

Contract No.: 282-98-0021
MPR Reference No.: 8860-500

2003 Health Care Survey of DoD Beneficiaries:

Adult Codebook and User's Guide

**May 2003
Quarter I**

Submitted to:

TRICARE Management Activity
5111 Leesburg Pike, Suite 810
Falls Church, VA 22041
(703) 681-4263

Task Order Officer:
Lt Col Michael Hartzell, DVM, MPH

Submitted by:

Mathematica Policy Research, Inc.
600 Maryland Ave., SW, Suite 550
Washington, DC 20024-2512
(202) 484-9220

Project Director:
Eric Schone, Ph. D.

Table of Variables

	Page	
QUARTER 1 FREQUENCIES		
SAMPLING VARIABLES		
MPRID	- Unique MPR Identifier	91
SVCSMPL	- Branch of Service Sampling Variable	91
SEXSMPL	- Sex Sampling Variable.....	91
STRATUM	- Sampling STRATUM	92
CACSMPL	- Catchment Area	100
ENBGSMPL	- Enrollment by beneficiary category	103
MPCSMPL	- Military Personnel Category	103
NHFF	- Stratum Sample Size	103
SERVAREA	- Service Area	104
QUARTER	- Survey Quarter.....	104
DCATCH	- Catchment Area	105
DMIS_ID	- DMIS ID	108
BWT	- Basic Sampling Weight.....	116
E1	- Eligibility indicator for period = 1	117
E2	- Eligibility indicator for period = 2	117
E3	- Eligibility indicator for period = 3	117
E4	- Eligibility indicator for period = 4	117
E5	- Eligibility indicator for period = 5	117
E6	- Eligibility indicator for period = 6	118
E7	- Eligibility indicator for period = 7	118
E8	- Eligibility indicator for period = 8	118
E9	- Eligibility indicator for period = 9	118
SERVAFF	- Service Affiliation	119
ADJ_CELL	- Adjusted STRATUM cell	119
DEERS VARIABLES		
MRTLSTAT	- Marital Status	126
RACEETHN	- Race/Ethnic Code	126
PNSEXCD	- Person Gender.....	127
LEGDDSCD	- DDS Code.....	127
DAGEQY	- Age (As of 31 August 2002).....	127
FIELDAGE	- Age as of January 1st 2003	128
PCM	- Primary Manager Code (Civilian or Military)	128
DBENCAT	- Beneficiary Category.....	128
DMEDELG	- Medical Privilege Code	129
DSPONSV	- Derived Sponsor Branch of Service.....	129
MBRRELCD	- Member Relationship Code	129
MEDTYPE	- Medicare Type	130
PATCAT	- Aggregated Beneficiary Category	130
PNLCATCD	- Personnel Category Code (Duty Status).....	130
QUESTIONNAIRE RESPONSES		
H03001	- Are you the person listed on envelope.....	131
H03002A	- Health plan(s) covered: TRICARE Prime	131
H03002C	- Health plan(s) covered: TRICARE Ext/Stnd	131
H03002F	- Health plan(s) covered: MEDICARE	131
H03002G	- Health plan(s) covered: FEHBP	132
H03002H	- Health plan(s) covered: Medicaid	132
H03002I	- Health plan(s) covered: Civilian HMO	132
H03002J	- Health plan(s) covered: Other civilian	132
H03002K	- Health plan(s) covered: USFHP.....	132
H03002L	- Health plan(s) covered: Not sure	133

H03002M	- Health plan(s) covered: Veterans	133
H03002N	- Health plan(s) covered: TRICARE Plus	133
H03002O	- Health plan(s) covered: TRICARE For Life.....	133
H03003	- Currently Covered Medicare Part A	134
H03004	- Currently Covered Medicare Part B	134
H03005	- Currently Covered Medicare Supplemental	134
H03006	- Which health plan did you use most in the past 12 months?.....	135
H03007	- Years in a row with health plan	135
H03008	- When joined health plan received new personal Doctor.....	136
H03009	- Health plan: problem to get a personal doctor or nurse you are happy with.....	136
H03010	- Have one person you think of as personal doctor.....	136
H03011	- Rating of your personal doctor or nurse.....	137
H03012	- In last year: you or a doctor or nurse think you needed to see a specialist	137
H03013	- In last year: how much of a problem to get a referral to see a specialist.....	137
H03014	- In last year: did you see a specialist	138
H03015	- Rating of specialist seen in last year.....	138
H03016	- In last year: specialist saw was the same as personal doctor	138
H03017	- In last year: called a doctor's office or clinic during regular office hours to get help or advice for yourself	139
H03018	- In last year: when you called during regular office hours how often got help or advice you needed	139
H03019	- In last year: made any appointment for regular or routine health care	139
H03020	- In last year: how often made appointments for regular or routine health care as soon as you wanted	140
H03021	- In last year: days between appointment for regular or routine care and actually seeing a provider.....	140
H03022	- In last year: illness/injury needed care right away.....	140
H03023	- In last year: when needed care right away for an illness or injury got care as soon as wanted	141
H03024	- In last year: wait between trying to get care and actually seeing a provider for an illness or injury.....	141
H03025	- In last year: went to an emergency room for own care	142
H03026	- In last year: went to a doctors office or clinic for yourself (not counting times went to an emergency room)	142
H03027	- In last year: problem to get necessary care	142
H03028	- In last year: problem with delays in healthcare while waiting for approval from health plan.....	143
H03029	- In last year: wait more than 15 minutes past appointment time to see a doctor....	143
H03030	- In last year: how often office staff at a doctor's office or clinic treat you with courtesy and respect.....	143
H03031	- In last year: how often office staff at a doctor's office or clinic as helpful as expected.....	144
H03032	- In last year: how often doctors or other health providers listen carefully to you.....	144
H03033	- In last year: how often doctors or other health providers explain things in way you could understand	144
H03034	- In last year: how often doctors or other health providers show respect for what you had to say.....	145
H03035	- In last year: how often doctors or other health providers spend enough time with you.....	145
H03036	- Rating of all healthcare in last year	146
H03037	- In last year: prescriptions that were written by a civilian provider but were filled at a military pharmacy	146
H03038	- In last year: facility used most for health care	147
H03039	- In last year: sent in any claims to your health plan	147
H03040	- In last year: health plan handled claims in a reasonable time	147
H03041	- In last year: how often health plan handled claims correctly.....	148
H03042	- In last year: before went for care know amount to pay	148
H03043	- In last year: look for any information in written materials from health plan	148
H03044	- In last year: problem to find or understand information in the written materials	149

H03045	- In last year: called health plan's customer service to get information or help.....	149
H03046	- In last year: problem to get the help you needed when called health plan's customer service	149
H03047	- Called or written health plan with a complaint or problem	150
H03048	- How long for health plan to resolve complaint	150
H03049	- Complaint or problem settled to satisfaction.....	150
H03050	- In last year: have any experiences with paperwork for your health plan.....	151
H03051	- In last year: how much problem with paperwork for your health plan	151
H03052	- Rating of all experience with health plan	151
H03053	- In next year: likely to disenroll in TRICARE Prime	152
H03054	- Not sick/pregnant: last medical or physical exam or checkup	152
H03055	- Blood pressure: when last reading.....	152
H03056	- Blood pressure: know if blood pressure is too high or not	153
H03057	- When did you last have a cholesterol screening	153
H03058	- When did you last have a flu shot	153
H03059	- Smoked at least 100 cigarettes in life	154
H03060	- Smoke everyday, somedays, or not at all	154
H03061	- How long since you quit smoking.....	154
H03062	- Last year: number of visits advised to quit smoking	155
H03063	- Are you male or female.....	155
H03064	- Male: Last prostate disease exam or blood test	155
H03065	- Female: Last have a Pap smear test.....	156
H03066	- Female: Are you under age 40	156
H03067	- Female: Last time breasts checked mammography.....	156
H03068	- Female: Last time breast exam by professional	157
H03069	- Female: Been pregnant in last year or pregnant now	157
H03070	- Female: In what trimester is your pregnancy	157
H03071	- Female: Trimester first received prenatal care	158
H03072	- In general how would you rate your overall health	158
H03073	- Limited in any way in any activities because of any impairment or health problem	158
H03074	- Last 30 days: Number of Days when your physical health not good	159
H03075	- Last 30 days: Number of Days when your mental health not good	160
H03076	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	161
H03077	- Last 30 days: Number of Days when pain made it hard to do your usual activities	162
H03078	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	163
H03079	- Last 30 days: Number of Days when you have felt worried, tense or anxious	164
H03080	- Last 30 days: Number of Days when you did not get enough rest or sleep	165
H03081	- Last 30 days: Number of Days when you have felt very healthy and full of energy	166
H03082	- Are you Spanish/Hispanic/Latino	167
SREDA	- Highest grade completed	167
SRRACEA	- Race: White	167
SRRACEB	- Race: Black or African American	168
SRRACEC	- Race: American Indian or Alaska Native	168
SRRACED	- Race: Asian.....	168
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders	168
SRAGE	- What is your age now?	169
S03R01	- In last year: Prescriptions filled at military pharmacy	169
S03R02	- Rating of customer service at military pharmacy	169
S03R03	- In last year: Discussed medication and treatment with military pharmacist.....	170
S03R04	- In last year: Time waited for filled prscription at military pharmacy.....	170
S03F01	- In last year: Healthcare received at military facility (MTF)	170
S03F02	- MTF physical condition vs civilian healthcare facilities	171
S03V01	- In last year: Amount of healthcare from TRICARE civilian network.....	171
S03V02	- In last year: Problem getting wanted healthcare from TCN	172
S03V03	- In last year: Problem finding convenient doctor from TCN	172
S03V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	172
S03V05	- In last year: Learn physician whom you wanted to see left TCN	173

S03B01	- In last year: Number briefings on TRICARE eligibility, benefits, services offered at your MTF	173
S03O01	- Female: Saw same doctor or midwife for the majority of your prenatal visits.....	173
S03O02	- Female: Doctor/midwife encouraged you to include family members to help prepare for baby's arrival.....	174
S03O03	- Female: Problem for you to make appointments for prenatal visits.....	174
S03O04	- Female: Received training to prepare for breastfeeding.....	174
S03O05	- Female: Rate the training for breastfeeding that you received	175
S03O06	- Female: Physician or midwife worked with you to develop a birth plan	175
SURVEY FIELDING VARIABLES		
ONTIME	- Responded Within 8 weeks of Mail-Out.....	175
FLAG_FIN	- Final Disposition.....	176
DUPFLAG	- Multiple Response Indicator.....	176
FNSTATUS	- Final Status	176
KEYCOUNT	- Number of Key Questions Answered.....	176
TREATU	- Unit Address Treatment Flag	177
TREATU_R	- Unit Address Treatment Flag, Rev 03/31/0	177
CODING SCHEME FLAGS AND COUNTS		
N1	- Coding Scheme Note 1	177
N2	- Coding Scheme Note 2	177
N3	- Coding Scheme Note 3.....	178
N4	- Coding Scheme Note 4.....	178
N5	- Coding Scheme Note 5.....	178
N6	- Coding Scheme Note 6.....	179
N7	- Coding Scheme Note 7	179
N8	- Coding Scheme Note 8	179
N9	- Coding Scheme Note 9	180
N10	- Coding Scheme Note 10.....	180
N12	- Coding Scheme Note 12.....	180
N13	- Coding Scheme Note 13.....	181
N14	- Coding Scheme Note 14.....	181
N15	- Coding Scheme Note 15.....	181
N16	- Coding Scheme Note 16.....	182
N17	- Coding Scheme Note 17	182
N18	- Coding Scheme Note 18	182
N19A	- Coding Scheme Note 19A	182
N19	- Coding Scheme Note 19	183
N20A	- Coding Scheme Note 20A	183
N20B	- Coding Scheme Note 20B	184
N20C	- Coding Scheme Note 20C	184
N20D	- Coding Scheme Note 20D	184
N21	- Coding Scheme Note 21	185
N22	- Coding Scheme Note 22	185
MISS_1	- Count of: Violates Skip Pattern	185
MISS_4	- Count of: Incomplete grid error	185
MISS_5	- Count of: Scalable response of Don't know	186
MISS_6	- Count of: Not applicable - valid skip.....	186
MISS_7	- Count of: Out-of-range error	187
MISS_8	- Count of: Multiple response error.....	187
MISS_9	- Count of: No response - invalid skip	188
MISS_TOT	- Total number of missing responses.....	189
CONSTRUCTED VARIABLES		
XENRLLMT	- Enrollment in TRICARE Prime.....	190
XENR_PCM	- Enrollment by PCM type	190
XINS_COV	- Insurance Coverage.....	190
XREGION	- Region	191
CONUS	- CONUS/OCONUS Indicator	191
OUTCATCH	- Out of Catchment Area Indicator	191

XSEXA	- Male or Female (Recode)	192
XBNFGRP	- Constructed Beneficiary Group.....	192
KDISENRL	- Intention to disenroll.....	192
KMIOFFC	- Office wait of 15 min or more at Military facility.....	192
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	193
KBGPRB1	- Big problem getting referrals to specialist.....	193
KBGPRB2	- Big problem getting necessary care.....	193
KMILOPQY	- Outpatient visits to Military facility	193
KCIVOPQY	- Outpatient visits to Civilian facility	194
KCIVINS	- Beneficiary covered by civilian insurance	194
KPRSCPTN	- 7 or more civilian prescriptions filled by military pharmacy	194
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam.....	194
HP_PRNTL	- Pregnant in last year received care in 1st trimester.....	195
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	195
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	195
HP_PAP	- All women Pap smear in last 3 years.....	195
HP_BP	- Blood pressure check in last 2 years know results	196
HP_FLU	- Age 65 and older flu shot in last 12 months.....	196
HP_PROS	- Men age 50 or over prostate exam in last 12 months	196
HP_GP	- General physical exam in last 12 months	196
HP_BRST	- Women age 40 and over breast exam in last 12 months	197
HP_CHOL	- Cholesterol screening in last 5 years	197
HP_SMOKE	- Advised to quit smoking in last 12 months.....	197
HP_SMOKH	- Smoker under HEDIS definition.....	197
HP_CESS	- Had smoking cessation counseling	198

WEIGHTS

WRWT1	- Replicated/JackKnife Weight 1	198
WRWT2	- Replicated/JackKnife Weight 2	198
WRWT3	- Replicated/JackKnife Weight 3	199
WRWT4	- Replicated/JackKnife Weight 4	199
WRWT5	- Replicated/JackKnife Weight 5	199

H03038	- In last year: facility used most for health care.....	147
H03039	- In last year: sent in any claims to your health plan	147
H03040	- In last year: health plan handled claims in a reasonable time	147
H03041	- In last year: how often health plan handled claims correctly.....	148
H03042	- In last year: before went for care know amount to pay	148
H03043	- In last year: look for any information in written materials from health plan	148
H03044	- In last year: problem to find or understand information in the written materials	149
H03045	- In last year: called health plan's customer service to get information or help.....	149
H03046	- In last year: problem to get the help you needed when called health plan's customer service	149
H03047	- Called or written health plan with a complaint or problem	150
H03048	- How long for health plan to resolve complaint	150
H03049	- Complaint or problem settled to satisfaction.....	150
H03050	- In last year: have any experiences with paperwork for your health plan.....	151
H03051	- In last year: how much problem with paperwork for your health plan	151
H03052	- Rating of all experience with health plan	151
H03053	- In next year: likely to disenroll in TRICARE Prime	152
H03054	- Not sick/pregnant: last medical or physical exam or checkup	152
H03055	- Blood pressure: when last reading.....	152
H03056	- Blood pressure: know if blood pressure is too high or not	153
H03057	- When did you last have a cholesterol screening	153
H03058	- When did you last have a flu shot	153
H03059	- Smoked at least 100 cigarettes in life	154
H03060	- Smoke everyday, somedays, or not at all	154

H03061	- How long since you quit smoking.....	154
H03062	- Last year: number of visits advised to quit smoking	155
H03063	- Are you male or female.....	155
H03064	- Male: Last prostate disease exam or blood test	155
H03065	- Female: Last have a Pap smear test.....	156
H03066	- Female: Are you under age 40	156
H03067	- Female: Last time breasts checked mammography.....	156
H03068	- Female: Last time breast exam by professional	157
H03069	- Female: Been pregnant in last year or pregnant now	157
H03070	- Female: In what trimester is your pregnancy	157
H03071	- Female: Trimester first received prenatal care	158
H03072	- In general how would you rate your overall health.....	158
H03073	- Limited in any way in any activities because of any impairment or health problem	158
H03074	- Last 30 days: Number of Days when your physical health not good	159
H03075	- Last 30 days: Number of Days when your mental health not good	160
H03076	- Last 30 days: Number of Days when poor physical/mental health kept you from doing usual activities	161
H03077	- Last 30 days: Number of Days when pain made it hard to do your usual activities	162
H03078	- Last 30 days: Number of Days when you have felt sad, blue, or depressed	163
H03079	- Last 30 days: Number of Days when you have felt worried, tense or anxious	164
H03080	- Last 30 days: Number of Days when you did not get enough rest or sleep.....	165
H03081	- Last 30 days: Number of Days when you have felt very healthy and full of energy	166
H03082	- Are you Spanish/Hispanic/Latino	167
HP_BP	- Blood pressure check in last 2 years know results	196
HP_BRST	- Women age 40 and over breast exam in last 12 months	197
HP_CESS	- Had smoking cessation counseling	198
HP_CHOL	- Cholesterol screening in last 5 years	197
HP_FLU	- Age 65 and older flu shot in last 12 months.....	196
HP_GP	- General physical exam in last 12 months	196
HP_MAM50	- Women age 50 and over mammography in past 2 years.....	195
HP_MAMOG	- Women age 40 and over mammography in past 2 years.....	195
HP_PAP	- All women Pap smear in last 3 years.....	195
HP_PRNTL	- Pregnant in last year received care in 1st trimester.....	195
HP_PROS	- Men age 50 or over prostrate exam in last 12 months	196
HP_SMOKE	- Advised to quit smoking in last 12 months.....	197
HP_SMOKH	- Smoker under HEDIS definition.....	197
KBGPRB1	- Big problem getting referrals to specialist.....	193
KBGPRB2	- Big problem getting necessary care.....	193
KBRSTCR	- Women age 40 and over ever had mammogram and breast exam	194
KCIVINS	- Beneficiary covered by civilian insurance	194
KCIVOFFC	- Office wait of 15 min or more at Civilian facility	193
KCIVOPQY	- Outpatient visits to Civilian facility	194
KDISENRL	- Intention to disenroll.....	192
KEYCOUNT	- Number of Key Questions Answered.....	176
KMIOFFC	- Office wait of 15 min or more at Military facility.....	192
KMIOPQY	- Outpatient visits to Military facility	193
KPRSCPTN	- 7 or more civilian prescriptions filled by military pharmacy	194
LEGDDSCD	- DDS Code.....	127
MBRRELCD	- Member Relationship Code	129
MEDTYPE	- Medicare Type	130
MISS_1	- Count of: Violates Skip Pattern	185
MISS_4	- Count of: Incomplete grid error	185
MISS_5	- Count of: Scalable response of Don't know	186
MISS_6	- Count of: Not applicable - valid skip.....	186
MISS_7	- Count of: Out-of-range error	187
MISS_8	- Count of: Multiple response error.....	187
MISS_9	- Count of: No response - invalid skip	188
MISS_TOT	- Total number of missing responses.....	189
MPCSMPL	- Military Personnel Category	103

MPRID	- Unique MPR Identifier.....	91
MRTLSTAT	- Marital Status	126
N1	- Coding Scheme Note 1.....	177
N10	- Coding Scheme Note 10.....	180
N12	- Coding Scheme Note 12.....	180
N13	- Coding Scheme Note 13.....	181
N14	- Coding Scheme Note 14.....	181
N15	- Coding Scheme Note 15.....	181
N16	- Coding Scheme Note 16.....	182
N17	- Coding Scheme Note 17.....	182
N18	- Coding Scheme Note 18.....	182
N19	- Coding Scheme Note 19.....	183
N19A	- Coding Scheme Note 19A	182
N2	- Coding Scheme Note 2.....	177
N20A	- Coding Scheme Note 20A	183
N20B	- Coding Scheme Note 20B	184
N20C	- Coding Scheme Note 20C	184
N20D	- Coding Scheme Note 20D	184
N21	- Coding Scheme Note 21.....	185
N22	- Coding Scheme Note 22.....	185
N3	- Coding Scheme Note 3.....	178
N4	- Coding Scheme Note 4.....	178
N5	- Coding Scheme Note 5.....	178
N6	- Coding Scheme Note 6.....	179
N7	- Coding Scheme Note 7.....	179
N8	- Coding Scheme Note 8.....	179
N9	- Coding Scheme Note 9.....	180
NHFF	- Stratum Sample Size	103
ONTIME	- Responded Within 8 weeks of Mail-Out.....	175
OUTCATCH	- Out of Catchment Area Indicator	191
PATCAT	- Aggregated Beneficiary Category	130
PCM	- Primary Manager Code (Civilian or Military)	128
PNLCATCD	- Personnel Category Code (Duty Status).....	130
PNSEXCD	- Person Gender.....	127
QUARTER	- Survey Quarter.....	104
RACEETHN	- Race/Ethnic Code	126
S03B01	- In last year: Number briefings on TRICARE eligibility, benefits, services offered at your MTF	173
S03F01	- In last year: Healthcare received at military facility (MTF)	170
S03F02	- MTF physical condition vs civilian healthcare facilities	171
S03O01	- Female: Saw same doctor or midwife for the majority of your prenatal visits.....	173
S03O02	- Female: Doctor/midwife encouraged you to include family members to help prepare for baby's arrival.....	174
S03O03	- Female: Problem for you to make appointments for prenatal visits.....	174
S03O04	- Female: Received training to prepare for breastfeeding.....	174
S03O05	- Female: Rate the training for breastfeeding that you received	175
S03O06	- Female: Physician or midwife worked with you to develop a birth plan	175
S03R01	- In last year: Prescriptions filled at military pharmacy	169
S03R02	- Rating of customer service at military pharmacy	169
S03R03	- In last year: Discussed medication and treatment with military pharmacist.....	170
S03R04	- In last year: Time waited for filled prscription at military pharmacy.....	170
S03V01	- In last year: Amount of healthcare from TRICARE civilian network.....	171
S03V02	- In last year: Problem getting wanted healthcare from TCN	172
S03V03	- In last year: Problem finding convenient doctor from TCN	172
S03V04	- In last year: Problem finding convenient TCN lab or x-ray facility.....	172
S03V05	- In last year: Learn physician whom you wanted to see left TCN	173
SERVAFF	- Service Affiliation	119
SERVAREA	- Service Area	104
SEXSMPPL	- Sex Sampling Variable.....	91

SRAGE	- What is your age now?	169
SREDA	- Highest grade completed	167
SRRACEA	- Race: White	167
SRRACEB	- Race: Black or African American	168
SRRACEC	- Race: American Indian or Alaska Native	168
SRRACED	- Race: Asian.....	168
SRRACEE	- Race: Native Hawaiian/other Pacific Islanders	168
STRATUM	- Sampling STRATUM	92
SVCSMPL	- Branch of Service Sampling Variable	91
TREATU	- Unit Address Treatment Flag	177
TREATU_R	- Unit Address Treatment Flag, Rev 03/31/0	177
WRWT	- Final Weight.....	218
WRWT1	- Replicated/JackKnife Weight 1	198
WRWT10	- Replicated/JackKnife Weight 10.....	201
WRWT11	- Replicated/JackKnife Weight 11	201
WRWT12	- Replicated/JackKnife Weight 12	202
WRWT13	- Replicated/JackKnife Weight 13	202
WRWT14	- Replicated/JackKnife Weight 14	202
WRWT15	- Replicated/JackKnife Weight 15	203
WRWT16	- Replicated/JackKnife Weight 16	203
WRWT17	- Replicated/JackKnife Weight 17	203

Chapter
1

Introduction

This Codebook and Users' Guide provides a tool for programmers and analysts to assist them in creating cross-tabulations and basic statistical estimates from the 2003 Adult Health Care Survey of DoD Beneficiaries (HCSDB). It is intended to facilitate users in creating tables and generating analyses above and beyond those associated with this project.

This version of the Codebook and User's Guide describes the first quarter data set. It presents the frequency counts of all variables from the third quarter survey.

Users interested in recreating specific tables or charts from MPR's analytic report should refer to "The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual." That document defines the procedures required to reproduce the TRICARE Consumer Reports and charts presented in the National Executive Summary Report, using HCSDB data.

This chapter explains how to use this guide, reviews the survey, briefly describes the sample design, and concludes with a list of other documents on the HCSDB data that may be useful for policymakers, administrators, and other users.

How to Use This Guide

Chapter 2 describes the database conventions and types of variables in the database. Furthermore, it explains the relationship between the raw survey data and the cleaned and constructed variables preferred for data analyses.

Chapter 3 provides table-making instructions in both SAS and SPSS and clearly demonstrates the basic computer programming code necessary to tabulate the data in SAS and the interactive steps involved in generating tables in SPSS (either statistical package may be used). While we assume that most users have some knowledge of computer systems and statistical processing, examples of how to create tables and the resulting output are provided in order to simplify the process of data tabulation. Due to the complexity of the sample design, we suggest that users interested in measuring the precision of their results use a statistical package capable of calculating standard errors for survey estimates, such as SUDAAN™ or WesVar PC®. Sample programming code is included to estimate standard errors using appropriate methods to accommodate the complex sample design.

The codebook is presented in Chapter 4, where we describe each variable in the database, including a list of all possible values of the variable, weighted and unweighted frequency counts and percent occurrences for each value, and the values' interpretation or formatting. The codebook helps users assess the availability of certain measures, specify variables of interest, and identify all possible values of a variable. The variables are listed in the order of their position on the data file, and they are grouped by source as follows:

- Sampling variables used to place beneficiaries in the appropriate strata
- Information from the Defense Enrollment Eligibility Reporting System (DEERS) at the time of sampling

- Questionnaire responses: cleaned and recoded
- Variables created during the fielding of the survey
- Coding Scheme flags and missing value counts
- Constructed variables for analysis

In addition, users may refer to the Table of Variables, which follows directly after the Table of Contents, for an alphabetical quick-reference list intended to assist users in locating each variable.

Users interested in learning more about the technical aspects of the database creation, construction of new variables, or MPR's report production procedures may refer to "The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual," available from the TRICARE Management Activity Office.

What is the HCSDB?

The HCSDB is a health care survey of active duty military personnel, retirees, and their adult family members. It is comprised of an adult and a child survey, both fielded to a representative sample of beneficiaries. The adult survey is fielded every quarter, whereas the child survey is fielded only in the third quarter of each year. Results from each quarter are presented as a web-based report. The survey is sponsored by the Assistant Secretary of Defense (Health Affairs) [OASD (HA)], under authority of the National Defense Authorization Act for Fiscal Year 1993 (P.L. 102-484). The surveys collect data on beneficiaries' satisfaction with, and access to, health care, knowledge of the TRICARE system, and use of preventive and other health care services.

