAFT

Recommendation 6

Under Secretary of Defense for Personnel & Readiness should direct development of a joint system to track knowledge, skills, & ongoing clinical activity related to combat casualty & expeditionary medical care acquired by credentialed & noncredentialed personnel on an individual basis to inform the overall military medical readiness.

PRE-DECISIONAL DRAFT