Fielded annually from 1994 to 2000, the HCSDB now is fielded quarterly and consists of a fixed core questionnaire complemented by quarterly supplements intended to address topics of emerging interest. Users should note that, prior to 2000, the title of the HCSDB corresponded to the reference year that respondents were asked to think about when responding to questions. For example, although the 2000 HCSDB was fielded in 2001, beneficiaries responded to questions according to the reference period 12 months prior. Under a new naming convention the survey title refers to the year the questionnaires are fielded, so, for example, this year's survey is the 2003 HSCDB. Users should further note that, due to this change, there is no survey with the title "2001" survey, even though the questionnaire has been administered continuously throughout each quarter of 2001 and 2002. The annotated questionnaire appears as Appendix A. A crosswalk between the 2003 questions and the questions from the 1994-1995, 1996, 1997, 1998, 1999, 2000, and 2002 surveys appears as Appendix B.

The HCSDB fixed questionnaire covers the following topics:

- **Health Plan.** This section collects data on TRICARE Prime enrollment and the use of supplemental insurance and/or other private insurance.
- **Your Personal Doctor or Nurse.** In this section, respondents are asked about their relationship with their personal doctor or nurse. They are asked to rate their personal doctor or nurse on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Getting Health Care from a Specialist.** This section collects information about respondents' need for and access to care from specialists. Respondents rate the specialist that they see most frequently on a scale from 0 to 10, where 0 is the lowest rating and 10 is the highest rating.
- **Calling Doctors' Offices.** Questions in this section ask beneficiaries whether they were able to access care and obtain information by telephone from their doctor's office or clinic.

- **Your Health Care in the Last 12 Months.** This section collects information on where DoD beneficiaries received the majority of their care in the past 12 months, that is, from a military or civilian facility. It also covers topics such as the availability of providers and their staff, convenience, and courtesy and respect shown by providers and their staff. For comparison purposes, the questions are similar in content and format to questions used in the Consumer Assessment of Health Plans Survey (CAHPS). CAHPS is a survey program sponsored by the Agency for Health Care Research and Quality, U.S. Department of Health and Human Service, and the Picker Institute, which is designed to monitor beneficiaries' satisfaction with their civilian health care plan and access to health care services.
- **Your Health Plan.** This section is designed to measure beneficiaries' satisfaction with their primary health plan. Respondents are asked to rate their health plan on a scale of 0 to where 0 is the lowest rating and 10 is the highest rating. TRICARE Prime enrollees are asked about their satisfaction with Prime and about their likelihood of possibly disenrolling. Beneficiaries not currently enrolled in Prime are asked if they intend to enroll in the next 12 months. All respondents are asked about out-of-pocket expenses for medical care and health insurance coverage. Additionally, respondents are asked questions about any problems they may have encountered with claims processing, accessing and comprehending written materials, customer service, processing paperwork, and resolving complaints.
- **Your Preventive Health Care.** This section collects information on the use of preventive health care services, including routine physical examination, blood pressure readings, cholesterol screening, and flu shots. All women are asked about Pap smears; women that are or have been pregnant within the past 12 months are questioned about prenatal care. Women age 40 and over are asked about mammography and breast examination by a health care professional. Men are asked about prostate examinations. All respondents are asked whether they smoke. Smokers are asked whether they have received smoking cessation counseling from a health care professional.
- **About You.** This section asks basic background and health status questions. Beneficiaries are asked how they view their general health, as well as the number of days in the past month they have felt their physical or mental health was not good. They are further asked to indicate how many days they have experienced more specific physical or mental health problems, and if these problems prevented them from performing usual activities. Finally, respondents are asked to report their education level, race, and age.

Quarter I Supplements

- **Military Pharmacy.** Questions in this supplement were used to assess the quality of service at military pharmacies. Questions measure respondents' satisfaction with wait time and interactions with the pharmacy staff.
- **Condition of Military Facilities.** This supplement asks beneficiaries to compare the physical condition of the military facility they used most often to civilian health care facilities in their area.
- **TRICARE Civilian Network.** These supplemental questions provide information about respondents' experiences with the TRICARE civilian network. Questions concern the amount of care received, problems getting wanted care, convenience of care, and physician retention within the TRICARE civilian network.
- **Briefings on TRICARE.** This supplement measures the number of times respondents received briefings on TRICARE eligibility, benefits, services, or claims processing and resolution.

- **Prenatal Care.** Questions in this supplement concern the prenatal care recently pregnant women received. Respondents were asked questions regarding continuity of care, access to appointments, and the quality of prenatal training.

Sample Design Overview

The sample of beneficiaries for the HCSDB was drawn from an extract file of the DEERS database of military health system (MHS) beneficiaries with a reference date. The DEERS extract file includes all eligible MHS beneficiaries as follows:

- Everyone in the Uniformed Services and on active duty (Army, Air Force, Navy, Marine Corps, Coast Guard, the Commissioned Corps of the Public Health Service, National Oceanic and Atmospheric Administration, Guard/Reserve personnel who are activated for a period in excess of 30 days, and other special categories of people who qualify for benefits)
- Those who retired from military careers
- Immediate family members of people in the previous two categories
- Surviving family members.

A stratified probability sample design was used to select DoD health care beneficiaries for the Quarter I 2003 Adult HCSDB. Strata were defined by a combination of enrollment status groups, and beneficiary groups, and geographic areas. Specific information on the sample design appears in "The Health Care Survey of DoD Beneficiaries: 2003 Adult Sample Design", Mathematica Policy Research, Washington, D.C.

From a sample of 45,000 beneficiaries, 13,915 adult MHS beneficiaries completed and returned a 2003 Adult HCSDB questionnaire for the first quarter during the period, yielding a response rate of 31percent. Information on developing response rates can be found in the "2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual."

Other Documents on the 2003 HCSDB

This document is intended for programmers and analysts using the 2003 Adult HCSDB data. The following is a list of other documents that may be requested from the TRICARE Management Activity Office:

- The Health Care Survey of DoD Beneficiaries: 2003 Adult Sample Design
- The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual
- The 2003 Health Care Survey of DoD Beneficiaries: National Executive Summary Report

Chapter
2

Description of the Adult HCSDB Database

This chapter presents the procedures for developing the database, and presents the database file layout.

Variable Naming Conventions

The conventions used to name variables on the 2003 Adult HCSDB data file are listed below and summarized in Table 2.1. The naming conventions will remain constant across the four quarters of the 2003 HCSDB.

- **Survey Variables.** Core survey variable names consist of up to eight alphanumeric characters that start with an alpha character ("H" for Adult survey variables), followed by a year designation ("03") and ending with three numbers and, if necessary, one alpha character to identify the relevant survey question. Recoded variables have the same names as on the survey. The original variables are suffixed with "_O"; these will not be on the public release file.
- **Supplemental Question Variables.** Each quarter, the questionnaire includes a battery of questions on specific health care topics concerning services offered to MHS beneficiaries. The supplements in the first quarter contained questions relating to military pharmacies, military facilities, TRICARE's civilian network and briefings on TRICARE eligibility. Like the core questions, supplemental questions also include eight alphanumeric characters; each variable begins with an "S" to distinguish it as a supplemental question, followed by the year designation ("03"). The variable ends with an alpha character and the question number in the supplemental series.
- **Self-Reported Data.** Defense Manpower Data Center (DMDC) standard demographic self-reporting variables on the adult survey are prefixed with "SR." Survey variables with this naming convention include SRRACE (race/ethnicity) and SREDA (education).
- **Coding Scheme Flags and Counts.** Coding Scheme flags, variables N1-N22, reference the notes in the Coding Scheme for Adult Survey. See Appendix C for the Coding Scheme for Quarter I for more information. Coding Scheme counts are sums of missing value responses for each questionnaire; each of these variable names begins with the 4 characters "MISS".
- **Constructed Independent Variables.** Independent variables are prefixed with an "X." These include original survey variables modified as a result of data cleaning or recoding and newly constructed variables that did not previously exist on the survey file. For example, since the variable SRSEX was modified as a result of data cleaning and recoding, it was renamed XSEXA.
- **Constructed Dependent Variables.** Dependent variables are given different prefixes depending on function. Healthy People 2010 variables, for example, are prefixed with an "HP" and all other newly constructed dependent variables are prefixed with a "K."
- **Weighting Variables.** Quarterly weighting variables are prefixed with a "W."

TABLE 2.1

NAMING CONVENTIONS FOR 2003 HCSDB VARIABLES – QUARTER I

1 st Character: Survey Type	2 nd – 3 rd Character s: Survey Year	4 th – 6 th Characters: Question #	Additional Characters: Additional Information
H= Health Beneficiaries (18 and older, Adult Questionnaire) ----- S = Supplemental Question	03	001 to 082 ----- Quarter I R01-R04 – Supplemental questions about military pharmacies. F01-F02 – Supplemental questions about military facilities. V01-V05 – Supplemental questions about TRICARE's civilian network. B01 – Supplemental question about briefings on TRICARE. O01-O06 – Supplemental questions about prenatal care.	A to O are used to label responses associated with a multiple response question _O denotes an original version of a recoded variable -----

1 st Characters: Variable Group	Additional Characters: Additional Information
SR=Self-reported demographic data	Descriptive text, e.g., SREDA
N=Coding scheme notes	Number referring to Note, e.g., N2
X=Constructed independent variable	Descriptive text, e.g., XREGION
HP=Constructed <i>Healthy People</i> 2010 variable	Descriptive text, e.g., HP_BP (had blood pressure screening in past two years and know the results)
K=Constructed dependent variables	Descriptive text, e.g., KMILOPQY (total number of outpatient visits to military facility)

Cleaning and Editing Conventions

Data quality procedures are found in the Coding Scheme tables. The complete Coding Scheme appears in Appendix C. It contains detailed instructions for all editing procedures used to correct data inconsistencies and errors. Editing procedures check for appropriate response values and consistent responses throughout the questionnaire. The steps to insure data quality include the following:

- **Initial Cleaning.** Missing value flags were encoded when NRC created the SAS dataset:
 - Skipped items were encoded with SAS missing value code of ‘.’.
 - Multiple responses, where there should be a single response, were encoded with SAS missing value ‘A’.
- **Data Cleaning and Recoding of Variables – Implementation of the Coding Scheme.** Skip patterns were checked for consistency, and questions that were skipped legitimately were recoded with the SAS missing value of “N”; questions that were answered, but should have been skipped, were recoded with a SAS missing value of “C”. When possible, variables were backward coded or forward coded to make all responses consistent within a sequence. Numeric values were checked, and values that were out of range were flagged with the SAS missing value of “O”.
- **Frequency Checks.** Formatted and unformatted frequency tables for all variables in the 2003 Adult HCSDB Quarter I data file appear in Chapter 4 of this document. These frequency tables and other relevant cross tabulations were used to examine the range of values recorded for each data item to determine the type and magnitude of missing values. All value labels have been checked for accuracy.

Record Selection Criteria

Blank returns, nonrespondents, and any respondents found to be ineligible for MHS benefits were removed from the database. In addition, among eligible respondents with a non-blank questionnaire, a questionnaire must be “complete” to be included in the database.

To determine if a questionnaire is “complete”, 26 key questions were chosen. These key questions were adapted from the complete questionnaire rule developed by AHRQ for CAHPS surveys. At least 50 percent of these key items (fourteen or more) must be answered for a questionnaire to be accepted as a complete questionnaire. The key survey variables are: H03006, H03008, H03009, H03010, H03011, H03012, H03014, H03015, H03017, H03018, H03019, H03022, H03023, H03025, H03026, H03027, H03029, H03036, H03038, H03043, H03045, H03050, H03052, H03072, SREDA, H03082.

Weighting Procedures

The analysis of survey data from complex sample designs, such as the 2003 Adult HCSDB, requires weights to do the following:

- Compensate for variable probabilities of selection
- Adjust for differential response rates
- Improve the precision of the survey-based estimates through post-stratification [for details, see Brick and Kalton (1996) and references cited therein].

Sampling weights are equivalent to the reciprocal of the probability of each respondent’s selection into the sample. Sampling weights are further adjusted for nonresponse within classes defined by sampling strata: a cross-classification of enrollment status, geographic area, and beneficiary group. These nonresponse-adjusted weights are then ratio-adjusted to population counts from the DEERS files to compensate for variations from the estimated population counts. Chapter 4 contains the weighted and unweighted frequencies for each variable in the first quarter of 2003.

3

Programming Guide

This chapter is designed to help users create tables and variance estimates. Procedures for using SAS, SPSS, SUDAAN, and WesVarPC to create estimates are explained. Examples provided in the text are based on the first quarter of data from the 2003 HCSDB.

How To Make a Table Using SAS

The 2003 Adult HCSDB dataset is provided in a Statistical Analysis System (SAS) 6.0 format. SAS is a computer software system used for data management, summarization, and analysis. Later versions of SAS can also read version 6 datasets. A format library for the adult database is included along with the dataset. SAS can be run interactively or non-interactively (in batch mode), and the sample programs presented here can be run using either method. Special instructions are given later in the chapter for working interactively with the SAS Display Manager System in a Windows environment. All SAS programs generate a LOG and a LST file. The LOG file shows how SAS interprets your program and flags SAS syntax errors. The LST file shows the requested output.

File References, Libraries, and Options

SAS recognizes two types of datasets -- permanent and temporary. Permanent datasets, such as the HCSDB, are located through a LIBNAME that references the directory where the data is stored. For example, if the adult dataset for Quarter I is located on a CD-ROM in the subdirectory HCSDB03\FORMA\Q1, your LIBNAME statement must look like this:

LIBNAME INFORMA 'F:\HCSDB03\FORMA\Q1';

The adult dataset can then be referred to as INFORMA.HCSDB03, where INFORMA is the location of the file HCSDB03.

A format library requires a LIBNAME LIBRARY statement that shows the location of the format library. For example, if the adult format library is stored on your hard drive in a FMTLIB subdirectory, the LIBNAME statement should look like this:

LIBNAME LIBRARY 'C:\HCSDB03\FORMA\Q1\FMTLIB';

The OPTIONS statement controls page format and line length. A table with a “portrait” orientation might have this statement:

OPTIONS PS=79 LS=132;

A table with a “landscape” orientation that is left justified would have this OPTIONS statement:

OPTIONS PS=50 LS=175 NOCENTER;

DATA Step

The DATA step is used to create permanent or temporary datasets. It is also used to create new variables, modify existing variables, and limit the number of variables or observations. In a DATA step, you can do any or all of the following activities:

- Construct new variables. For example, to construct a variable of active duty by sex:

```
/* Active duty males */
IF XSEXA = 1 AND XBNFGRP = 1 THEN XSEX_AD = 1;
* Active duty females;
ELSE IF XSEXA = 2 and XBNFGRP = 1 THEN XSEX_AD = 2;
ELSE XSEX_AD = .; /* missing value */
```

[Note: the two methods to insert comments: enclosed within /* */ or beginning with * and ending with a semicolon]

- Modify existing variables. For example, if the respondent is in region 7, the respondent will be placed in the combined region 7/8:

```
IF XREGION = 7 THEN XREGION = 8
```

- Limit the number of variables. Use a KEEP statement:

```
KEEP XREGION CACSMPL H03056 H03014;
```

- Limit the number of observations. Use a subsetting IF:

```
/* Keep only region 3 observations */
IF XREGION = 3;
```

- Create a new temporary dataset. For example, CAC_1 is a temporary file of observations for only those respondents in catchment area 1:

```
LIBNAME INFORMA 'F:\HCSDB03\FORMA';
DATA CAC_1;
/* Input file is HCSDB03 */
SET INFORMA.HCSDB03;
IF CACSMPL = 1;
RUN;
```

- Create a new permanent dataset. For example, OUT.CAC_9901 is a permanent dataset only of Region 1 out-of-catchment respondents:

```
LIBNAME INFORMA 'F:\HCSDB03\FORMA';
LIBNAME OUT 'C:\HCSDB03\FORMA';
DATA OUT.CAC_9901;
SET INFORMA.HCSDB03;
IF CACSMPL = 9901;
RUN;
```

PROC TABULATE

PROC TABULATE produces summary statistics in a table layout. The table can have up to three dimensions: page, row, and column. Within any dimension, multiple variables can be reported one after another or hierarchically. Useful statistics that are available in PROC TABULATE include:

- N number of observations with nonmissing values
- NMISS number of observations with missing values
- MEAN the arithmetic mean
- SUM the sum
- PCTN percent that one frequency represents of another frequency
- PCTSUM percent that one sum represents of another sum

The essential elements to execute PROC TABULATE are outlined below (items within < > are not required):

```
PROC TABULATE DATA=your dataset <option list>;
  CLASS class variables;
  VAR analysis variables;
  TABLE <<page expression, >row expression, >column expression </table options >>;
  WEIGHT WRWT;
  RUN;
```

If the input file is to be limited to a specific population, a separate DATA step can precede the TABULATE, or a WHERE statement can be used within the TABULATE procedure. For example, to create a table from only respondents in catchment area 1, you would use the following statement after the PROC TABULATE statement:

```
WHERE CACSMPL = 1;
```

CLASS variables are any variables that are used for grouping; variables such as XREGION, XSEXA, and CACSMPL are good examples of class variables. Class variables can be either character or numeric and typically have a discrete number of values. Unless MISSING is specified in the options list in the PROC TABULATE state, any observations with a missing CLASS variable will be dropped from the table.

The VAR statement identifies all analysis variables for a table. Analysis variables must be numeric and can be either discrete or continuous. SAS excludes missing values when computing statistics such as means and percentages.

The WEIGHT statement identifies the numeric variable whose value is used for weighting each analysis variable. In the HCSDB for 2003, the weight variable is WRWT.

The TABLE statement defines the table features. Every variable listed in this statement **must** be classified as either a class variable or an analysis variable in the CLASS or VAR statements. A comma separates each table dimension (page, row, and column). If there are three dimensions, the first is the page, the second is the row, and the last is the column. If there are only two dimensions, the first is the row and the second is the column. Tables with only one dimension are in column form. Each dimension expression is composed of the same following elements:

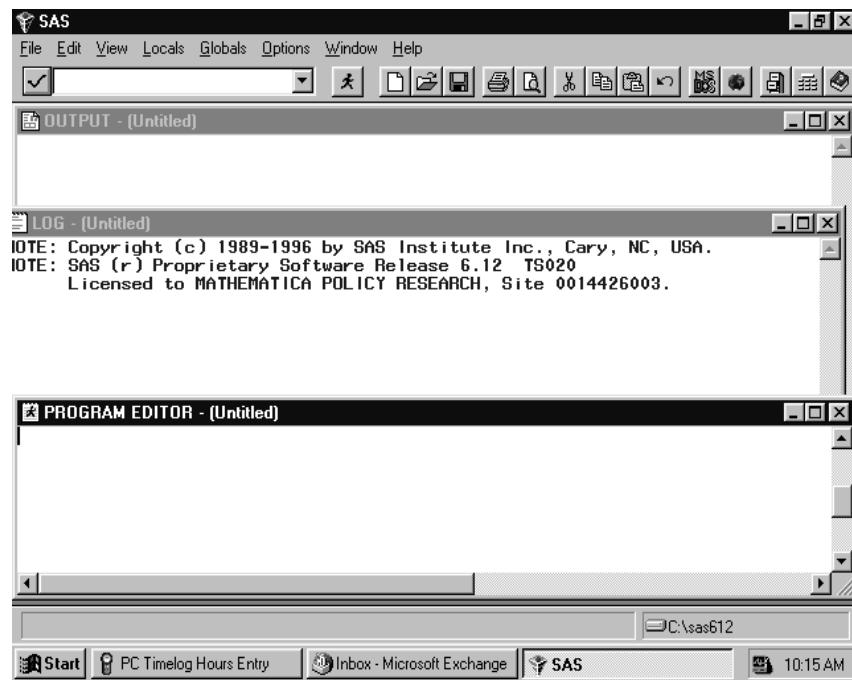

- Analysis variables

- Class variables
- The universal class variable ALL, which summarizes the class variables in the same group or dimension
- Keyword for the statistic to be performed, such as MEAN, SUM, or PCTSUM
- A format modifier, which defines how to format values in cells. For example, F=8.2 will present values with a maximum of 8 positions and 2 digits to the right of the decimal.
- Labels, which temporarily replace variable names and statistic keywords. These labels have the form ='label'; for example, XREGION='Region' or MEAN='' (to eliminate the word MEAN from the headings).
- Crossing operator * (asterisk). The asterisk is used to cross elements within the same dimension. For example, you would use XENRLLMT*XSEXA to cross enrollment status by sex. The asterisk is also used to connect the statistic (e.g., MEAN, SUM) to the appropriate dimension; for example, to calculate the mean of respondents' satisfaction with all health care in the last 12 months, you would use H03036 *MEAN.
- Denominator definitions are enclosed by < > (brackets).
- Concatenation operator is a single space between elements in a dimension. For example, to concatenate satisfaction with all health care in the last 12 months with satisfaction with health plan, you would use H03036 H03052.
- Grouping is accomplished with parentheses. Below is an example of grouping, concatenation, and crossing within a single dimension:

(XBNFGRP ALL)*XSEXA

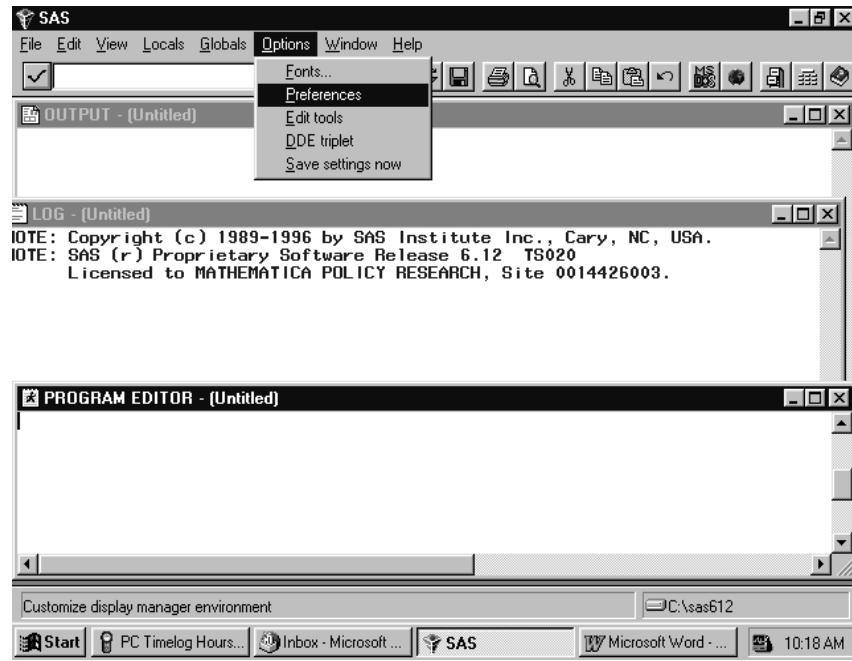

The SAS Display Manager System

The SAS Display Manager system provides an interactive tool for running SAS commands, like those given above, in the Windows environment. Double clicking the SAS icon on the desktop begins the SAS session. When you first enter the system, the following screen opens.

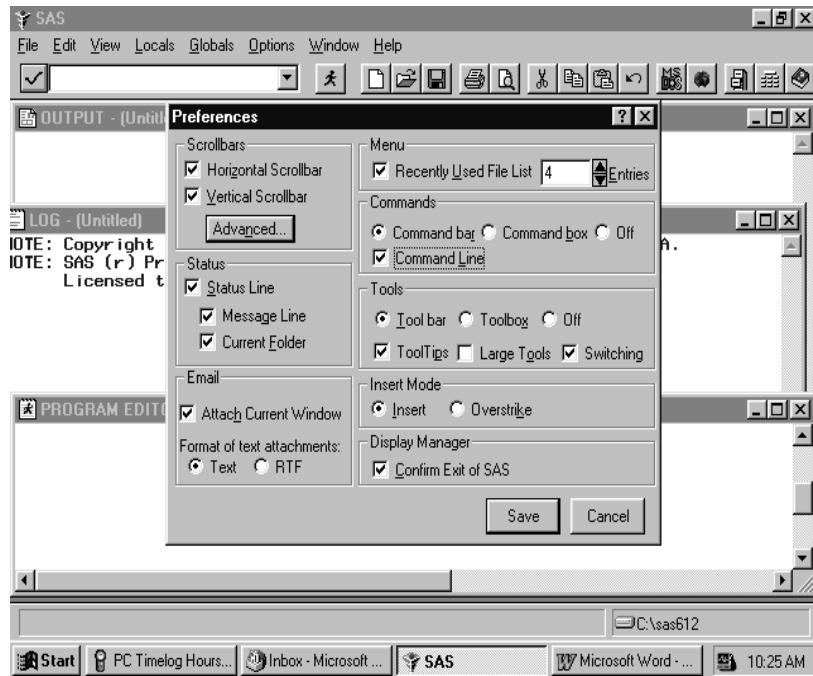

The screen is divided into three windows, each corresponding to an aspect of your SAS session. The Program Editor is the window where you compose, edit, and run your SAS commands. The Log window displays messages from the SAS system as well as your SAS statements as they are executed. Any error messages appear in the Log. The Output window displays the output tables requested in procedure commands written in the Program Editor. Toggling among the windows is accomplished by clicking anywhere in a given window. The cursor will jump to the selected window. Below are some options for customizing these screens by defining Preferences.

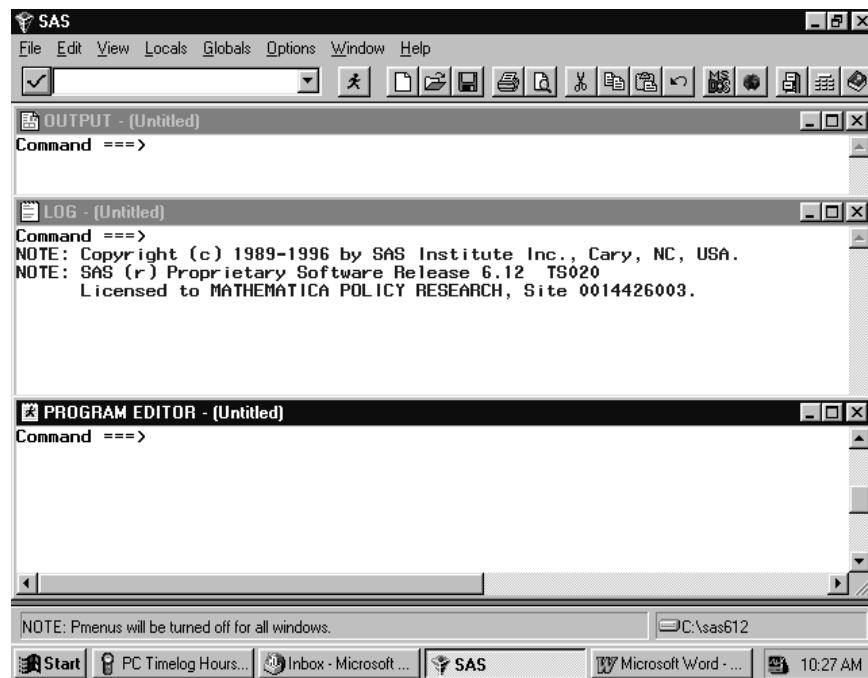

Clicking on **Options** results in the following screen.

Click on Preferences as highlighted above, and the following screen will open.

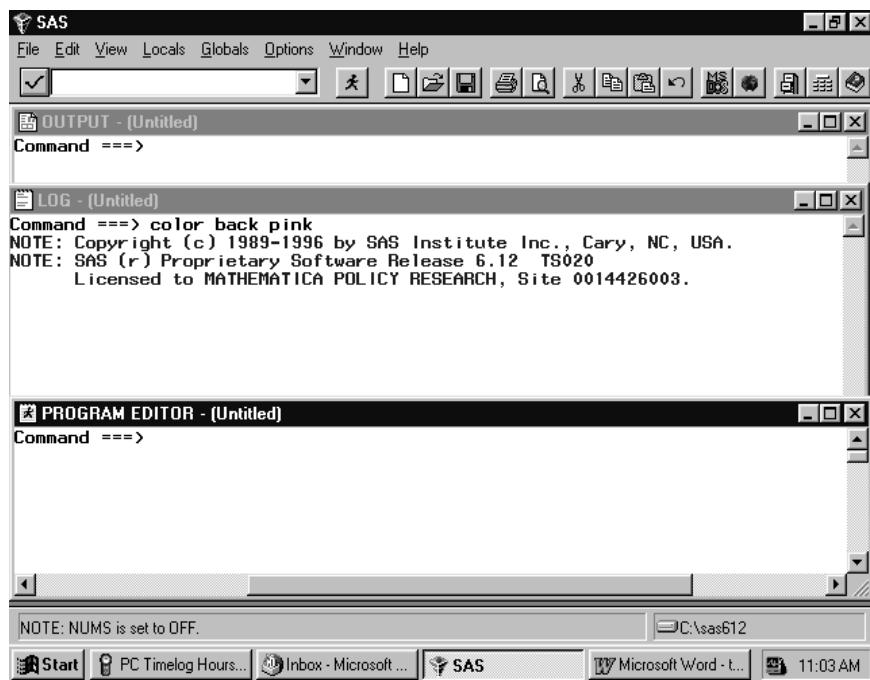

Many of these settings are system default options. To add a command line to the three windows, you would click in the box opposite **Command Line**, causing a check mark to appear in the box. Your screen should resemble the screen above. Click on **Save** and the screen will change to the following.

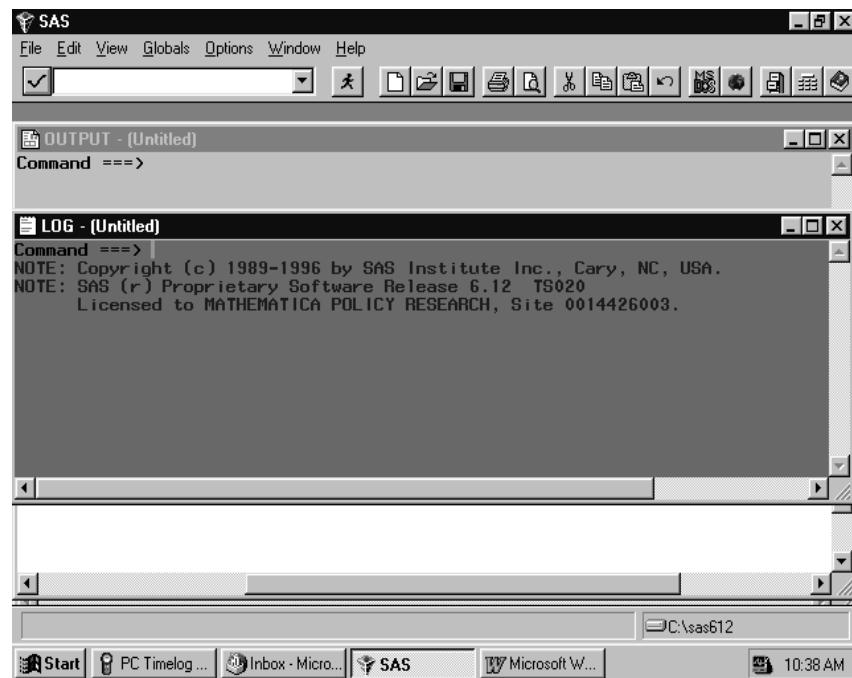

Each window shows the word **Command** followed by an arrow. Commands may be typed at this location. To arrive at the command line, depress the **Home** button on your keyboard. The cursor will appear opposite the arrow.

Toggling among the windows may be accomplished by typing the desired window name at the command line and pressing **Enter**. SAS recognizes **Pgm** as the abbreviated reference to the Program Editor and **Out** as a shortened name for the Output window. A few keystrokes allows you to navigate among the windows. For example, the command line lets you continue to customize our SAS session as follows.

In order to more easily distinguish between the SAS windows, it may be preferable to change the background color of selected windows. As an example, set the background color of the Log window to pink and the Output window to gray. Press the **Home** key to arrive at the command line. Type **Log** opposite the arrow to toggle to the Log window. Type the command, **color back pink** (or some other color) on the command line. Your screen will resemble the following.

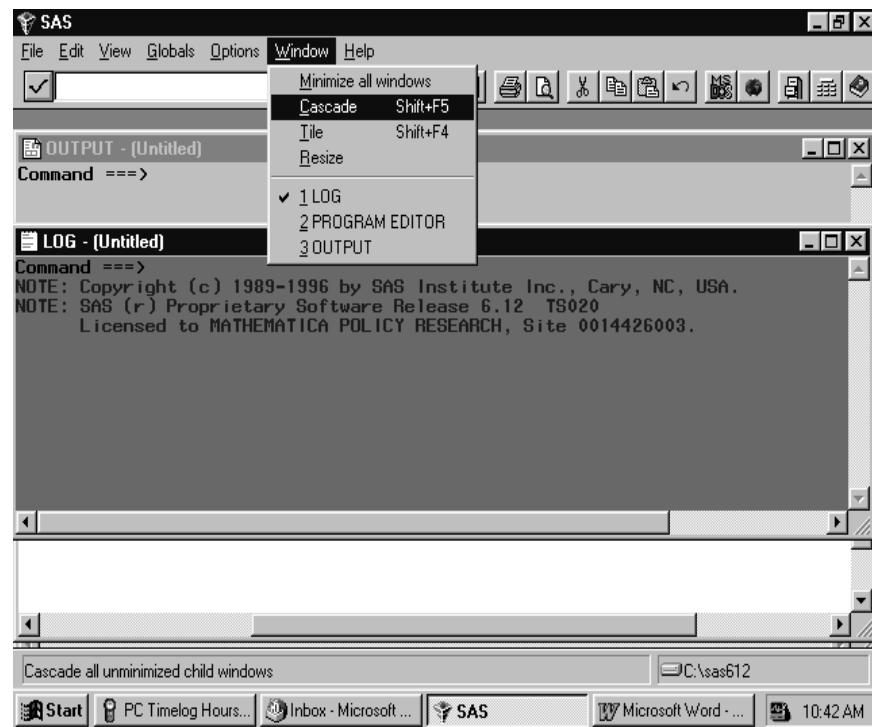

Press **Enter** to process the commands and the window will shade to pink. Toggle to the Output window by typing **Out** and keying **Enter**. Type **color back gray** and key **Enter**. These changes make it easier to distinguish between the windows at a glance. The screen looks like the following.

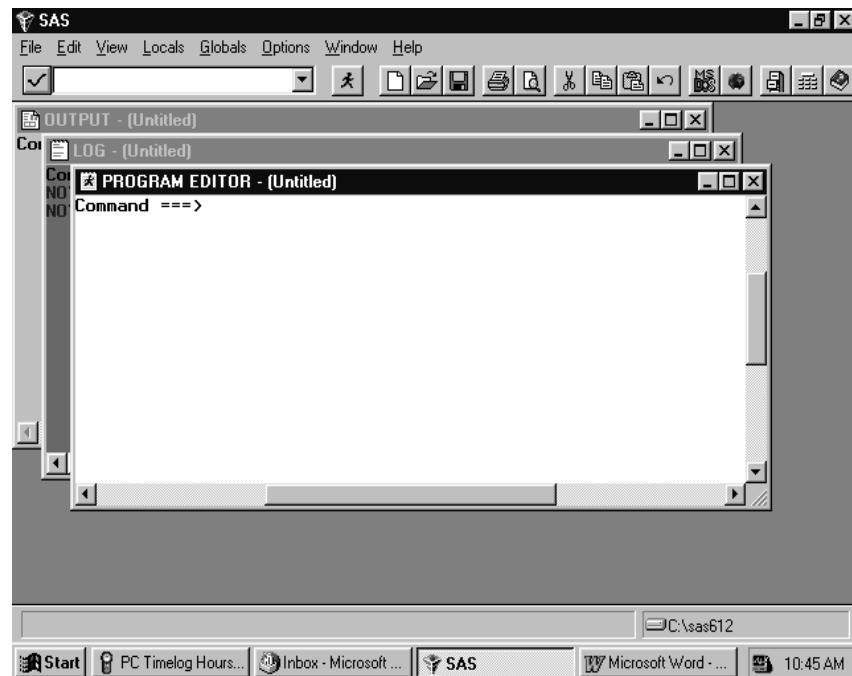

All SAS statements for building and processing SAS datasets are typed into the Program editor. A SAS session may involve typing statements like the ones above for library reference, computing new variables, data steps, etc. Entering a long series of statements in such a small space may be awkward, so another arrangement for the windows may be preferable.

Cascading the windows is one option. To cascade the windows, open the **Window** menu, and choose **Cascade** as indicated in the following.

The following option also uses color to distinguish between windows.

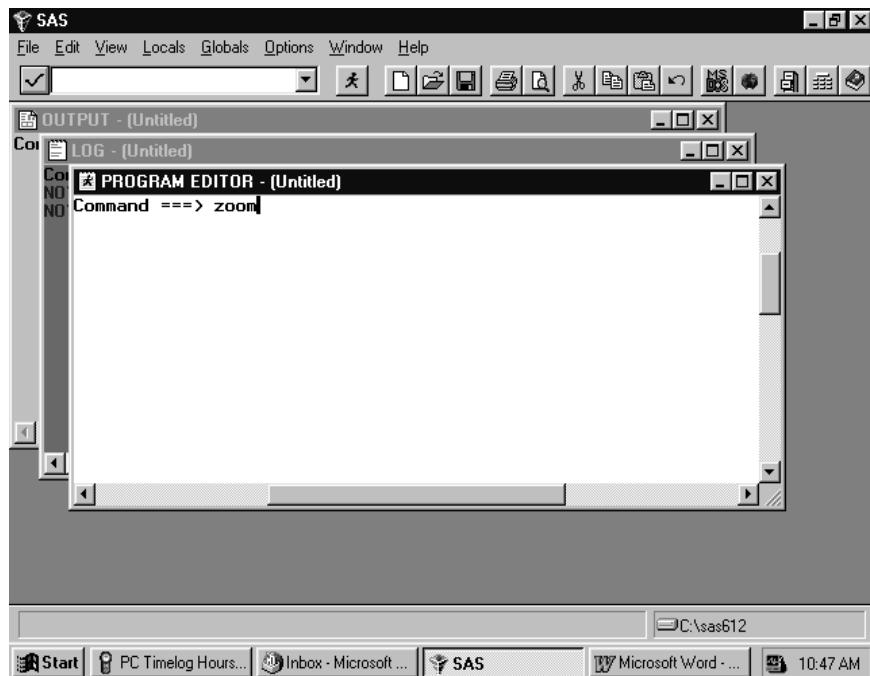

Clicking the option Cascade produces the following result.

Each window is partly superimposed on the other. The colors distinguish between windows at a glance. With the Program Editor in front, SAS statements may be typed there with relative ease. As a final

option, you can enlarge the Program Editor to fill the entire screen. At the command line, type **zoom** as in the following:

The window changes to fill the screen.

One more option for customizing screens is explained below. This involves adding line numbers to the editing environment in the Program Window. After adding the line numbers, many useful line-editing commands become available (see the SAS Manual). On the **Edit** menu choose **Options** and **Numbers** as in the following screen.

The line numbers appear at the left of the full screen Program Editor as in the screen below, and the SAS statements can be typed into the screen and edited.

A screenshot of the SAS Program Editor window titled "SAS - [PROGRAM EDITOR - (Untitled)]". The "Edit" menu is open, showing options like Undo, Cut, Copy, Paste, Find..., Replace..., and Check spelling. A submenu for "Options" is also open, listing "Numbers", "Caps", "Hor. scroll...", "Ver. scroll...", "Autoadd", "Autoflow", "Autosplit", "Autowrap", "Bounds...", "Indent", and "Reset". The main editor area displays a series of line numbers from 00001 to 00025, each followed by a blank line. The taskbar at the bottom shows "C:\sas612" and the system clock at 10:55 AM.

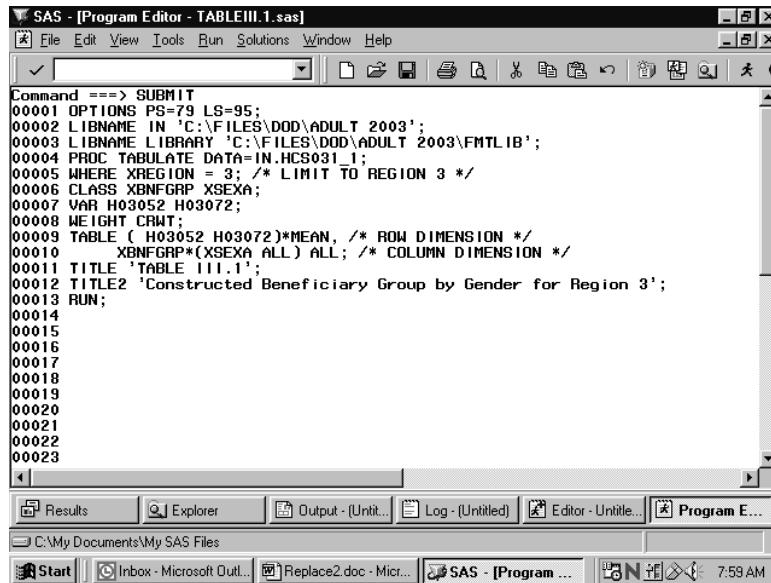

Below is an example of a PROC TABULATE to construct a table of health care variables by beneficiary group by gender for respondents in region 3. Beneficiary group (XBNFGRP) and sex (XSEXA) are both

class variables with a discrete number of values. The columns of the table are beneficiary group broken out by sex, a total for each beneficiary group, and a region total. The health care variables (H03052 and H03072) are the analysis variables appearing as the rows of the table. The statistic that we want to see is the weighted mean of these variables for each group in the table and for the entire region as a whole.

Enter the following SAS statements into the **Program Editor**.

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';
PROC TABULATE DATA=IN.HCS031_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H03052 H03072;
WEIGHT CRWT;
TABLE (H03052 H03072)*MEAN, /* Row Dimension */
      XBNFGRP*(XSEXA ALL) ALL; /* Column Dimension */
TITLE "Table III-1";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Key **Home** and type the command **SUBMIT** on the Command Line. **Submit** instructs the SAS system to process the commands written in the Program Editor. Your screen should resemble the following.

Enter the **Submit** command, and the SAS statements disappear from the Program Editor. If a table is successfully produced, the Output window will open and the table will be displayed. If no output is produced, then SAS has encountered an error. SAS statements about the error can be seen and evaluated in the Log window. In all cases, the Log window should be carefully examined after SAS statements are processed. SAS may produce a table even if there are errors in the program, so the table may not be correct.

No table was produced for this run. The error is indicated in the Log Window as shown below.

```

SAS - [Log - (Untitled)]
File Edit View Tools Solutions Window Help
Command ==>
40 OPTIONS PS=79 LS=95;
41 LIBNAME IN 'C:\FILES\DO&D\ADULT 2003';
NOTE: Libref IN was successfully assigned as follows:
      Engine: V6
      Physical Name: C:\FILES\DO&D\ADULT 2003
42 LIBNAME LIBRARY 'C:\FILES\DO&D\ADULT 2003\FMTLIB';
NOTE: Libref LIBRARY was successfully assigned as follows:
      Engine: V6
      Physical Name: C:\FILES\DO&D\ADULT 2003\FMTLIB
43 PROC TABULATE DATA=IN.HCS031_1;
44 WHERE XREGION = 3; /* LIMIT TO REGION 3 */
45 CLASS XBNFGRP XSEX;
46 VAR H03052 H03072;
47 WEIGHT CRWT;
ERROR: Variable CRWT not found.
48 TABLE ( H03052 H03072)*MEAN, /* ROW DIMENSION */
49           XBNFGRP*(XSEX ALL) ALL; /* COLUMN DIMENSION */
50 TITLE 'TABLE III.1';
51 TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
52 RUN;

NOTE: The SAS System stopped processing this step because of errors.
NOTE: PROCEDURE TABULATE used:

```

The screenshot shows the SAS Log window with the title "SAS - [Log - (Untitled)]". The log output displays a series of SAS statements, primarily PROC TABULATE, intended to generate a table. An error occurs at statement 47, where the variable "CRWT" is used in the WEIGHT clause. The log message "Variable CRWT not found." is displayed. The window also shows the operating system's taskbar at the bottom.

The variable CRWT was not found in the dataset. Type **Pgm** on the Command line to return to the Program Editor. Type **Recall** on the Command line and the program statements will reappear in the window.

You can correct the error by entering WRWT, the correct variable name, in the weight statement. Then, rerunning the procedure.

The corrected program produces the following output.

		Constructed Beneficiary Group			
		Active Duty		Family of	
		Male or Female - R		Male or Fe	
Male	Female	All	Male		
Rating of all experience with health plan	Mean	6.52	7.24	6.67	6.55
In genrl, how would you rate overall health	Mean	3.83	3.84	3.83	3.75

The screenshot shows the SAS Output window with the title "SAS - [Output - (Untitled)]". The output displays the results of the PROC TABULATE procedure, specifically Table III.1. The table compares "Constructed Beneficiary Group" across "Active Duty" and "Family of" categories, further broken down by gender (Male or Female). The first row shows the mean rating of all experience with the health plan, and the second row shows the mean rating of overall health. The table includes column headers for "Male" and "Female" under the "Active Duty" section, and "All" and "Male" under the "Family of" section.

The result of this process is Table III.1.

Note that the TITLE statement defines the heading for each page. Titles of more than one line are entered as TITLE, TITLE2, etc.

Using Formats

The format library is the key to interpreting values of discrete variables. For example, in the program above, the format library found at C:\FILES\DoD\ADULT 2003\FMTLIB indicates that a Value of 1 for XSEXA means male, and a value of 2 for XSEXA means female. Similarly, if XBNFGRP equals 1, the respondent is active duty; if XBNFGRP equals 2, the respondent is a family member of active duty personnel; if XBNFGRP equals 3, the respondent is an under-65 retiree or a survivor or one of their family members; if XBNFGRP equals 4, the respondent is a 65-or-over retiree, survivor, or one of their family members.

Since formats are associated with the variables in the HCSDB, formatting is automatic as long as SAS can locate the format library. Error messages will result if the LIBNAME LIBRARY statement is not present. If the format library is not available for some reason, use the statement

FORMAT _ALL_;

within the PROC TABULATE to prevent SAS from searching for the missing format library. The default formats in the format library were used to produce the table described in the previous section.

Table Appearance

Format modifiers and temporary labels improve the appearance of a table. In Table III.1, the values of the statistics are of the form x.xx. If each cell is defined to be six positions wide with two positions to the right of the decimal, there is adequate space plus some extra room to keep the table from looking crowded. This is done by crossing the statistic with the format modifier:

MEAN*F=6.2

Labels are attached to all variables in the HCSDB. You can use temporary labels to override the label within the SAS dataset. It is not always necessary to use both the variable label and the formatted values for each value of a class variable. In the previous example, the formatted values of XBNFGRP are active duty, family members of active duty, etc. which we know to be beneficiary groups; the title also tells you that these are beneficiary groups. The table can be made attractive by deleting the heading for XBNFGRP by including a blank for the temporary label:

XBNFGRP=' '

Similarly, because the statistic being reported here is a mean, you do not need MEAN on each row. You can add or eliminate a label and include a format modifier to the same variable:

MEAN=' *F=6.2

The headings for XSEXA and ALL can be improved:

XSEXA='Gender'

ALL='Group Total' for the ALL that is crossed with XBNFGRP

ALL='Total' for the Region 3 total

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group				
		Active Duty			Family of Active	
		Male or Female - R		All	Male or Female - R	
		Male	Female		Male	Female
Rating of all experience with hlth plan	Mean	6.52	7.24	6.67	6.55	7.09
In gnrl, how would you rate ovrall hlth	Mean	3.83	3.84	3.83	3.75	3.62

(Continued)

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group				
		Family of Active	Ret/Surv/Fam <65			All
			Male or Female - R		Male or Female - R	
			All	Male	Female	
Rating of all experience with hlth plan	Mean	7.05	7.23	7.72	7.48	8.67
In gnrl, how would you rate ovrall hlth	Mean	3.63	3.28	3.44	3.36	3.01

(Continued)

Table III.1
Constructed Beneficiary Group by Gender for Region 3

		Constructed Beneficiary Group		
		Ret/Surv/Fam 65+		
		Male or Female - R		
		Female	All	All
Rating of all experience with hlth plan	Mean			
		9.01	8.84	7.65
In gnrl, how would you rate ovrall hlth	Mean			
		2.95	2.98	3.38

The new program looks like this:

```
OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';
PROC TABULATE DATA=IN.HCS031_1;
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H03052 H03072;
WEIGHT WRWT;
TABLE (H03052 H03072)*MEAN='*F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA='Gender' ALL='Group Total')
ALL='Total';

TITLE "Table III.2";
TITLE2 'Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typing these statements into the Program Window produces the following screen.

```

SAS - [Program Editor - TABLEIII.2.sas]
File Edit View Tools Run Solutions Window Help
Command ==> SUBMIT
00001 OPTIONS PS=79 LS=95;
00002 LIBNAME IN 'C:\FILES\DOOD\ADULT 2003';
00003 LIBNAME LIBRARY 'C:\FILES\DOOD\ADULT 2003\FMTLIB';
00004 PROC TABULATE DATA=IN.HCS031_1;
00005 WHERE XREGION = 3; /* limit to Region 3 */
00006 CLASS XBNFGRP XSEX;
00007 VAR H03052 H03072;
00008 WEIGHT WWT;
00009 TABLE ( H03052 H03072)*MEAN, /* Row Dimension */
00010 /* Column Dimension */
00011 XBNFGRP='*(XSEX='Gender' ALL='Group Total')
00012 ALL='Total';

00020
00021
00022
00023

```

After the **Submit** command is entered, the following table is displayed in the Output window.

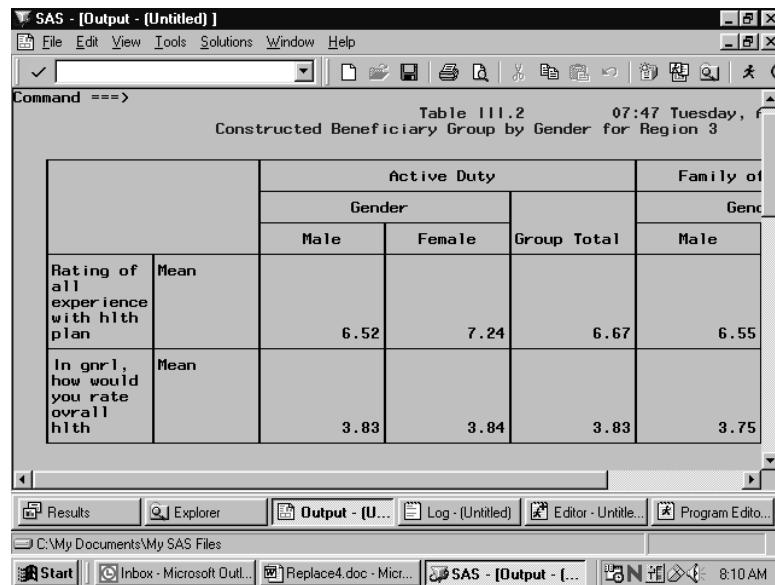

Table III.2 07:47 Tuesday, April 1, 2003
Constructed Beneficiary Group by Gender for Region 3

Rating of all experience with health plan	Mean	Active Duty			Family of	
		Gender		Group Total	Gender	
		Male	Female		Male	Female
In gnr1, how would you rate overall health	Mean	3.83	3.84	3.83	3.75	
Rating of all experience with health plan	Mean	6.52	7.24	6.67	6.55	

The resulting output is in Table III.2.

Table III.2
Constructed Beneficiary Group by Gender for Region 3

	Active Duty			Family of Active			Ret/Surv/Fam <65		
	Gender		Group	Gender		Group	Gender		Group
	Male	Female		Male	Female		Male	Female	
Rating of all experience with hlth plan	6.52	7.24	6.67	6.55	7.09	7.05	7.23	7.72	7.48
In gnrl, how would you rate ovrrall hlth	3.83	3.84	3.83	3.75	3.62	3.63	3.28	3.44	3.36

(Continued)

Table III.2
Constructed Beneficiary Group by Gender for Region 3

	Ret/Surv/Fam 65+			Total	
	Gender		Group		
	Male	Female			
Rating of all experience with hlth plan	8.67	9.01	8.84	7.65	
In gnrl, how would you rate ovrrall hlth	3.01	2.95	2.98	3.38	

Although the label for MEAN is deleted, there is still a space in the table for this label. You can eliminate this blank space by using the TABLE option of ROW=FLOAT. SAS row headings are automatically allocated; you can override this by using the TABLE option of RTS=n where n is an integer value specifying the number of print positions to be used for row headings. If you decide that we don't need the label 'Gender' for XSEXA because 'male' and 'female' are self-explanatory, the revised program is as follows:

```

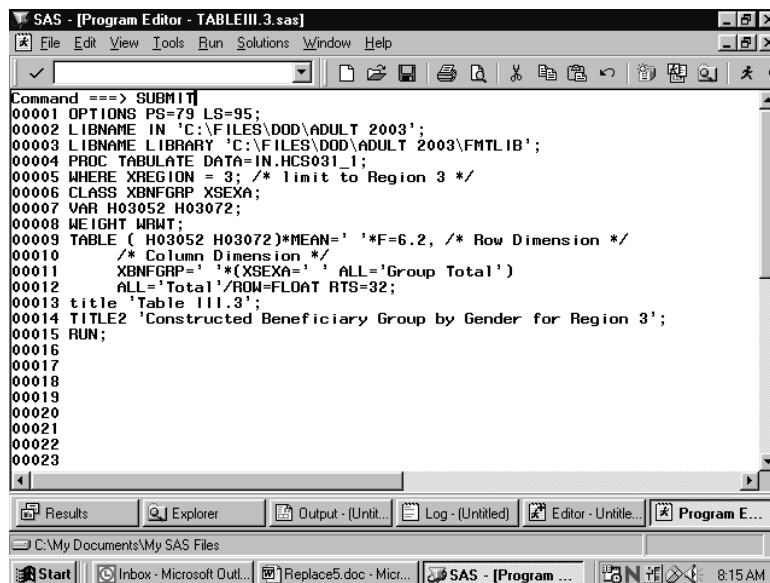

OPTIONS PS=79 LS=95;
LIBNAME IN 'C:\FILES\DoD\ADULT 2003';
LIBNAME LIBRARY 'C:\FILES\DoD\ADULT 2003\FMTLIB';
PROC TABULATE DATA=IN.HCS031_1;

```

```
WHERE XREGION = 3; /* limit to Region 3 */
CLASS XBNFGRP XSEXA;
VAR H03052 H03072;
WEIGHT WRWT;
TABLE (H03052 H03072)*MEAN='*F=6.2, /* Row Dimension */
/* Column Dimension */
XBNFGRP='*(XSEXA=' ALL='Group Total')
ALL='Total'/ROW=FLOAT RTS=32;
Title "Table III.3";
```

```
TITLE2' Constructed Beneficiary Group by Gender for Region 3';
RUN;
```

Typed into the Program Window, the revised program appears as follows.

The output table is displayed in the Output Window as follows.

	Active Duty			Family of Active			Ret/Surv/Fam <65
	Male	Female	Group Total	Male	Female	Group Total	
Rating of all experience with hlth plan	6.52	7.24	6.67	6.55	7.09	7.05	7.23
In gnrl, how would you rate ovrall hlth	3.83	3.84	3.83	3.75	3.62	3.63	3.44

(Continued)

The result is Table III.3.

Table III.3
Constructed Beneficiary Group by Gender for Region 3

	Active Duty			Family of Active			Ret/Surv/Fam <65
	Male	Female	Group Total	Male	Female	Group Total	
Rating of all experience with hlth plan	6.52	7.24	6.67	6.55	7.09	7.05	7.23
In gnrl, how would you rate ovrall hlth	3.83	3.84	3.83	3.75	3.62	3.63	3.44

Table III.3
Constructed Beneficiary Group by Gender for Region 3

	Ret/S- urv/F- am <65	Ret/Surv/Fam 65+				Total
		Group Total	Male	Female	Group Total	
Rating of all experience with hlth plan	7.48	8.67	9.01	8.84	7.65	
In gnrl, how would you rate ovrall hlth	3.36	3.01	2.95	2.98	3.38	

Calculating Percents

When calculating percentages, it is necessary to appropriately define the denominator. To calculate a column percentage, the denominator definition must include all *class* variables that define the *row*. For example, if you want to look at the percentage of people in your region and each of the catchment areas who answered yes (or no) to question 14, ‘In the last 12 months, did you see a specialist?’, your TABLE statement in the TABULATE procedure would look like this:

```
WHERE XREGION = 6;  
  
TABLE H03014 ALL='Total',  
  
(All='Region Total' CACSMPL)*PCTN<H03014 ALL>='Percent';
```

Table III.4 includes a program and its output for calculating column percentages. The program statements in the Program Editor appear as follows.

The screenshot shows the SAS Program Editor window titled "SAS - [Program Editor - TABLEIII.4.sas]". The editor displays a series of SAS program statements. The code includes options for PS=79, LS=95, nonumber, and nodate; library definitions for IN and LIBRARY; a PROC TABULATE statement with DATA=IN.HCS031_; WHERE XREGION = 6 /* Limit to Region 6 */; CLASS H03014 CACSMPL; WEIGHT WWT; TABLE H03014 ALL='Total', (ALL='Region Total', CACSMPL=' '* (N='*' *F=5.0 PCTN<H03014 ALL>='%' *F=6.2)) /RTS=25; title 'Table III.4'; TITLE2 'People Who Saw a Specialist in the Last 12 Months'; TITLE3 'for Region 6 Catchment Areas'; RUN; The statements are numbered from 00001 to 00023. Below the editor, the taskbar shows icons for Results, Explorer, Output - Untitled, Log - Untitled, Editor - Untitled, and Program E... The system tray shows the date as 05/19/03 and the time as 8:22 AM.

```
00001 OPTIONS PS=79 LS=95 nonumber nodate;  
00002 LIBNAME IN 'C:\FILES\DOOD\ADULT 2003';  
00003 LIBNAME LIBRARY 'C:\FILES\DOOD\ADULT 2003\FMLLIB';  
00004 PROC TABULATE DATA=IN.HCS031_;  
00005 WHERE XREGION = 6 /* Limit to Region 6 */;  
00006 CLASS H03014 CACSMPL;  
00007 WEIGHT WWT;  
00008 TABLE H03014 ALL='Total',  
00009 (ALL='Region Total', CACSMPL=' '*  
00010 (N='*' *F=5.0 PCTN<H03014 ALL>='%' *F=6.2)  
00011 /RTS=25;  
00012 title 'Table III.4';  
00013 TITLE2 'People Who Saw a Specialist in the Last 12 Months';  
00014 TITLE3 'for Region 6 Catchment Areas';  
00015 RUN;  
00016  
00017  
00018  
00019  
00020  
00021  
00022  
00023
```

The submitted statements produce the following output.

Table III.4
People Who Saw a Specialist in the Last 12 Months
for Region 6 Catchment Areas

	Lackland AFB		NH Corpus Christi		Randolph AFB		Out/Area - Reg 6	
	#	%	#	%	#	%	#	%
In 1st yr: did you see a specialist								
Yes	66	55.00	44	44.90	66	55.00	234	64.46
No	54	45.00	54	55.10	54	45.00	129	35.54
Total	120	100.00	98	100.00	120	100.00	363	100.00

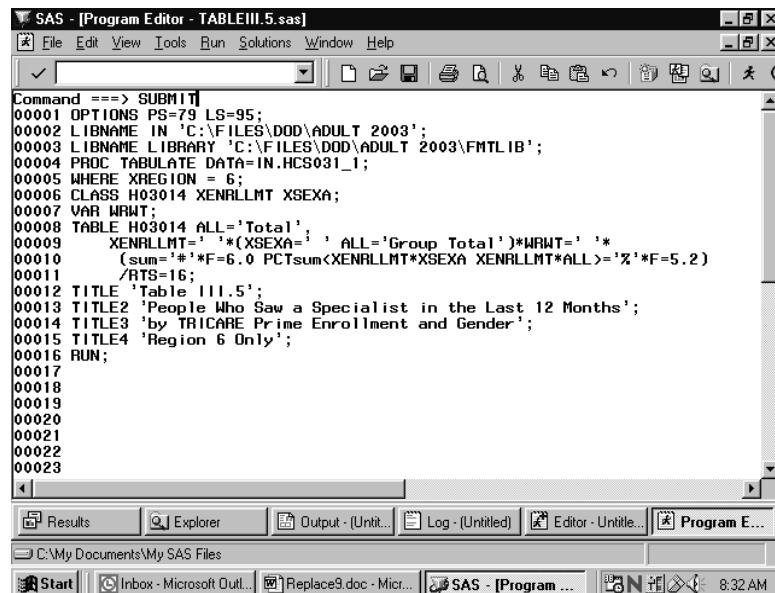

The statistic N is included with PCTN to make it easier to verify that the denominator definitions have been set up properly. After you check to see that the percentages are accurate, the N statistic can be removed. Note that the output for Table III.4 is unweighted. The N statistic (and PCTN statistic) is always unweighted even if a WEIGHT statement is included.

Similarly, if you want to look at the percentage of TRICARE enrollees (and non-enrollees) by gender who answered yes to question 14, this would be a row percentage. To calculate a row percentage, the denominator definition must include all *class* variables that define the *column*. Your TABLE statement would look like this:

```
TABLE H03014 ALL='Total',  
XENRLLMT *(XSEXA=' All='Group Total')*  
PCTN<XENRLLMT*XSEXA XENRLLMT*ALL>='Percent';
```

Notice that there are no parentheses used in the denominator definition. Because parenthetical groupings are not allowed in the denominator definition, all crossings and concatenations must be included. As noted above, the N and PCTN statistic are unweighted counts of CLASS variables. If you want to produce a weighted count and percentage for this table, you would include WRWT (the 2003 weight variable) as an analysis variable in the VAR statement and in the column crossing of the TABLE statement; the statistics to be generated should be specified as SUM and PCTSUM. A program and output to demonstrate weighted row percentages appears in Table III.5.

The following screen shows the new program typed into the Program Editor.

```

How to Make a Table Using SPSS

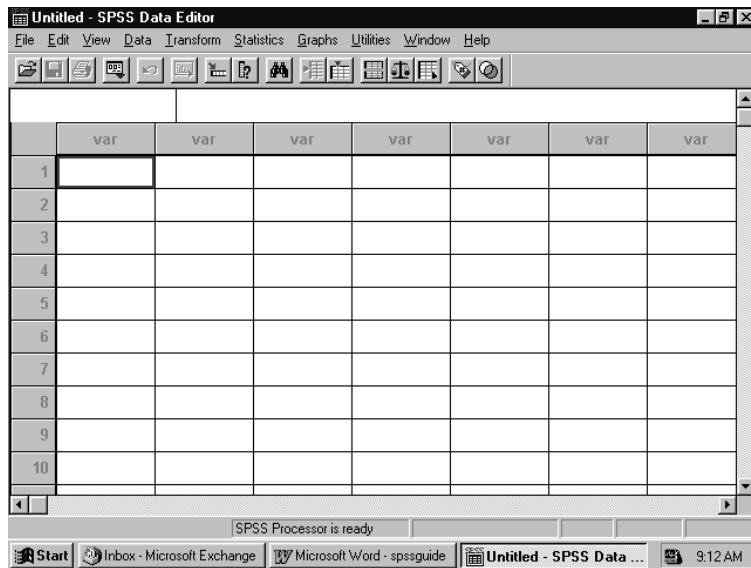

The 2003 Adult HCSDB dataset is in an SPSS format. SPSS is a computer software system used for data management, summarization, and analysis. SPSS can be run interactively, using menus, or in batch mode, using syntax commands. This guide instructs users on how to use SPSS dialog boxes to:

- Construct new variables
- Recode existing variables
- Select cases for analysis
- Weight cases for analysis
- Create customized tables

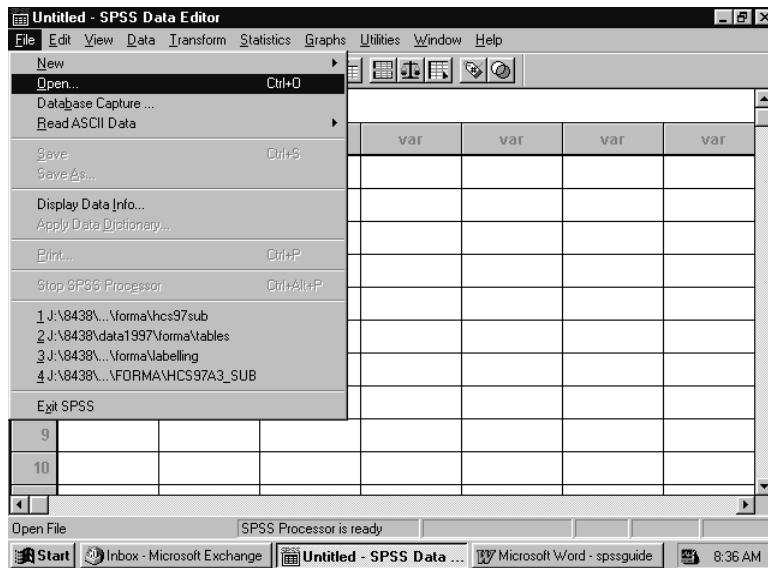

As you use the dialog boxes, you generate syntax automatically. This syntax may be pasted into a syntax file for future use or for modification.

Locating and opening the data file

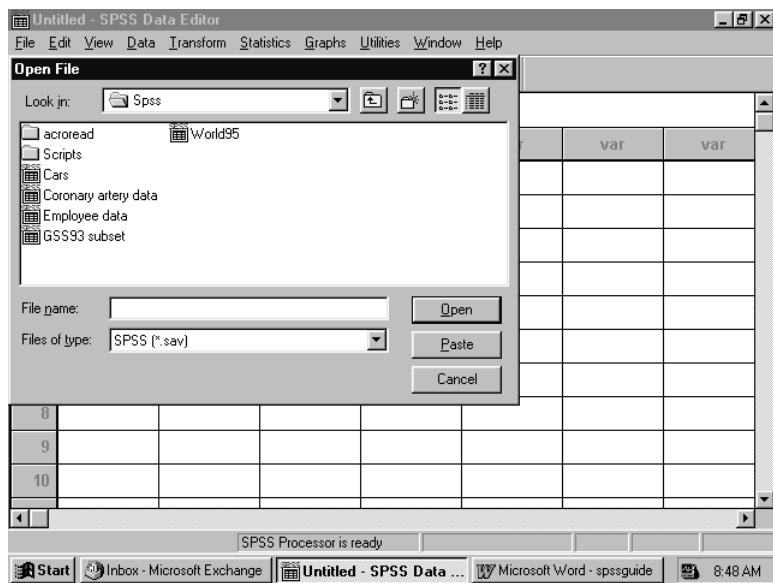

To begin an SPSS session, double click on the SPSS icon on your desktop. The Data Editor window will open and present a blank spreadsheet like the following screen:

Click on File in the upper left corner to open the following menu:

Select the **Open** option or choose a file from the list displayed. **Open** produces the following screen:

If the file is not in this directory, navigate through your folders until you locate it. Mark the file and click **Open**. You will be returned to the spreadsheet Data Editor with the file on view. The 2003 Adult HCSDB dataset has been opened and is displayed below.

	mprid	svcsmpl	sexsmpl	stratum	cacsmpl	enbgsmpl	mpcsmpl
1	00255397	4.00	1.00	0005503	0055	04	1.00
2	00287957	2.00	2.00	0004803	0048	04	1.00
3	00311454	1.00	2.00	0003203	0032	04	1.00
4	00352140	4.00	2.00	0005503	0055	04	1.00
5	00352439	2.00	2.00	0012003	0120	04	1.00
6	00354995	1.00	1.00	0012003	0120	04	2.00
7	00357696	2.00	2.00	0003803	0038	04	2.00
8	00390751	1.00	2.00	0003203	0032	04	1.00
9	00391051	4.00	2.00	0004203	0042	04	2.00
10	00391779	4.00	2.00	0003803	0038	04	1.00

Constructing new variables

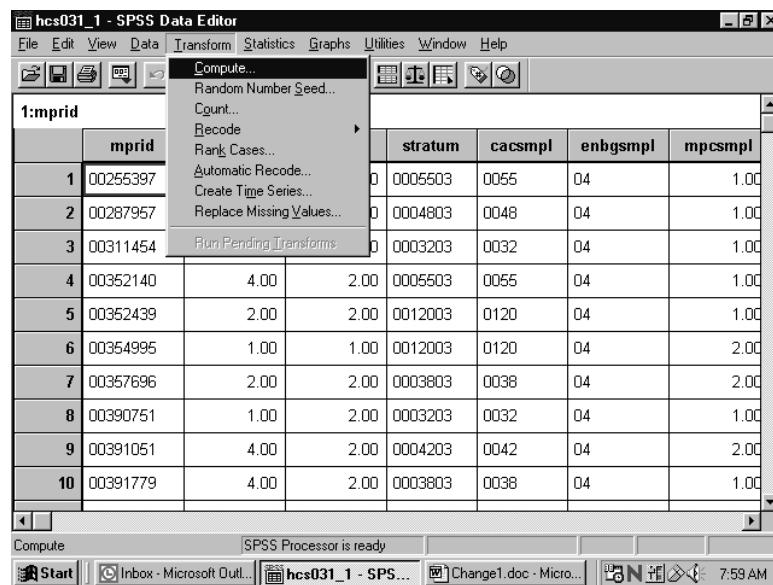

Data can be evaluated from many different aspects. It is sometimes useful to build new variables from combinations of the existing ones and to examine their distributions.

For example, the variable in the file for beneficiary group at the time of sampling is called xbnfgrp, and the variable for sex is xsexa. The value 1 for xbnfgrp indicates that the individual is on active duty. The relationships for constructing a new variable of active duty by sex are:

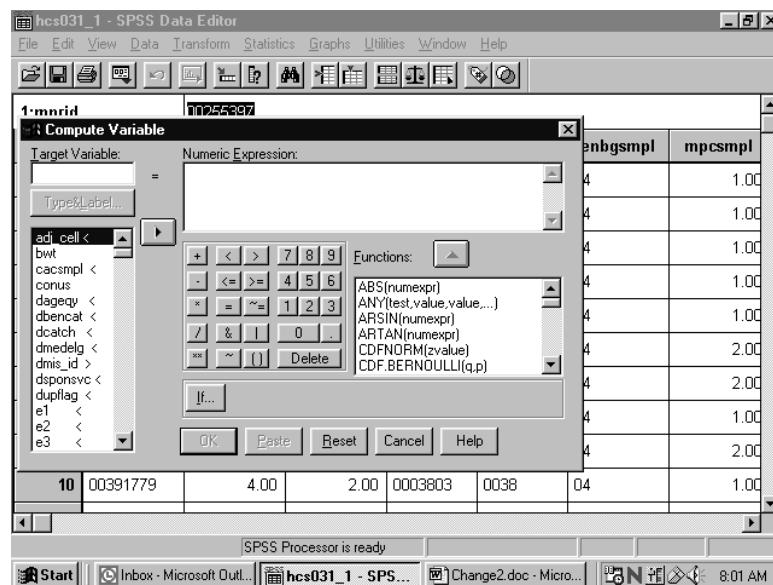

Active-duty-males: ***xsex=1 and XBNFGRP=1***

Active-duty-females: ***xsex=2 and XBNFGRP=1***

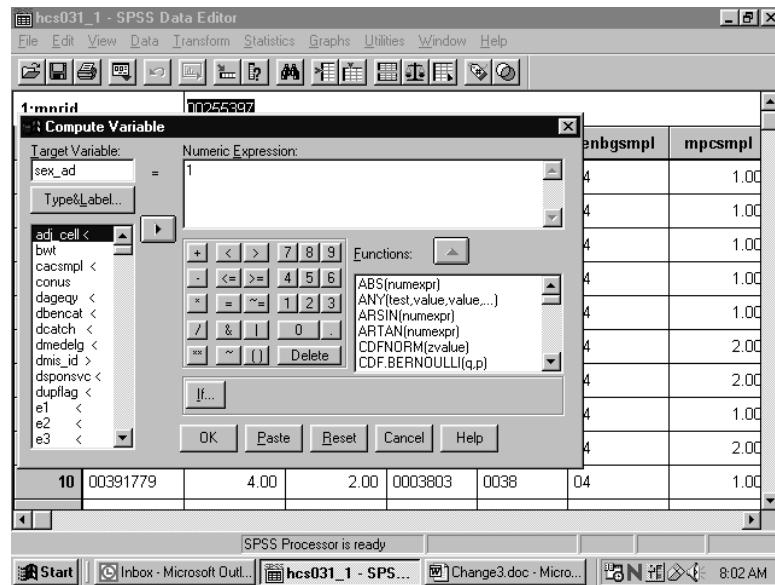

Open the Transform menu and select Compute as in the following:

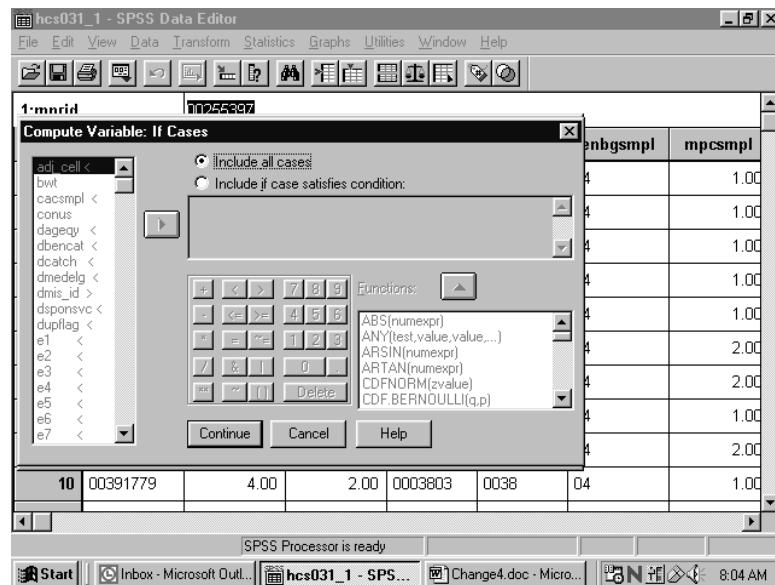

The following dialog box will open:

You can build the new variable in two steps to express the two conditions. The first task is to give the new variable a name and its first value. Enter the Target Variable slot and name the new variable sex_ad. Next, assign the value 1 to sex_ad by entering it into the slot for Numeric Expression. Your screen should look like the following:

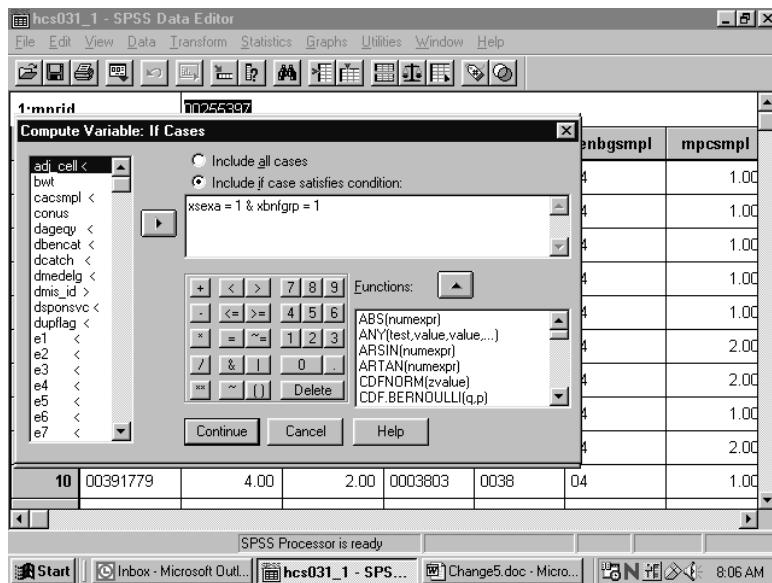

Once you we have assigned the value 1 to sex_ad, you can build the condition that qualifies the assignment. Click on If..and open the following dialog box:

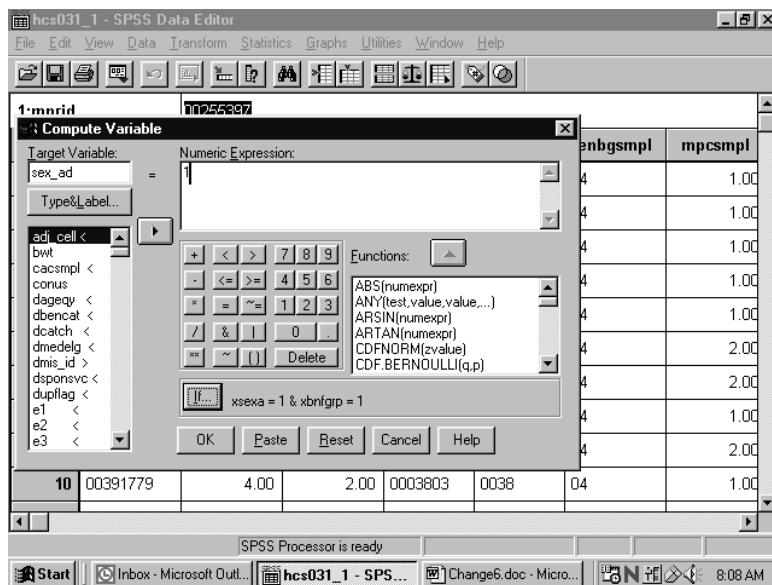

Click on the circle indicating Include if case satisfies condition, and the black dot will move to that circle. The slot underneath will open, ready for your input. Build the “if” condition. Write it directly into the slot or move the elements into the slot from the given options. Add the elements xsexad = 1 & xbnfgrp = 1.

The screen should resemble the following:

Click on Continue and return to the previous screen, which will now look like this:

Your condition will be written next to the If button. Click on OK to exit the dialog box, and the variable sex_ad will be created with its value set to 1.

The next step is to build the second condition for the new variable, which will set it to the value 2. Reopen the Compute dialog box. The commands you just gave still appear in the dialog box. Simply

assign the value 2 to `sex_ad`, press If, and enter the new condition to identify active duty females. Click Continue, and finish with OK. The condition, if `xsexa = 2` and `xbnfgrp = 1`, will be added to the new variable `sex_ad`.

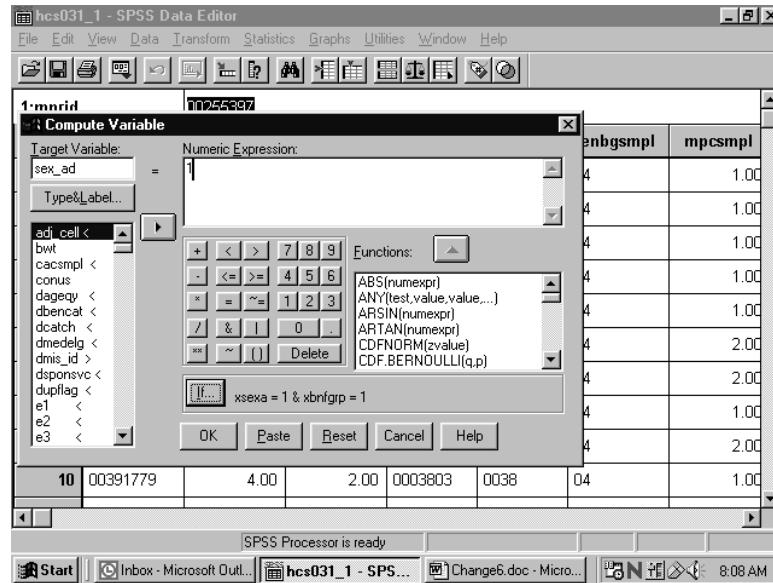

Once you have created a new variable, you may want to add it permanently to the dataset. The new variable is computed for each case in the file and added to the view in the Data Window after the last variable in the dataset. The variable name is the column heading.

Since the HCSDB data set carries Read-Only status to protect it from corruption, changes to it cannot be saved. At the end of the day, when the work session ends and you exit SPSS, the file will revert to its former status and the new variables will be lost. The solution is to save the dataset under a new name when you exit. Choose the Save As option on the File menu, and you will be prompted to name the file and to save it in a folder of your choosing. Give the file a new name and save it. Open the new expanded file anytime for processing.

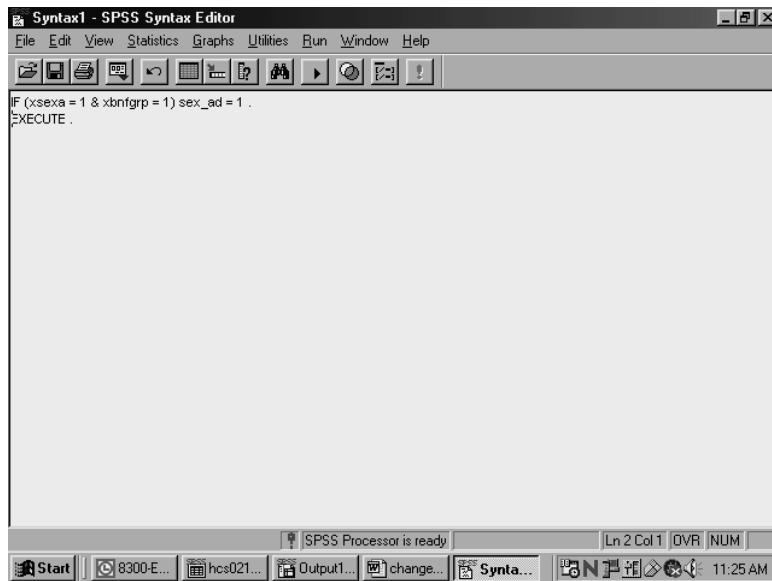

Suppose you do not want to use up your disk space for expanded copies of the dataset. Another option is to save the syntax you have generated in a file that can be run as it is needed. Syntax is a written instruction generated by the commands you give in a dialog box. These “sentences” can be saved in a file and executed when needed. This is the batch mode of processing syntax commands. Syntax files take up very little space.

Experienced SPSS programmers, who have mastered SPSS syntax, often prefer to work only in batch mode. This option is available to users who have not mastered the syntax language. You can paste the commands, generated interactively in the dialog box, onto a syntax file.

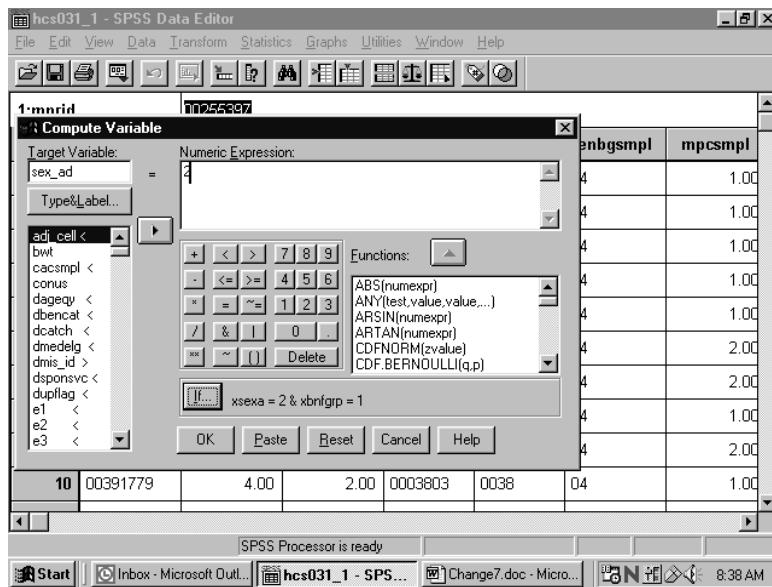

Recall the compute example for the new variable `sex_ad`. The screen below is the result of assigning 1 to `sex_ad` according to an If condition. You clicked on OK to set the value. Returning to the screen and clicking on Paste writes the command to a syntax file.

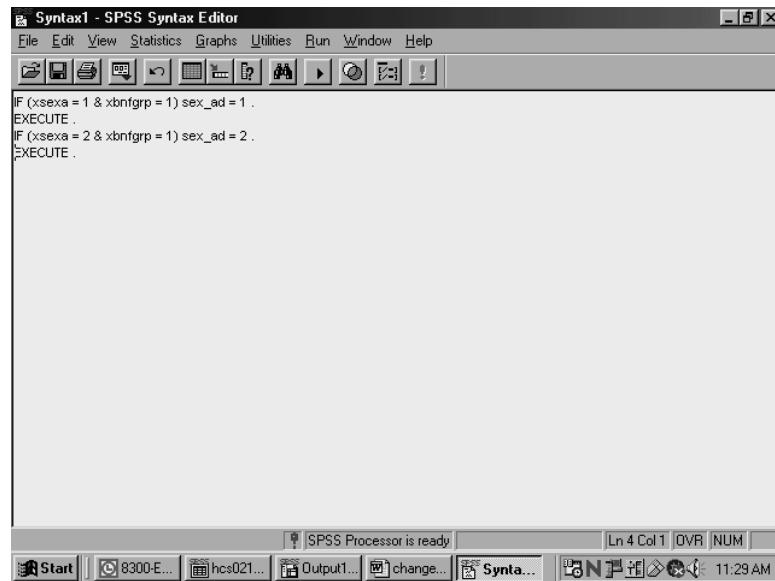

Click on the Paste button, and the syntax window below will open with the syntax written in it.

Now return to the compute dialog box.

Assign the value **2** to **sex_ad** as in the diagram above. Select **Paste**, and these commands will be appended to the syntax file.

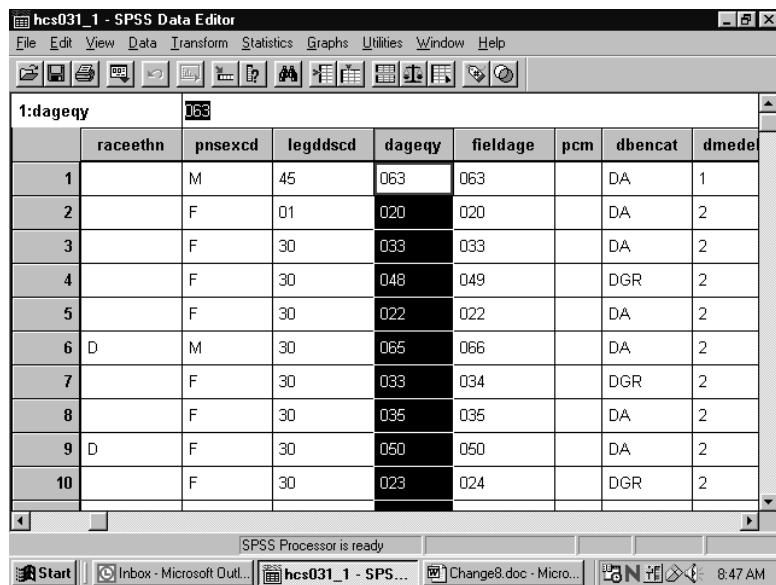

The results appear in the screen above. SPSS gives default names to syntax files, such as Syntax1, Syntax2, etc., as they are created. It is a good idea to save the syntax, re-naming the file using the **Save As** option on the **File** menu. Use a name that has some meaning to you, e.g., **New_computes**. The file will automatically receive the suffix **.sps**.

Another option for adding new variables to the dataset is to **Recode** existing variables **into** new variables. A common example involves **grouping** an age variable into age categories as shown below, using the variable **DAGEQY**, which exists on our dataset. **DAGEQY** is coded in years from 18 to 97, which can be grouped into four age categories:

- 18 to 34 = 1 - label: "young adult"
- 35 to 49 = 2 - label: "mature adult"
- 50 to 65 = 3 – label: "middle-age"
- 66 to 97 = 4 – label: "senior citizen"

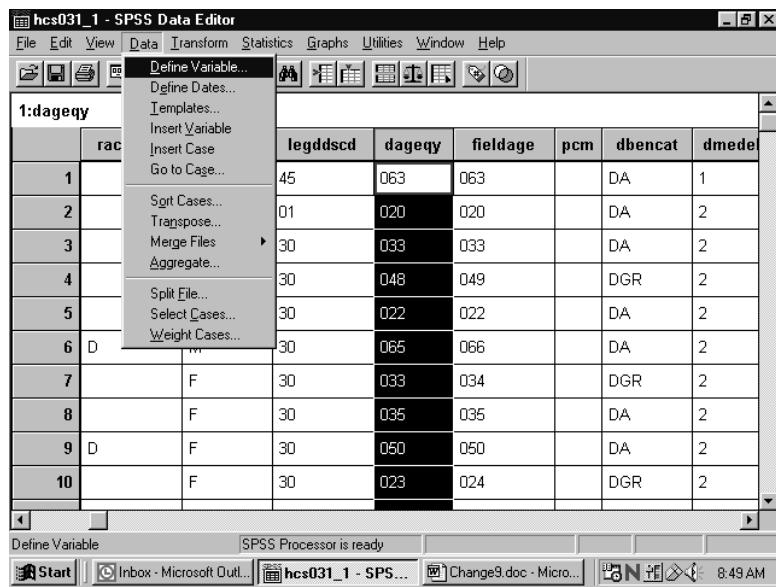

The new variable is called **age_grp**.

DAGEQY is a string variable. In order for it to be recoded using grouping criteria, it must be converted to a numeric variable. In the data window go to the column for the variable **DAGEQY** and click in the gray area at the top of the column causing the variable to be selected as the following screen indicates.

	raceethn	pnsexcd	legddscd	dageqy	fieldage	pcm	dbencat	dmmed
1		M	45	063	063		DA	1
2		F	01	020	020		DA	2
3		F	30	033	033		DA	2
4		F	30	048	049		DGR	2
5		F	30	022	022		DA	2
6	D	M	30	065	066		DA	2
7		F	30	033	034		DGR	2
8		F	30	035	035		DA	2
9	D	F	30	050	050		DA	2
10		F	30	023	024		DGR	2

Open the Data menu and select Define Variable as follows:

	rac	legddscd	dageqy	fieldage	pcm	dbencat	dmmed
1		45	063	063		DA	1
2		01	020	020		DA	2
3		30	033	033		DA	2
4		30	048	049		DGR	2
5		30	022	022		DA	2
6	D	30	065	066		DA	2
7		30	033	034		DGR	2
8		30	035	035		DA	2
9	D	30	050	050		DA	2
10		30	023	024		DGR	2

The following menu will open.

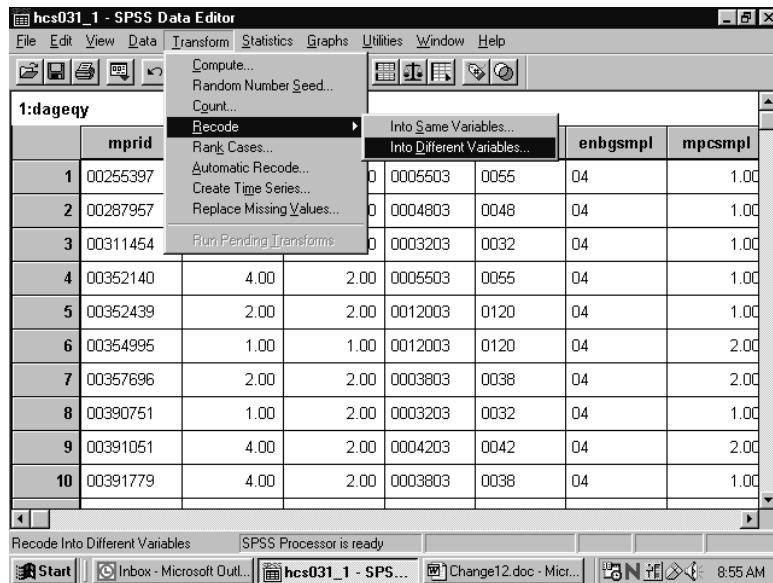

Click on Type and on Numeric, transferring the black dot from String to Numeric as follows:

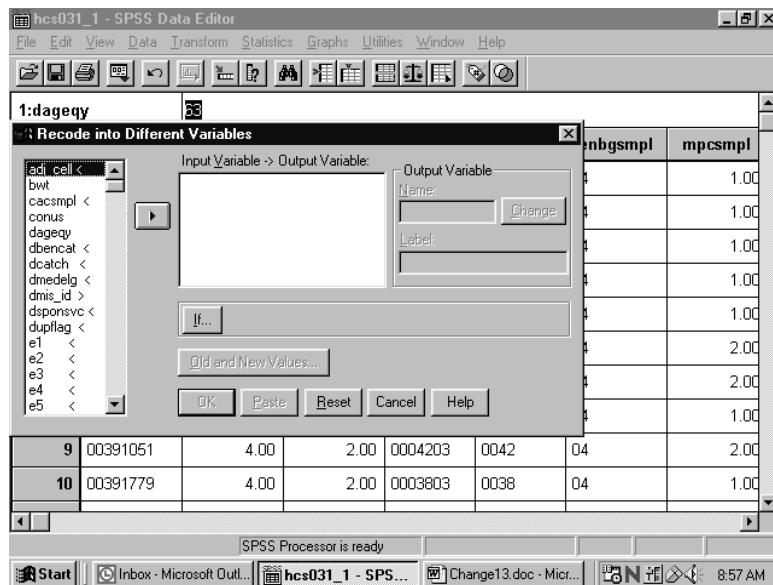

Click on Continue to return to the original screen. Click on OK to set the changes.

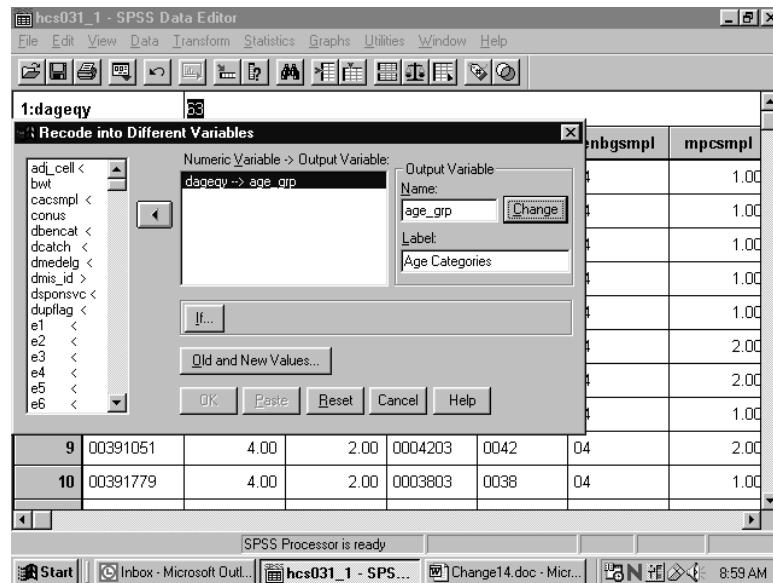

Now from the **Transform** menu, choose **Recode** and **Into Different Variables** as pictured below:

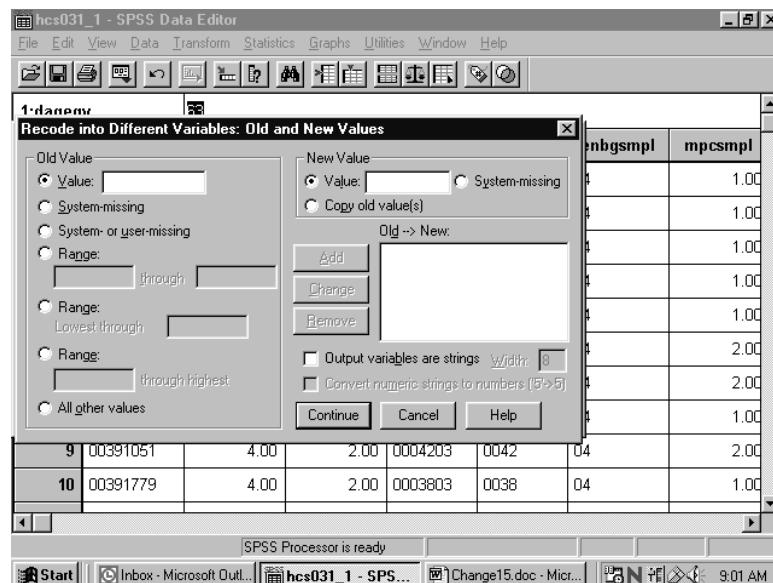

The following dialog box will open:

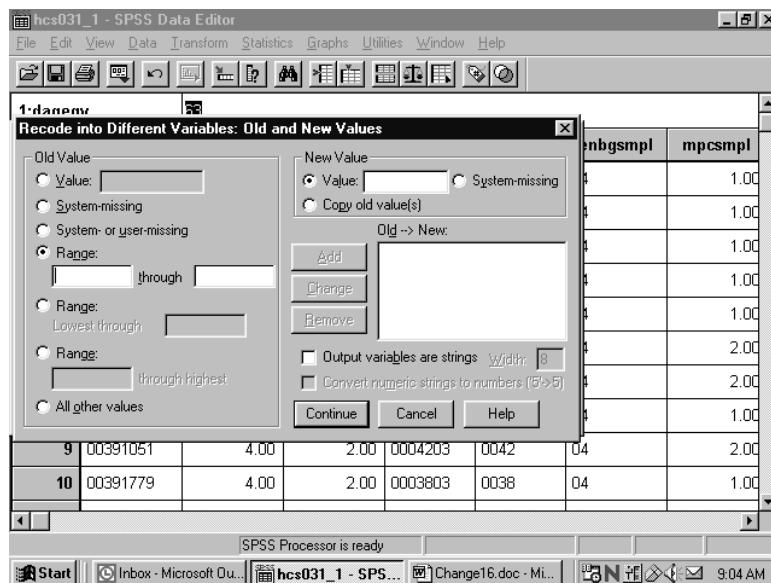

Move **DAGEQY** from the variable list on the left to the box labeled **Input Variable -> Output Variable**. In the **Name** slot, enter the new variable name **age_grp**. Enter **Age Categories**, the variable label, in the **Label** slot. Click on **Change**. The dialog box should look like the one below.

Click on Old and New Values, and the following dialog box will open:

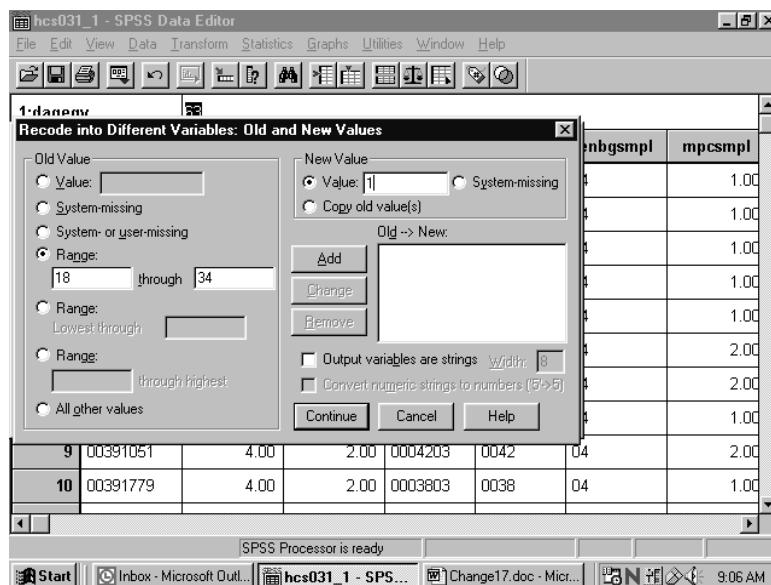

The next step in grouping the age variable is to specify the existing values of **Age** to be recoded. To do this, click on the **Range** circle under **Old Value**.

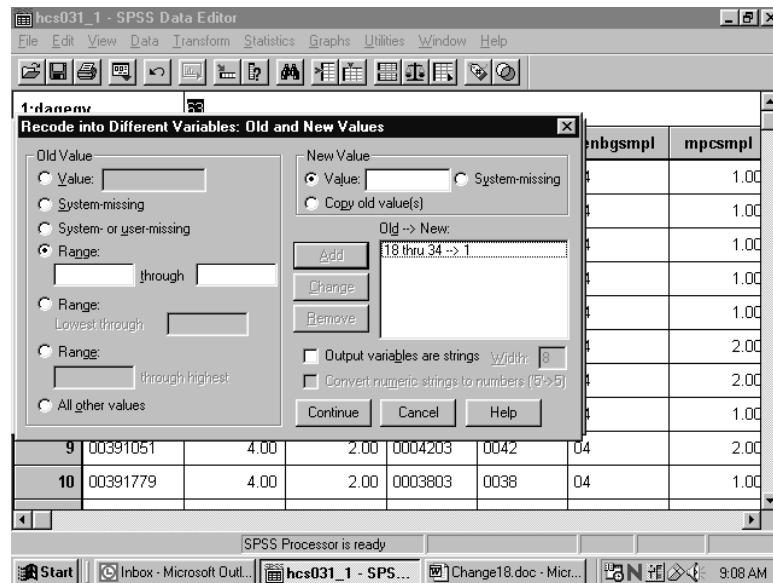

Once the appropriate slots are open, you have four ranges to enter.

First, enter 18 **through** 34 in the slots provided under **Range**. Next, enter the value **1** in the **New Value**. **Add** is now illuminated.

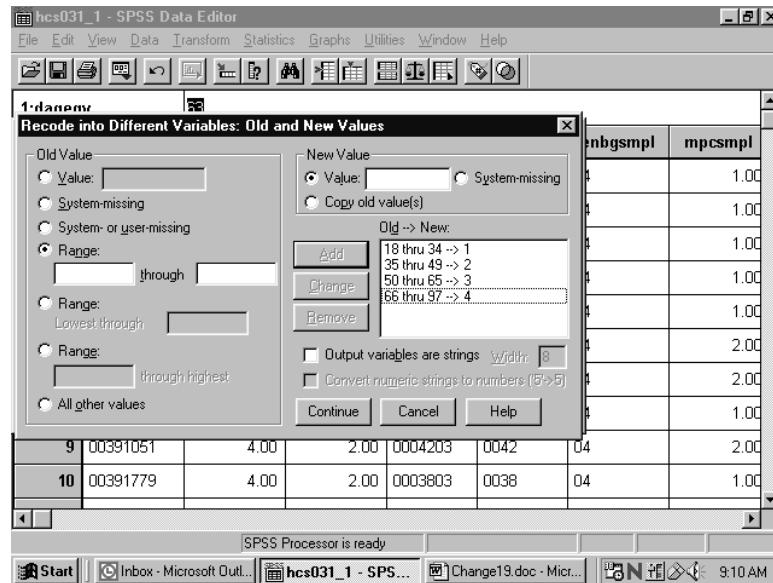

Clicking on Add produces the following result:

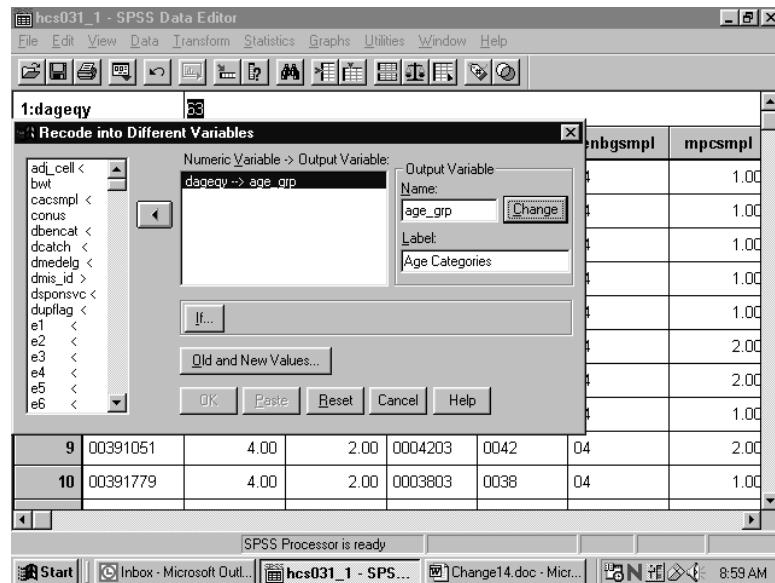

The specified range appears in the box labeled **Old -> New**, and the **Range** and **Value** slots have been cleared to permit additional entries.

The three remaining ranges are built in the same manner, adding each specification, until the dialog box looks like the one below.

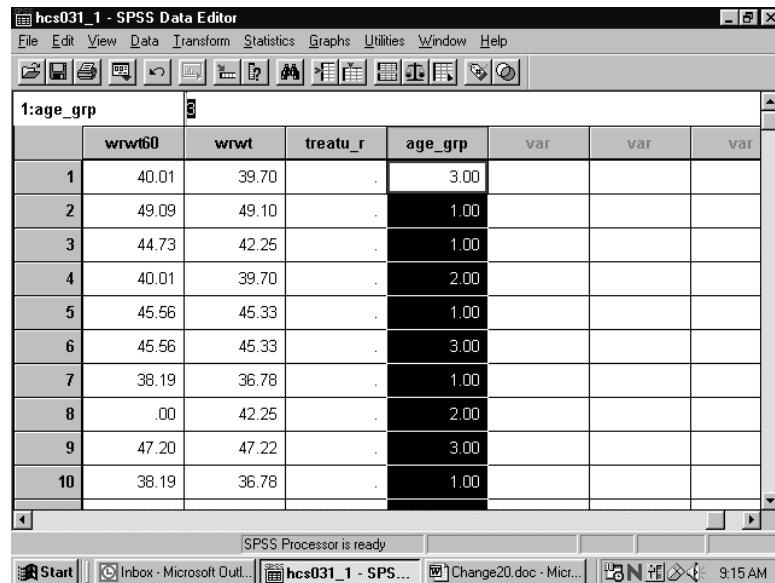

Click on Continue and return to the previous screen.

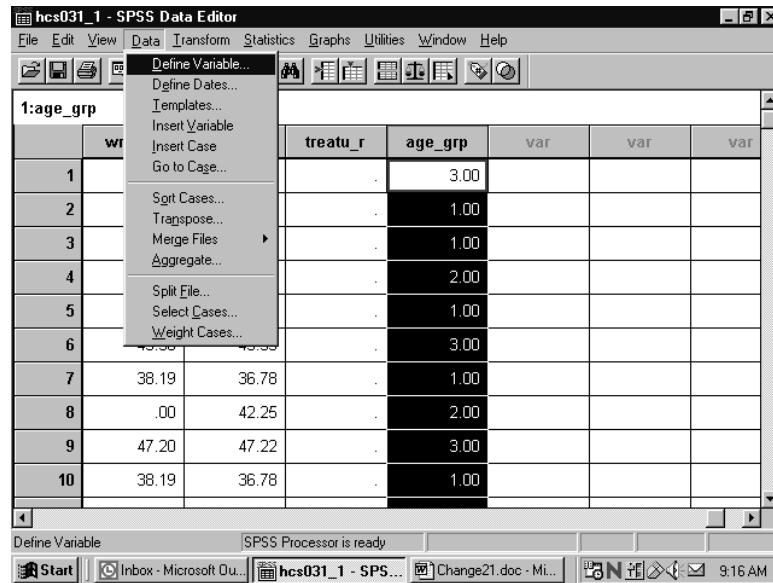

Click on **OK** to exit the screen. The new variable **age_grp** has been created. The **Recode** syntax can be pasted to a syntax file.

The final task is to create the value labels for the new variable **age_grp**. Labeling variables makes output from statistical reporting procedures much clearer and more elegant.

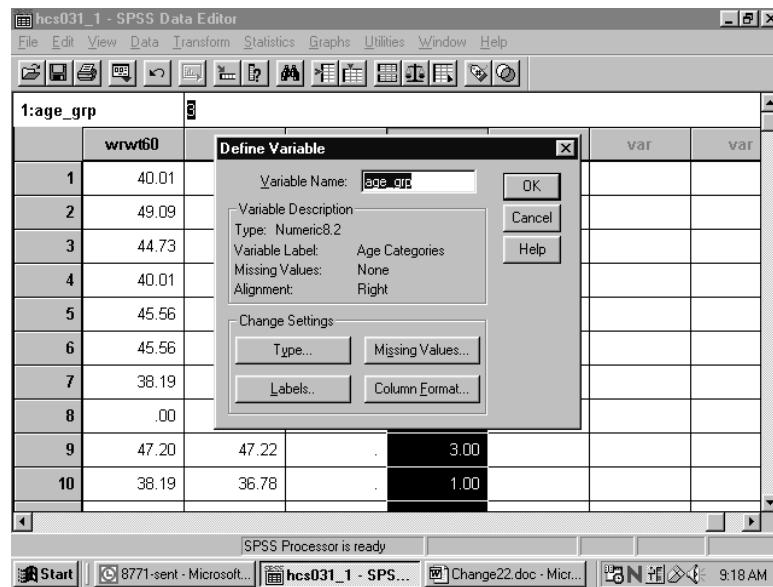

In the **Data Window**, go to the column for the new variable **age_grp** and click in the gray area containing the variable name. The entire column will darken indicating that it has been selected.

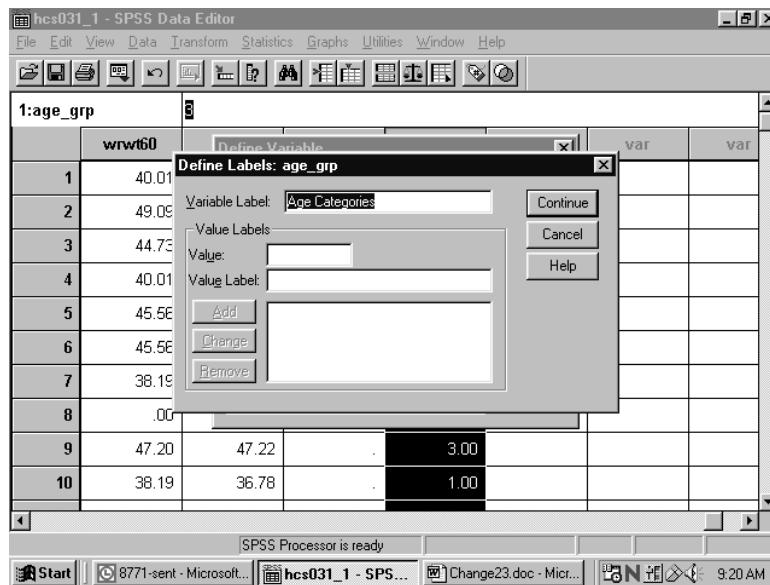

Click on the **Data** menu at the top of the screen to open the following dialog box.

Click on **Define Variable** to get to the following dialog box:

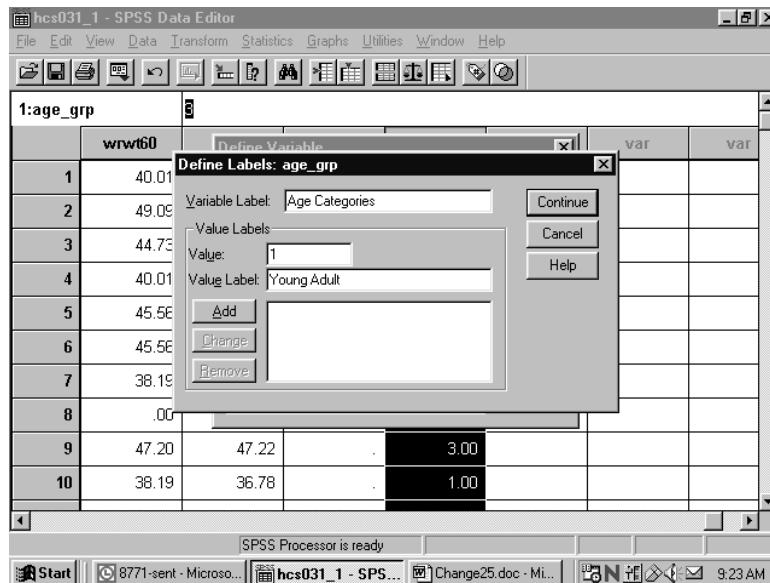

The characteristics of **age_grp** are displayed in this dialog box. Information about the variable type, its label, and its missing values appears here. Click on **Labels** to get to the following screen:

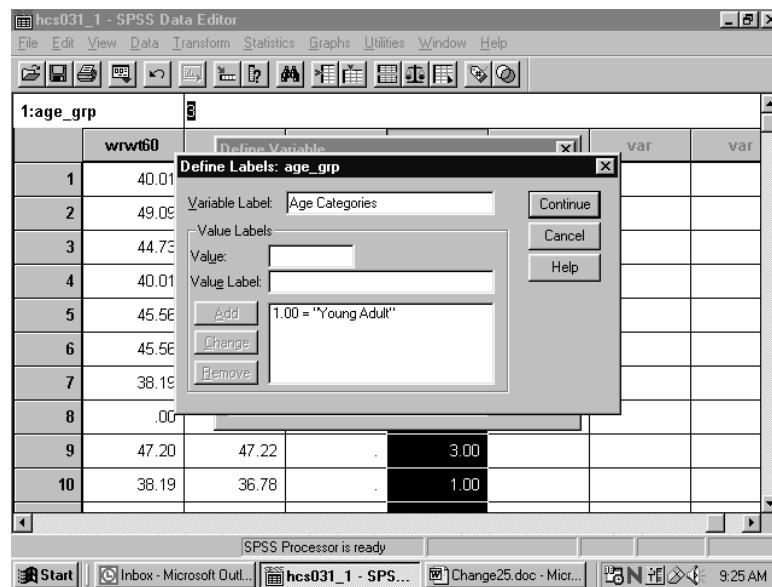

In the slot marked **Variable Label** is the label **Age Categories**, which was specified during the **Recode** process. If there is no label for the variable, enter one in this slot.

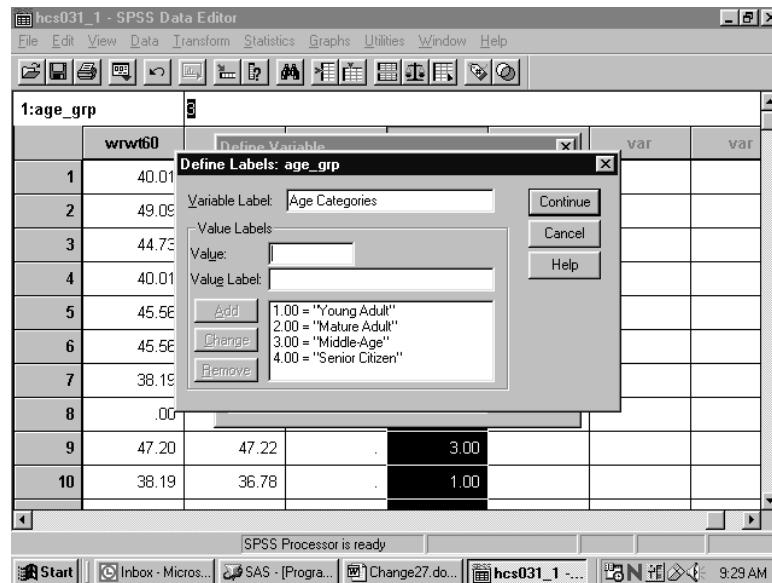

You can then begin to label the *values* of **age_grp**. Enter **1** in the slot marked **Value**, and enter the label **Young Adult** in the slot marked **Value Label**. The screen will look like the following:

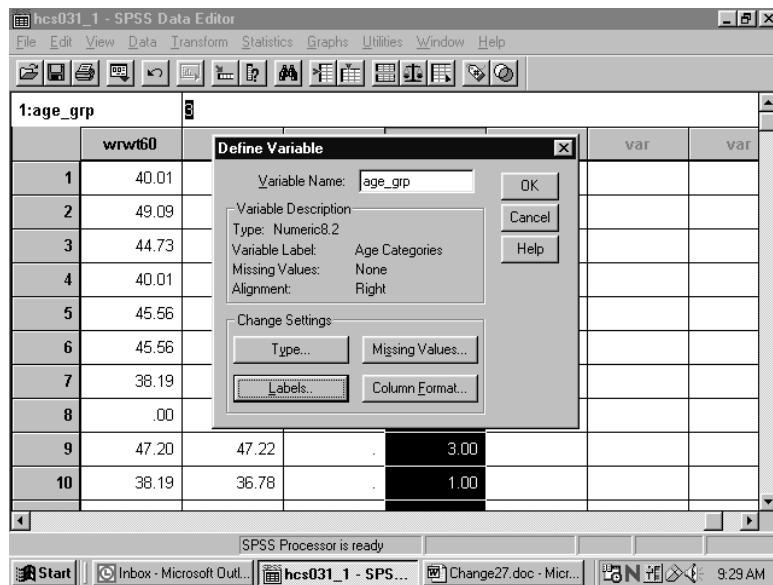

Add is now illuminated. Click on **Add** and the text of your command will appear in the central box, clearing the slots for further entries, as in the next screen.

Build the other three labels until the screen looks like the following:

Click continue, and return to the first screen.

Click on **OK** to exit. The labels have been added.

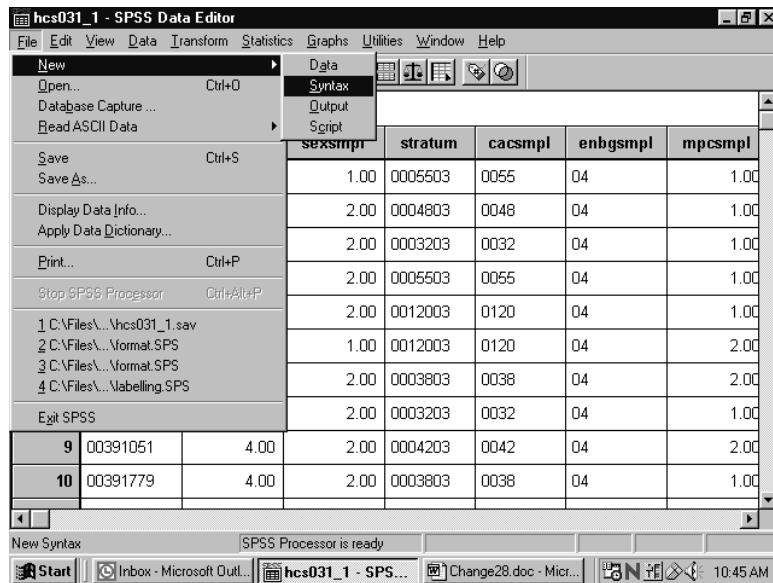

Limiting the Number of Variables

The HCSDB dataset contains many variables. To speed up software performance time, it may be desirable to limit the number of variables for analysis. There are ways to do this.

The first is to **Save** a subset of variables in a new file with a new name. This option is available only through syntax. The **Keep** or **Drop** command lets you save a subset of variables. The choice of **Keep** or **Drop** is dependent on which list is shorter to write.

For example, suppose you want to run some procedures to evaluate the rating of all experiences with the health plan as it relates to the beneficiaries' state of health. You are also interested in the differences between military and civilian services, and in differences within these groupings by gender. Moreover, you want to look at regional differences and differences among catchment areas. You can do all the work on a subset of only nine variables, saving them in a separate file.

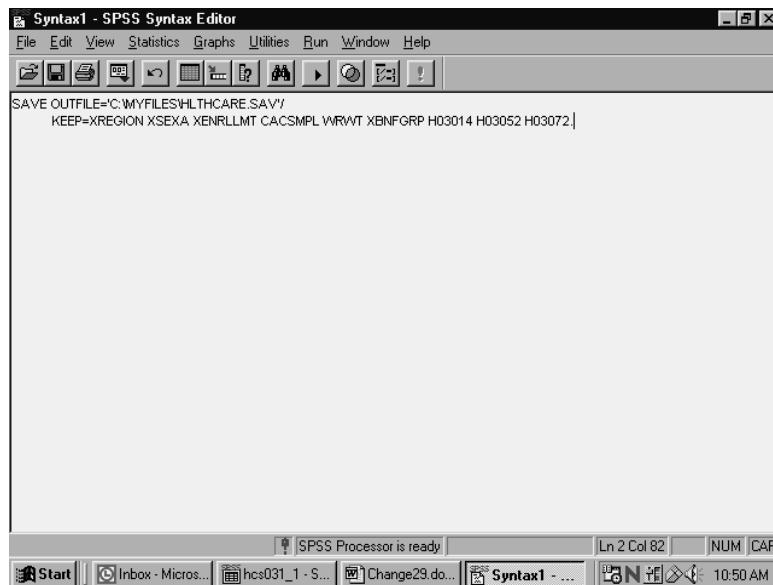

To write the syntax, open a syntax window. If you want to create a new syntax file, choose **New**, **Syntax** on the **File** menu as in the following:

A blank syntax window will open.

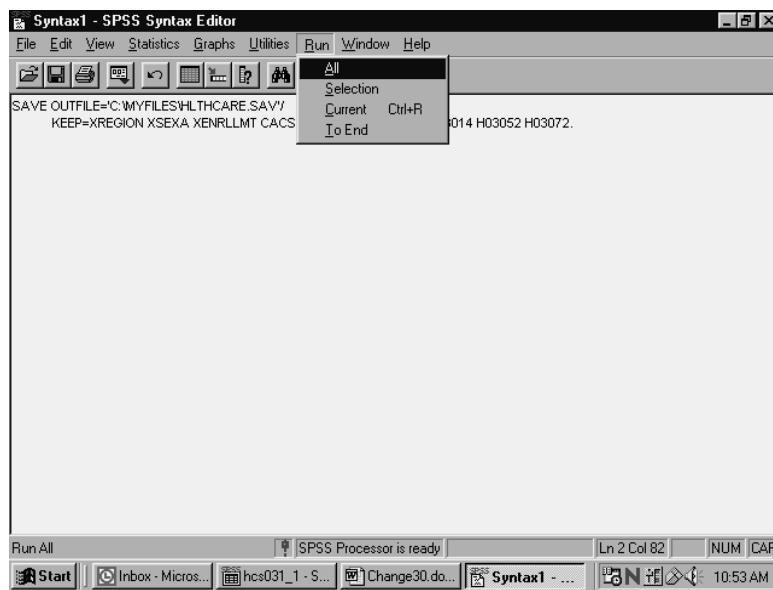

Write the following command, substituting the file name and directory specification:

**SAVE OUTFILE='C:\MYFILES\HLTHCARE.SAV'/KEEP=XREGION XSEXA XENRLLMT
CACSMPL WRWT XBNFGRP H03014 H03052 H03072.** as in the following:

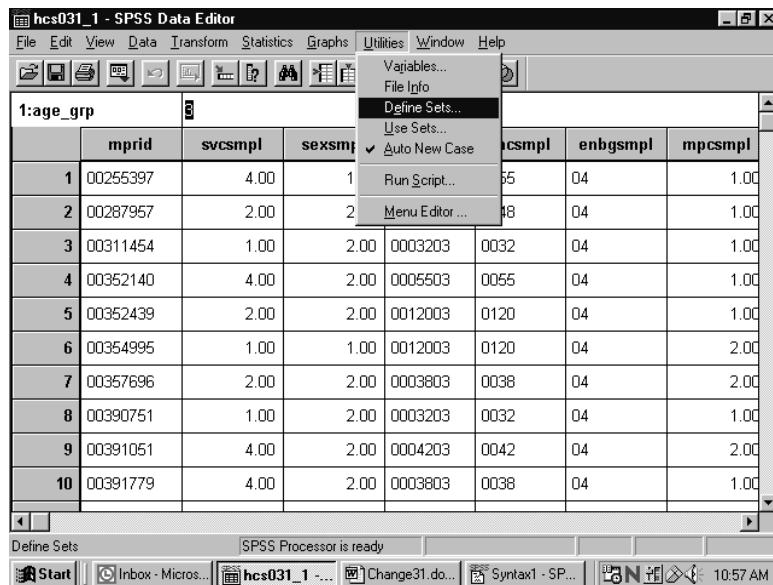

Upper case is optional. Be sure to enclose the entire file name in single quotes and to type a period at the end of the command.

Run the command by choosing the **Run** menu and selecting **All** from the choices.

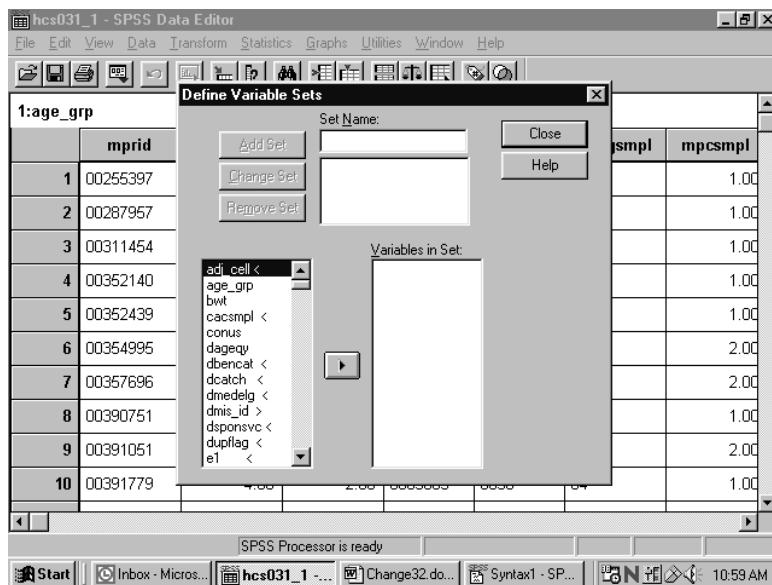

Open the new file according to the specifications at the beginning of this chapter.

The second way to limit the number of variables for analysis is to define a subset of *variables* that will appear in the dialog boxes for procedures. Using the **Utility** menu, define a subset of variables as in the following:

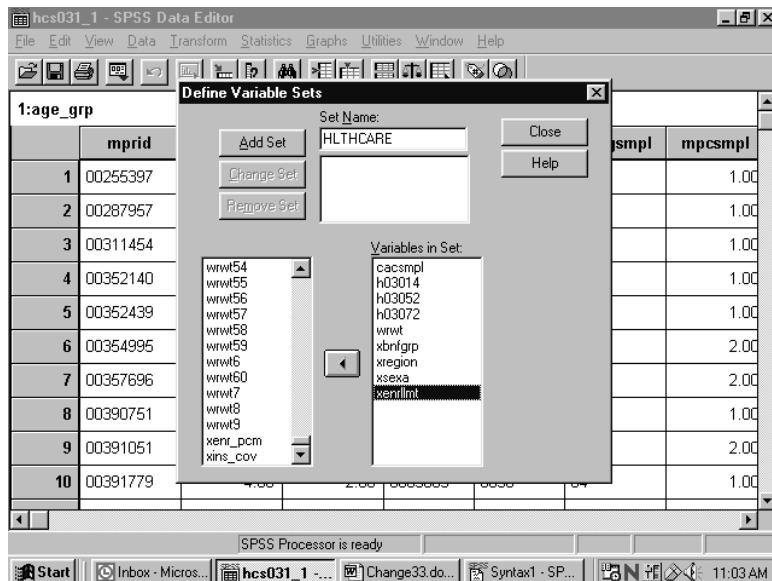

Select Define Sets.

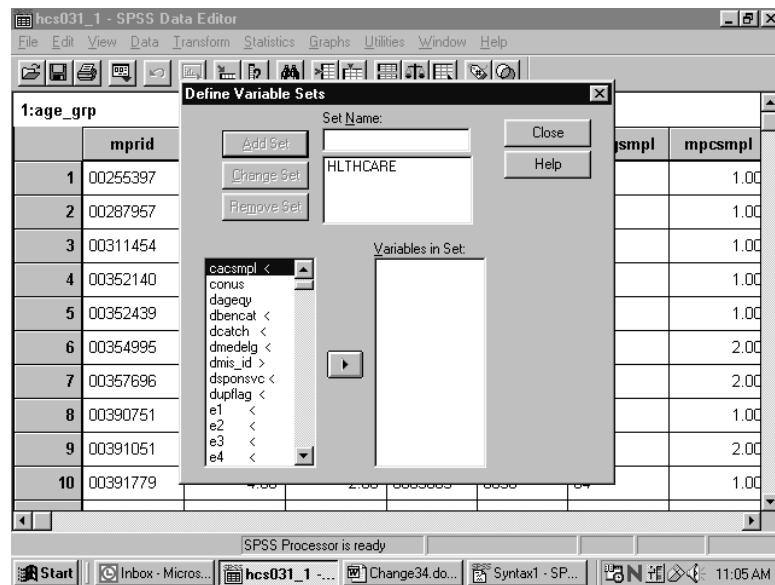

Insert a name for the subset of variables in the slot labeled **Set Name**. Move the variables you want to subset from the list on the left to the slot marked **Variables in Set**. By way of illustration, we will move the nine variables selected for the day's processing.

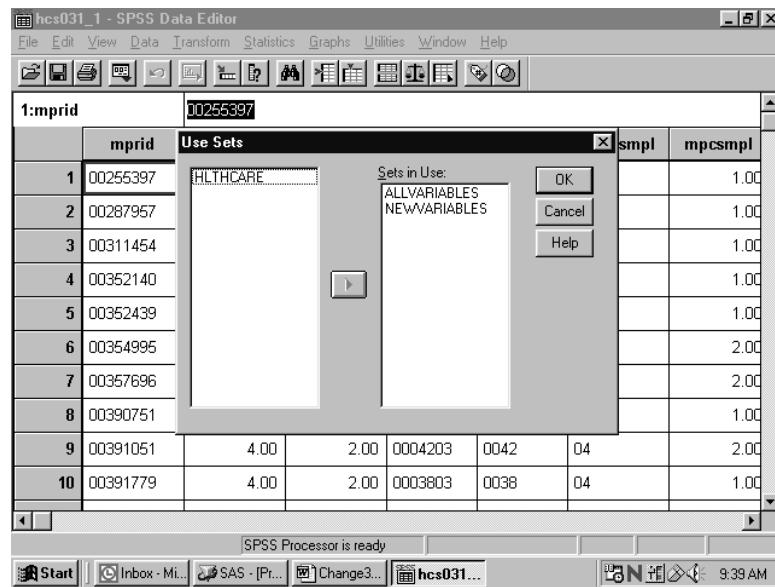

The screen should look like the following:

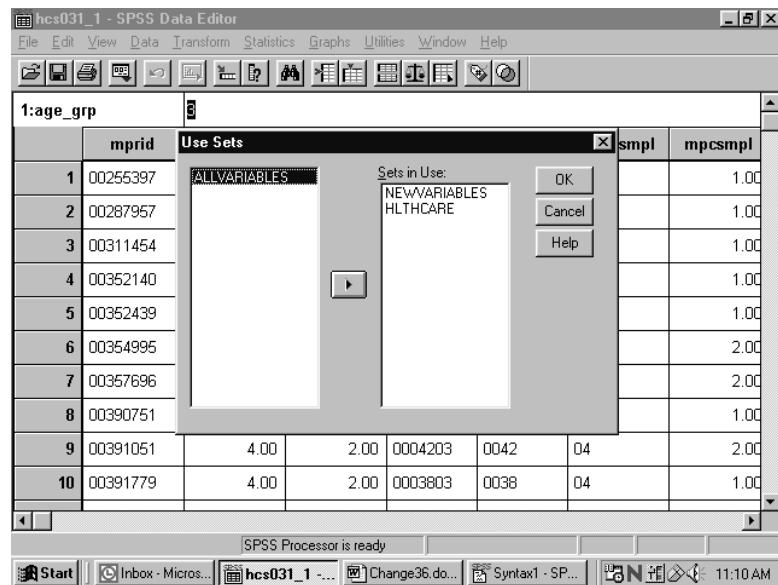

Click on **Add Set** to save the set specifications. The screen will change to the following:

The set is now available for use. To use the set, **Close** the dialog box, reopen the **Utilities** menu, choose **Use Sets...**, and receive this screen:

Move HLTHCARE from the left slot to the right slot, which is labeled **Sets in Use**. Transfer ALLVARIABLES from the right to the left slot. Leave NEWVARIABLES where it is. **OK** saves this change.

Until you change this specification, only nine original variables and any new variables will appear in the dialog boxes associated with procedures.

Limiting the Number of Observations

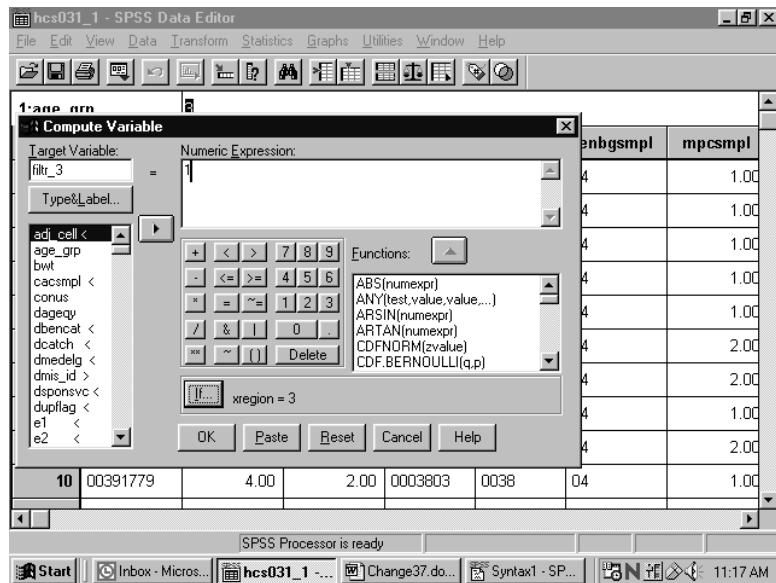

There are many ways to limit the number of observations available to statistical reporting procedures. The method illustrated here involves using **filter variables** with a menu-driven **Filter By** option. Using filters deactivates but does not delete cases from the file. A diagonal line appears next to the filtered cases in the **Data Window**.

The first task is to **compute** a filter variable for all the cases in the file.

A filter variable has two values: **0** and **1**. The **1** indicates that the case will be included for procedures. The **0** flags the case for removal.

For example, suppose you want to produce a table for people who live in the Southeast, i.e., cases for which the variable **xregion = 3**. You would build a filter variable named **filtr_3**, which has the value **1** associated with the cases in the Southeast and 0 for all the other cases in the file. The logic is: if **xregion = 3**, then **filtr_3 = 1**, else **filtr_3 = 0**.

The screen below shows the final step in computing the filter variable. The variable was first initialized to **0**. Then, the "If" condition was built for setting the filter variable to **1**. You are now working with a subset of variables, allowing the dialog boxes to be used more efficiently.

The screen that follows shows the syntax that was generated as you built the variable filtr_3.

```

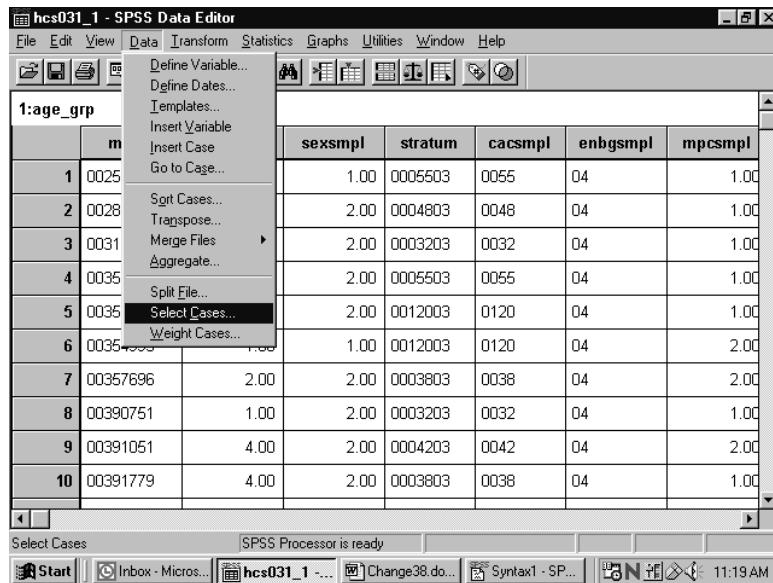

COMPUTE filtr_3 = 0 .
EXECUTE .
IF (xregion = 3) filtr_3 = 1 .
EXECUTE .

```

The status bar at the bottom says 'SPSS Processor is ready'.

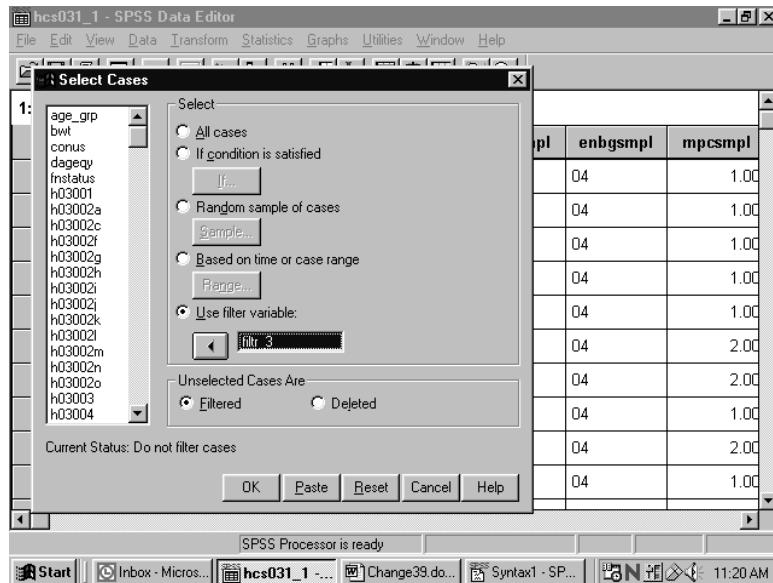

Once you build the filter variable, you can apply it for analyzing only those people from the Southeast.

Using the **Data** menu, choose **Select Cases**.

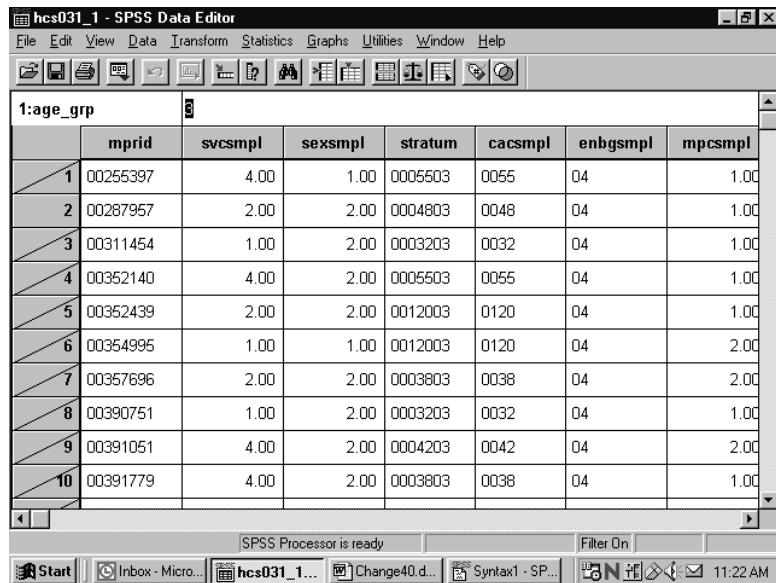

In the dialog box, check **Use filter variable**. Move the variable **filtr_3** from the variable list on the left side of the dialog box into the slot provided, as indicated below. Check that the option **Filtered** is checked under **Unselected Cases Are**. This is the default option.

Click **OK** and exit the dialog box.

When you return to the **Data Window**, notice the slanting line next to some of the cases in the file. Those cases have been filtered out.

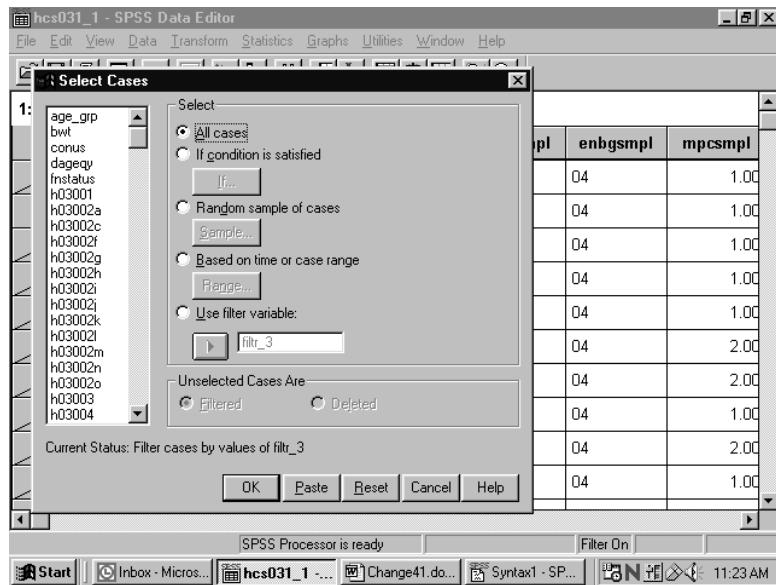

The screenshot shows the SPSS Data Editor window titled "hcs031_1 - SPSS Data Editor". The menu bar includes File, Edit, View, Data, Transform, Statistics, Graphs, Utilities, Window, and Help. The toolbar contains various icons for data manipulation. A data table is displayed with columns: 1:age_grp, mprid, svcsmpl, sexsmpl, stratum, cacsmpl, embgsmpl, and mpesmpl. The rows show data for 10 cases, each with a unique mprid and values for the other variables. The status bar at the bottom indicates "SPSS Processor is ready" and "Filter On". The taskbar shows "Start", "Inbox - Micros...", "hcs031_1...", "Change40.d...", "Syntax1 - SP...", and the current time "11:22 AM".

You can now produce tables for the subset of cases.

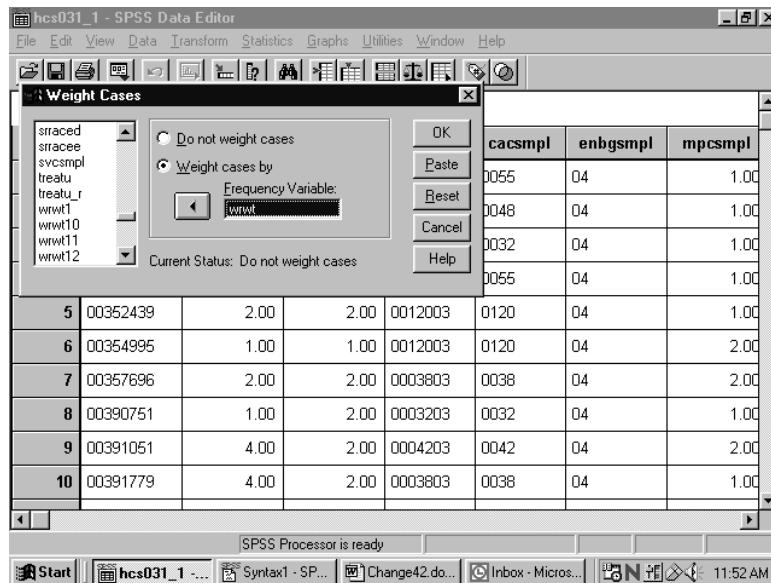

When using filter variables, it is important to check the filter status and to adjust it to fit the present need. Filtered cases are not available for procedures. Moreover, a filter is in effect until it is turned off or until another filter is activated. Check the status line at the bottom of the **Data Editor** window to see if a filter is activated. In the example above, **Filter On** is indicated on the status line. To see which filter is active, you must re-enter the **Select Cases** dialog box. There you can deactivate the filter or activate a new one.

To deactivate a filter, choose **All cases** and **OK** as in the screen below.

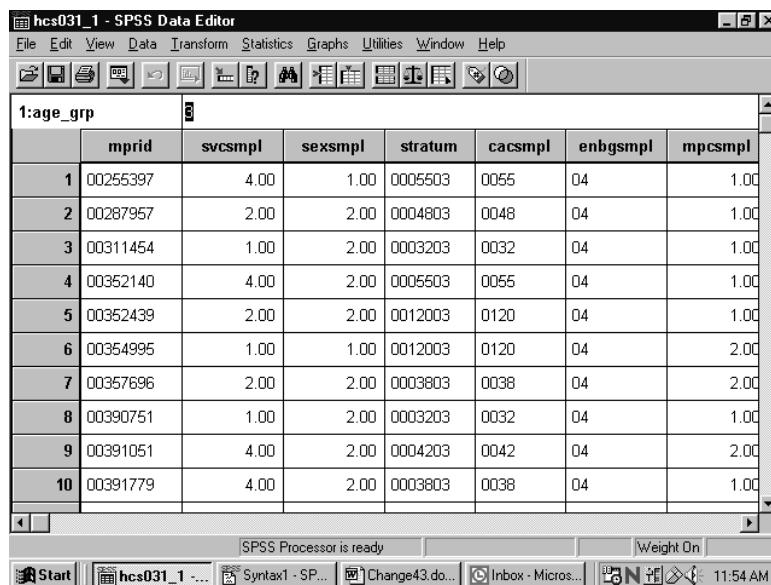

Weighting Data

The data file includes a weighting variable, **WRWT**, which should be applied to all procedure runs. Again, using the **Data** menu, choose **Weight Cases**. In the dialog box, choose **Weight cases by**. Move the weight variable from the list on the left into the slot labeled **Frequency Variable** on the right as shown below:

Click on **OK** and exit the dialog box. The indication that the data is weighted appears on the status line near the bottom of the screen. As in the following screen, **Weight On** is specified there.

The status line indicates if the data is weighted. Which weight variable is in effect can only be checked by re-entering the **Weight Cases** dialog box. Weighting stays in effect until it is canceled or until another weight variable is activated.

BUILDING TABLES

Building tables starts with creating a new subset of variables that includes H03014, H03052, H03072, cacsmpl, xbnfgrp, xsexa, xregion, xenrlmt, wrwt, and filtr_3. The procedures **Means** and **Crosstabs** will probably meet most of your statistical reporting needs. SPSS also offers many options for editing the output tables themselves. Some of these options are explained here.

Calculating Means

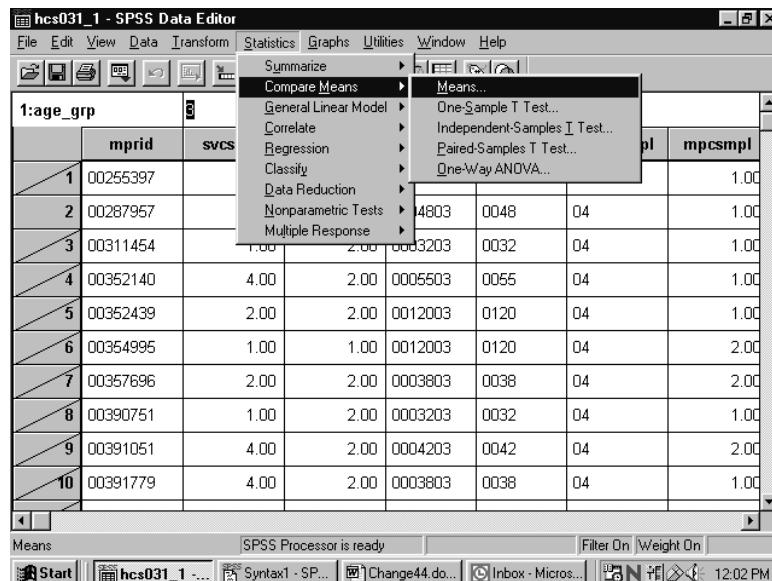

As an example, suppose you want to analyze the health care variables and you want to focus on the Southeast (**xregion** = 3). Suppose you are also interested in overall differences in the mean rating for care received as it relates to the beneficiary's self-evaluation of his health for the Southeast region. Within this grouping, you want to examine the effects of the beneficiary group, **xbnfgrp**, and sex, **xsexa**.

The health care variables are **H03052** – rating of the health plan, and **H03072** – assessment of the state of health. The statistic you want to see is the mean of the health care variables for each group in our breakdown.

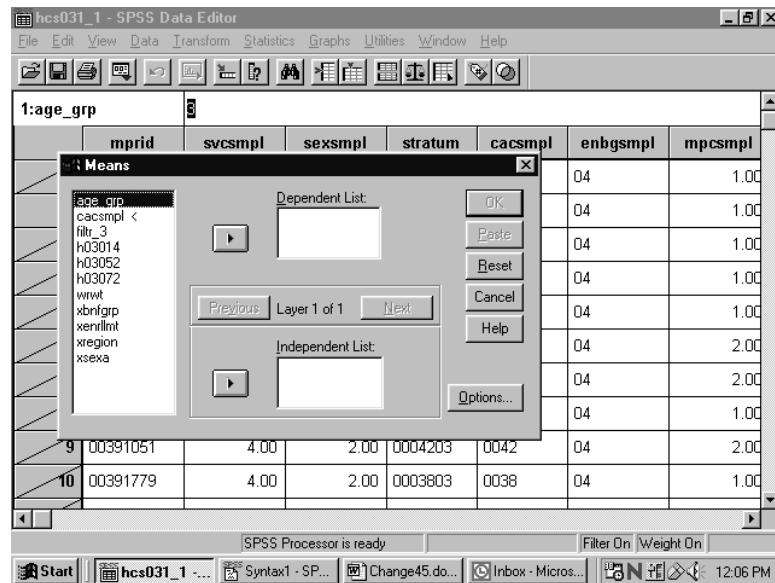

For this analysis, you can use the subset of variables defined above. The subset includes the weight variable, **wrwt**, which you would activate for procedure runs. The subset also includes the new variable, **filtr_3**, which allows us to select only those cases in the Southeast.

Open the **Data** menu in the **Data Window**. In the **Weight Cases** dialog box, activate the weight variable **wrwt**. Reopen the Data menu and, in the **Select Cases** dialog box, activate the filter variable, **filtr_3**. On the status line, **Filter On** and **Weight On** should appear.

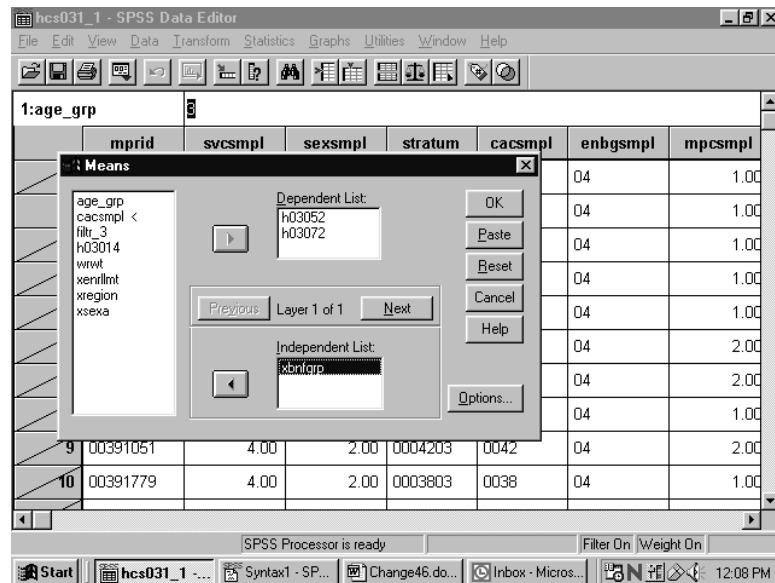

Open the **Statistics** menu in the **Data Window**. Choose **Compare Means** and **Means** from the options as illustrated below.

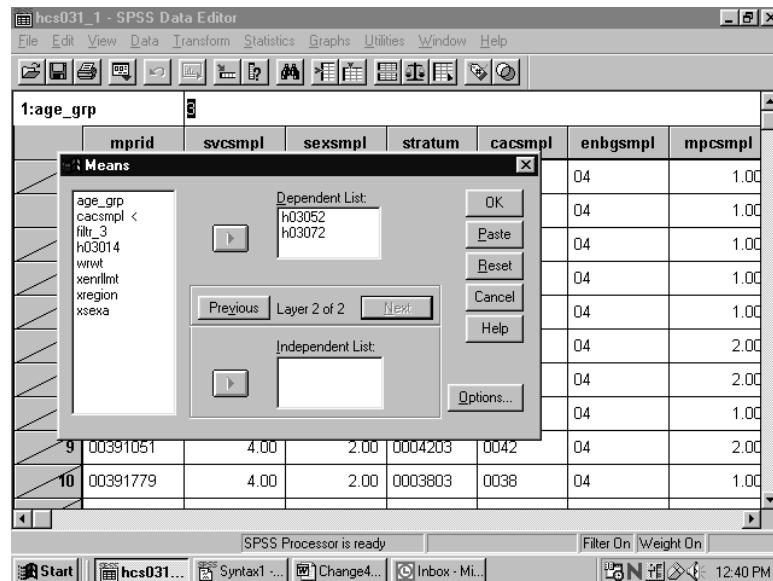

The dialog box for the Means procedure will open as in the following screen:

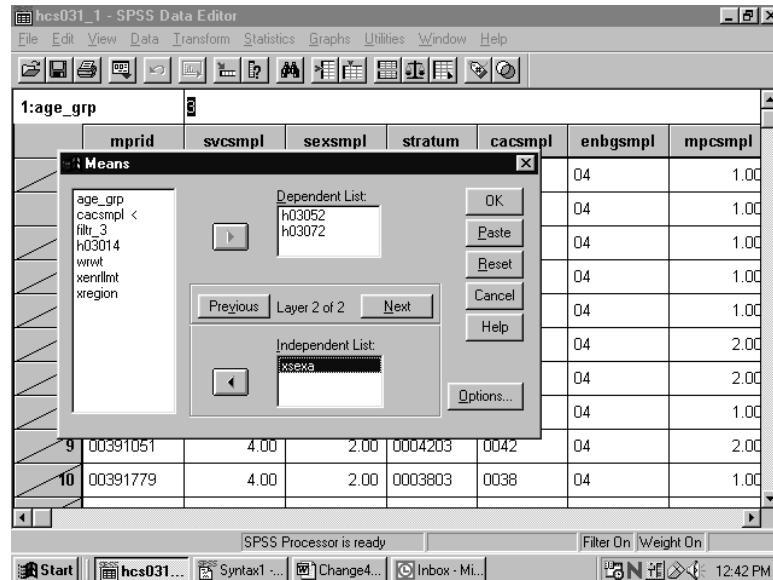

Move the health care variables **H03052** and **H03072**, from the variable list on the left to the box underneath **Dependent List**. These are the two analysis variables. Notice that **Layer 1 of 1** is specified in the middle of the dialog box. Move **xbnfgrp** from the variable list on the left into the box under **Independent List**. **xbnfgrp** is the first grouping variable. The screen should look like the following:

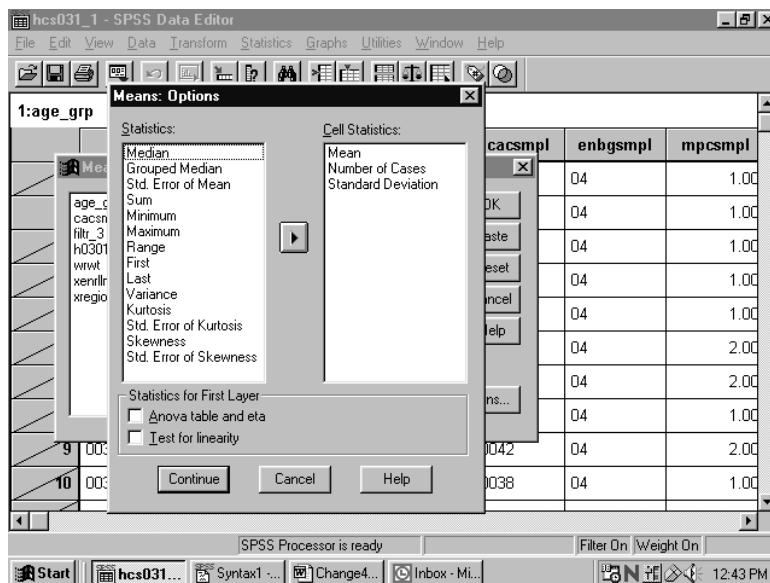

Click on **Next** in the center of the box to create a second layer. The following screen will open:

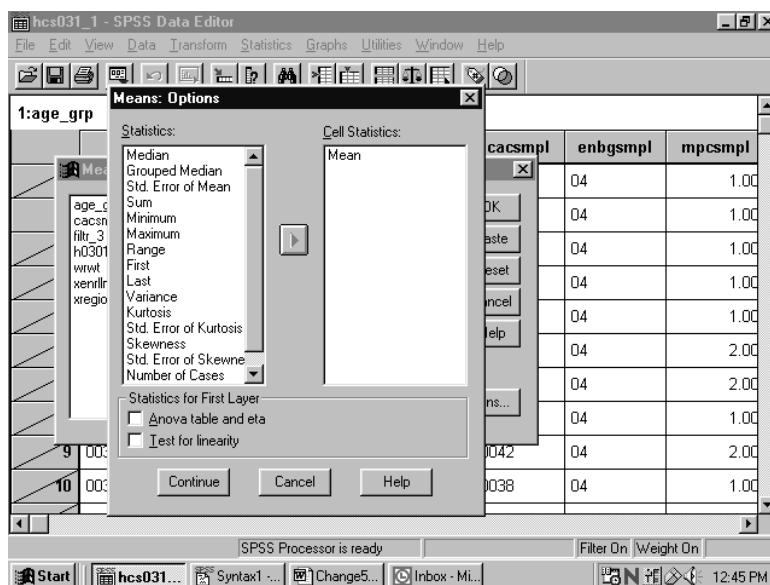

Notice that **Layer 2 of 2** is specified in the middle of the dialog box. Move **xsexa** from the variable list on the left into the box under **Independent List**. **Xsexa** is the second grouping variable. The screen should look like the following:

To set some options, click on **Options** and the following dialog box will open:

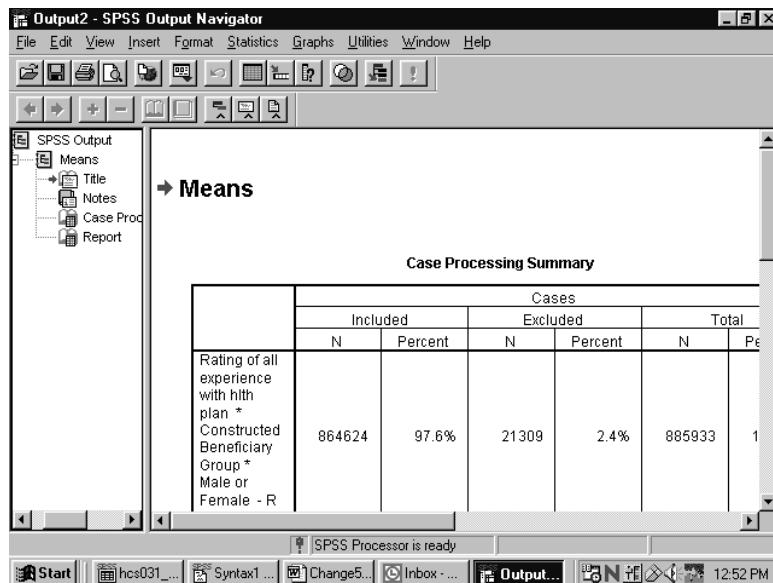

On the left of the box is a list of statistics, under **Statistics**. These are all the possible options for statistical output. In the box under **Cell Statistics** are the default output statistics for the analysis. In this case, **Mean** is the statistic of interest. Highlight **Number of Cases** and **Standard Deviation** and move them to the box at the left, removing them from the analysis, as follows:

Click on **Continue** and return to the previous screen. Click **OK**. The **Means** procedure will run. On the status line, **Running Means** will appear, and a counter for the number of cases processed will be activated.

When **Means** has finished processing, the **Output Navigator** window will open automatically. As the name suggests, the output window is not just for looking at output. A number of options are available for *navigating* through output, moving tables, and even editing the tables themselves.

The output is organized into two sections. On the left side is a navigating tool, which lists the components of the right side, the actual output. In the left pane, **Means** is indicated, and indented under it appear **Title**, **Notes**, **Case Processing Summary**, and **Report**. Clicking on **Means** highlights and selects all the elements. Lines appear around these elements in the right pane. The indenting indicates that the elements are hierarchically organized, with **Means** at the top. Clicking on any of the sub-elements selects just that element.

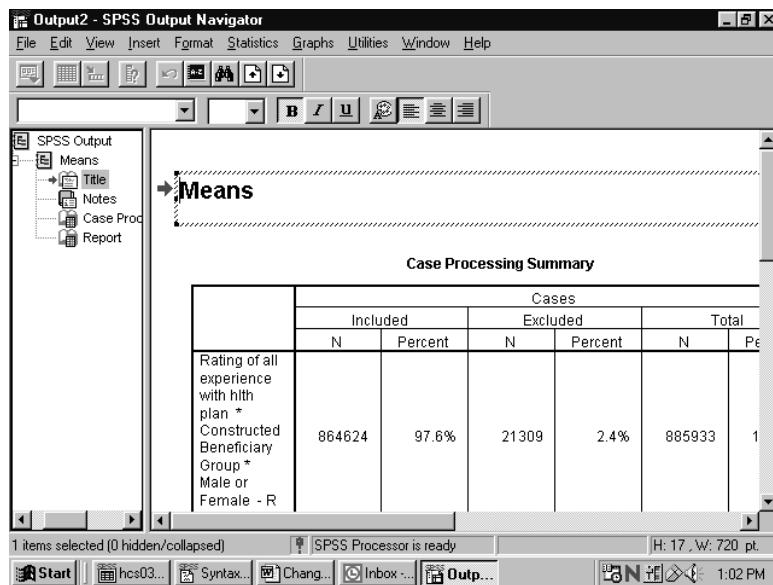

A closer look at the left pane reveals another feature. Hiding underneath the element icons are book icons. The books are either open or closed. If a book is closed, the element is *hidden*. Notice that the book under the **Notes** icon is closed. This is a default SPSS option. Double-clicking the icon will open the book, and the Notes will appear in the output. Double-clicking an **open** book will close it, and the physical element will *disappear* from the output. Closing a book and hiding the element does *not delete* the element.

It is possible to select elements in the right pane of the output. Simply click anywhere inside of the actual output element, and that element will be selected.

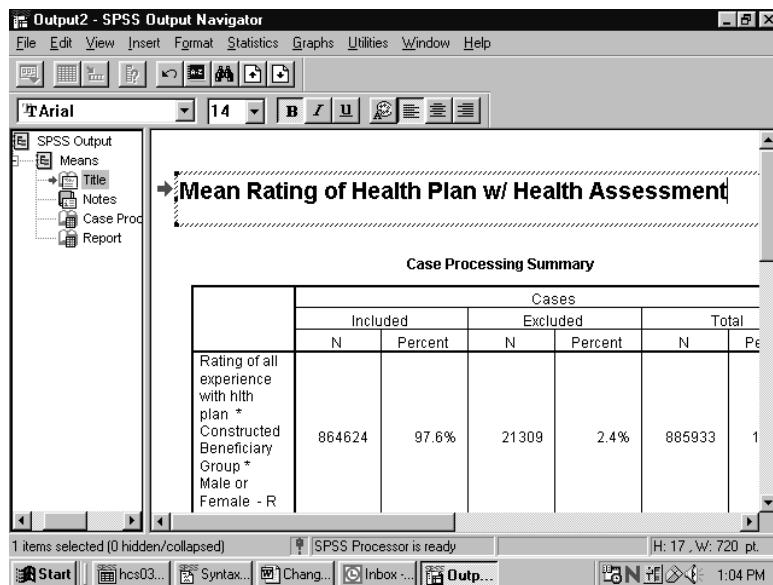

The output may contain many different procedures. The procedure name will be at the top of the list for each section in the left pane. The procedure name does not actually parallel physical output but indicates the category of the output elements.

As you click on each element in the left pane, you will notice that the screen jumps to the actual output of the element, in the right pane. When you click on the procedure name, you jump to the beginning of the next procedure output. This is a quick way to scroll through your output. It also lets you delete, move, and edit selected elements.

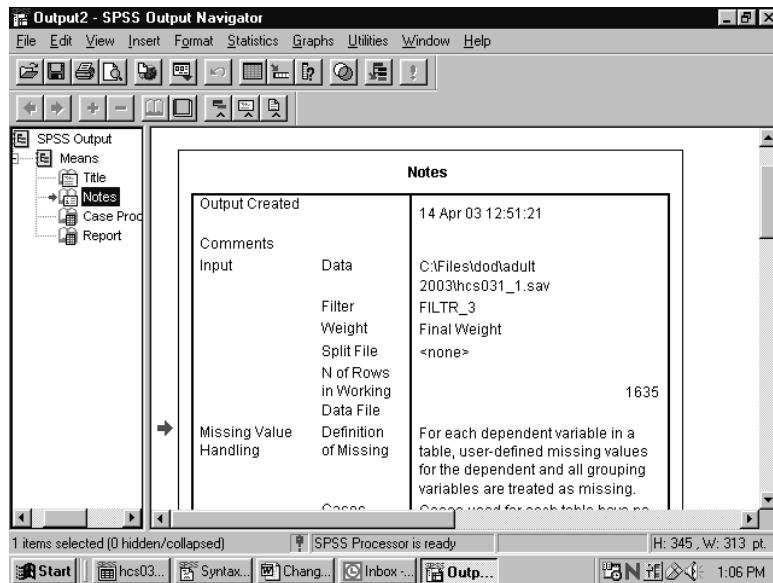

To **Edit** the **Title** element, **Means**, to create a more appropriate title, select the table title by clicking once on the **Title** icon in the left pane. A box now surrounds the title in the right pane. Double-click anywhere within this box, and a box appears around **Means**, as shown in the following screen.

You have entered the **edit** mode for this element, and the cursor appears inside the box. You can delete the word **Means** and write a title that relates to the information in the table. A possible title appears in the next screen. To exit edit mode, click anywhere outside the box. The change you made will be saved.

If you navigate to the next element, **Notes**, you see a closed book. Double-click this item, and the notes will appear as follows:

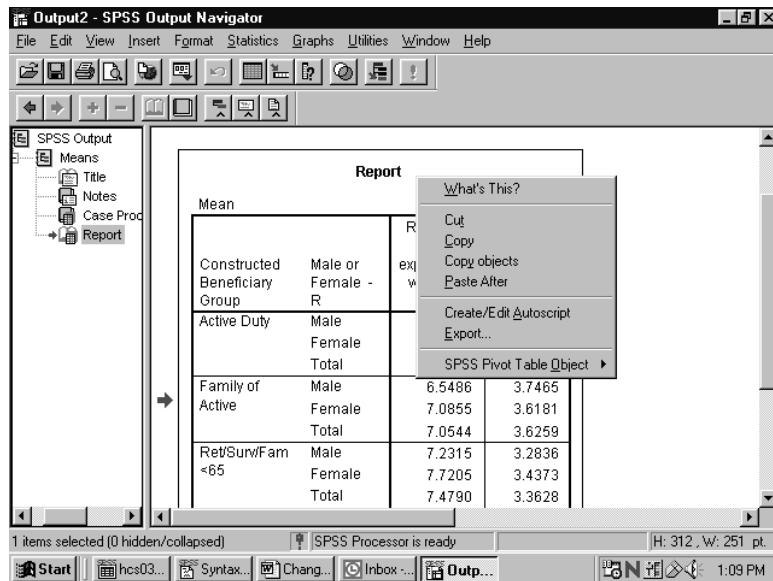

Decide if you want this information to appear in your report. If not, simply double-click the **Notes** icon, and the notes will again become hidden.

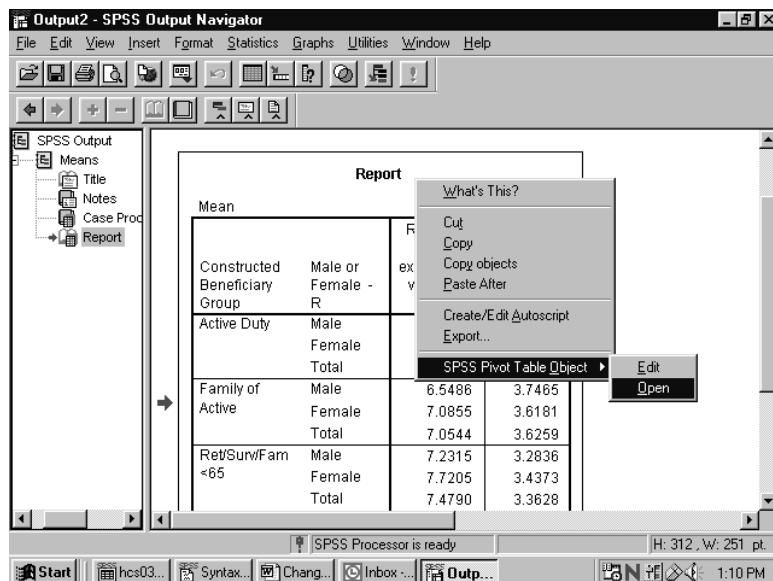

Navigate to **Case Processing Summary**. The table gives useful information about the number of cases included in and the number of cases excluded from a given procedure. This information is important for the researcher but probably not necessary for the report, so you would double click this item to hide it.

Navigate to **Report** to see the actual table output from the procedure **Means**. You can view this table by scrolling through the output. If the table is large, however, scrolling in the output window can be problematic. A better way to review the table is to open it as a **Pivot Table Object** in a special editor.

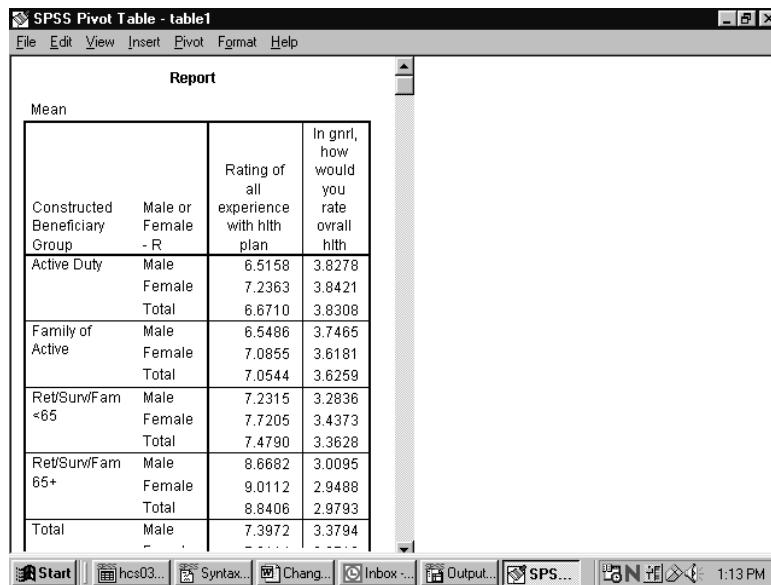

Select the table by clicking the **Report** icon or by clicking inside the table itself. A box will appear around the table. Insert the mouse pointer inside the table and right-click, opening the following dialog box:

Select **SPSS Pivot Table Object** and **Open** as pictured below:

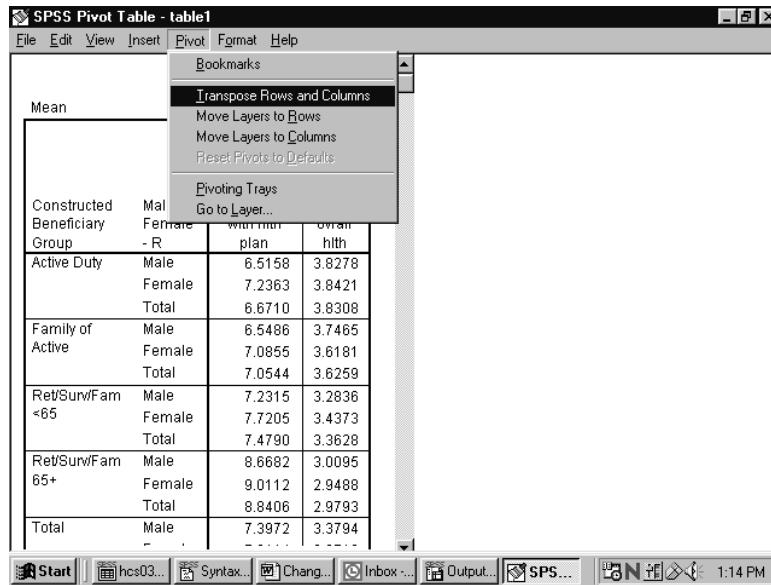

The table will appear in a new screen superimposed on the output. Maximize this screen as shown below.

The screenshot shows the SPSS Pivot Table interface with a menu bar (File, Edit, View, Insert, Pivot, Format, Help) and a toolbar below it. The main window displays a table titled "Report" under the "Mean" section. The table has three columns: "Constructed Beneficiary Group - R", "Male or Female", and "Rating of all experience with hith plan". The last column contains the header "In grnl, how would you rate overall hith". The data is organized into several rows: Active Duty (Male, Female, Total), Family of Active (Male, Female, Total), Ret/Surv/Fam (<65, Male, Female, Total), Ret/Surv/Fam (65+, Male, Female, Total), and a final "Total" row. The "Rating of all experience with hith plan" column contains numerical values such as 6.5158, 3.8278, etc.

In this special editor, there are many options for formatting the table.

Suppose you want to change the table format from vertical to horizontal. Open the **Pivot** menu in the tool bar and choose **Transpose Rows and Columns** as shown below:

This screenshot is similar to the first one, showing the SPSS Pivot Table interface with the "Pivot" menu open. The "Transpose Rows and Columns" option is highlighted with a black rectangle. The rest of the menu options include Bookmarks, Move Layers to Rows, Move Layers to Columns, and Reset Pivot to Defaults. The table structure and data are identical to the first screenshot, showing the vertical layout of the survey results.

The rows and columns will be reversed as shown in the following screen. Though the table appears too wide in the viewer, it will fit the page when printed. You can do all the table editing in the left section of the table, and the changes will spread through the entire table.

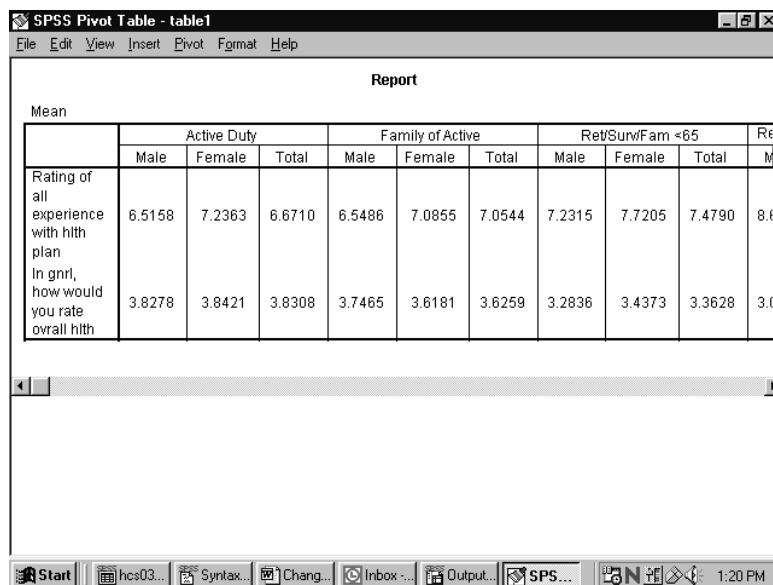

Report									
Mean	Constructed Beneficiary Group								
	Active Duty			Family of Active			RetSurv/Fam <65		
	Male or Female - R		Male	Male or Female - R		Male	Male or Female - R		Male
Rating of all experience with hith plan In gnr, how would you rate	Male	Female	Total	Male	Female	Total	Male	Female	Total
	6.5158	7.2363	6.6710	6.5486	7.0855	7.0544	7.2315	7.7205	7.4790
	3.8278	3.8421	3.8308	3.7465	3.6181	3.6259	3.2836	3.4373	3.3628

You would then notice that certain labels are redundant. The labels, **Constructed Beneficiary Group** and **MALE or FEMALE -R** are the **Variable Labels** for the variables. The information in these labels is echoed in the **Value Labels**, which are also reproduced in the table. You would delete the Variable Labels as follows.

Click inside the section of the table where the label, **Constructed Beneficiary Group**, appears. Right-click to open a dialog box, choosing **Hide Dimension Label**, as illustrated below.

Report									
Mean	Constructed Beneficiary Group								
	Active Duty			Family of Active			RetSurv/Fam <65		
	Male or Female - R		Male	Male or Female - R		Male	Male or Female - R		Male
Rating of all experience with hith plan In gnr, how would you rate	Male	Female	Total	Male	Female	Total	Male	Female	Total
	6.5158	7.2363	6.6710	6.5486	7.0855	7.0544	7.2315	7.7205	7.4790
	3.8278	3.8421	3.8308	3.7465	3.6181	3.6259	3.2836	3.4373	3.3628

Click inside the table section labeled **MALE or FEMALE -R** and repeat the above procedure. An improved table is shown in the following screen.

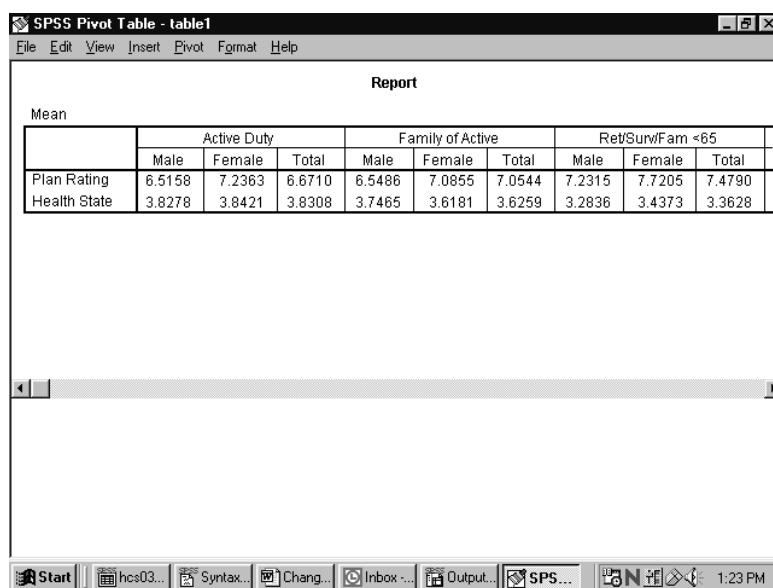

The screenshot shows the SPSS Pivot Table interface with a title bar "SPSS Pivot Table - table1". The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. A toolbar below the menu bar contains icons for Start, hcs03..., Syntax..., Chang..., Inbox ..., Output..., SPS..., and a date/time field showing 1:20 PM.

The main area displays a table titled "Report" with a "Mean" row. The table has four columns of headers: Active Duty, Family of Active, Ret/Surv/Fam <65, and Ret/Surv/Fam ≥65. Within each column, there are three sub-headers: Male, Female, and Total. The data rows include "Rating of all experience with health plan" and "In genrl, how would you rate overall health". The "Rating of all experience with health plan" row has values: Male 6.5158, Female 7.2363, Total 6.6710, Male 6.5486, Female 7.0855, Total 7.0544, Male 7.2315, Female 7.7205, Total 7.4790. The "In genrl, how would you rate overall health" row has values: Male 3.8278, Female 3.8421, Total 3.8308, Male 3.7465, Female 3.6181, Total 3.6259, Male 3.2836, Female 3.4373, Total 3.3628.

The mean values reported are formatted to allow space for the labels of the satisfaction variables. The spaces between the values are not pleasing to the eye. You can shorten these labels and add the lost information in another place, according to the following procedures:

Double-click on the label for health state. Delete the text, entering only the word, **Health State**. Do the same for the health care label, entering only the words, **Plan Rating**.

Double-click on the word, **Report**, in the center at the top of the table, right-click, and choose **Delete** from the dialog box.

This screenshot shows the same SPSS Pivot Table window after modifications. The "Report" header at the top of the table has been removed. The table structure remains the same, but the labels for the rows ("Rating of all experience with health plan" and "In genrl, how would you rate overall health") now fit within the available space without trailing spaces. The data values are identical to the previous screenshot.

The resulting table is much more readable. You can then add the deleted information to clarify the table output. Double-click on the label Mean at the top left corner of the table, opening the line for editing. Type in a new title for the table. The final result appears below.

	Active Duty			Family of Active			Ret/Surv/Fam <65		
	Male	Female	Total	Male	Female	Total	Male	Female	Total
Plan Rating	6.5158	7.2363	6.6710	6.5486	7.0855	7.0544	7.2315	7.7205	7.4790
Health State	3.8278	3.8421	3.8308	3.7465	3.6181	3.6259	3.2836	3.4373	3.3628

After all the editing changes have been made, exit the Pivot Table editor and return to the output navigator. Click on the File menu and choose Print Preview. Zoom in on the page and review the appearance of the report. The page will appear as the page below.

	Active Duty			Family of Active			Ret/Surv/Fam		
	Male	Female	Total	Male	Female	Total	Male	Female	Total
Plan Rating	6.5158	7.2363	6.6710	6.5486	7.0855	7.0544	7.2315	7.7205	
Health State	3.8278	3.8421	3.8308	3.7465	3.6181	3.6259	3.2836	3.4373	

	Ret/Surv/Fam <65			Total		
	Male	Female	Total	Male	Female	Total
Plan Rating	8.6682	9.0112	8.8406	7.3972	7.9114	7.6619
Health State	3.0095	2.9488	2.9793	3.3794	3.3712	3.3753

Calculating Percents

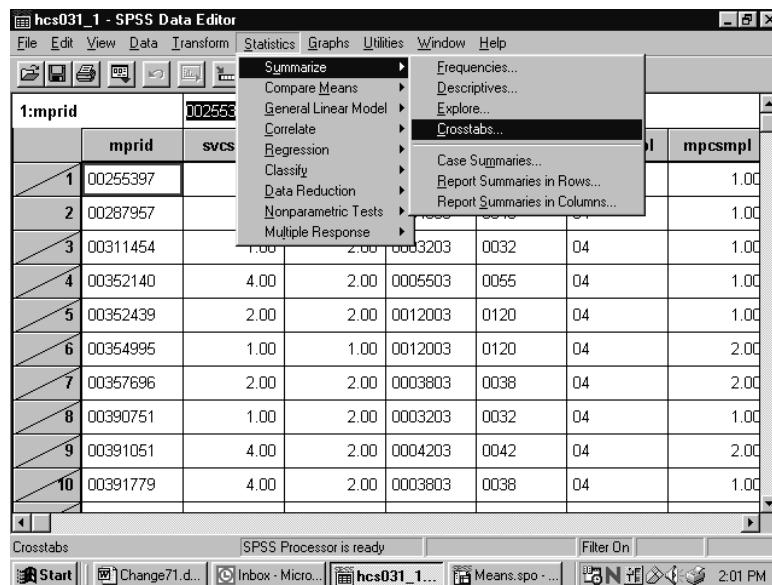

The **Crosstabs** procedure offers many options for analyzing data. The distribution of cases resulting from “crossing” one variable with another is often of interest. The number of cases, row percentages, column percentages, total percentages, and residuals are easily reproduced by **Crosstabs**. A full array of statistics is also available.

The examples given here involve examining relationships between variables, with a view toward the number of cases and the percent of cases in cells produced by “crossing” the variables.

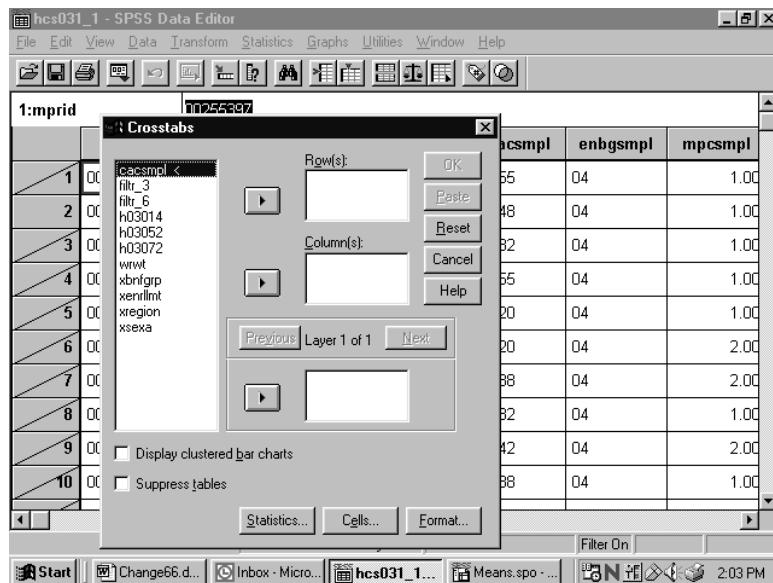

For example, suppose you want to see the percentage of people in the Southwest catchment areas who answered “yes” or “no” to the question, “Did you see a specialist in the last 12 months?” The variables in this analysis are **cacsmp1** – the catchment area, and **H03014** – the question variable. The cases for the analysis are from the Southwest only.

The first task is to build a new filter variable, assigning **1** to the variable when **xregion = 6**. You would call the variable **filtr_6** and build it the same way you built the filter, **filtr_3**. Cases from the Southwest are selected when you activate the filter, and the other cases are filtered out. Check the status line for **Filter On**.

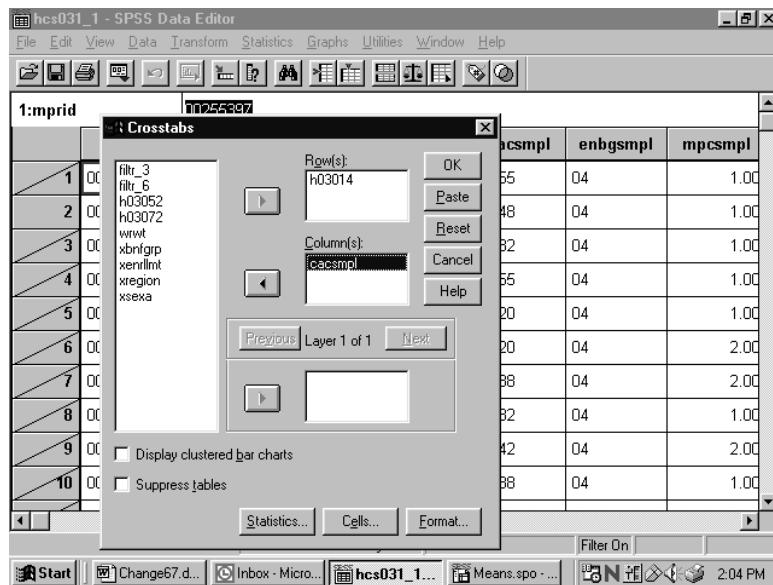

Next, open the **Statistics** menu in the **Data Window**, choosing **Summarize** and **Crosstabs**, as shown below.

The **Crosstabs** dialog box will open as follows:

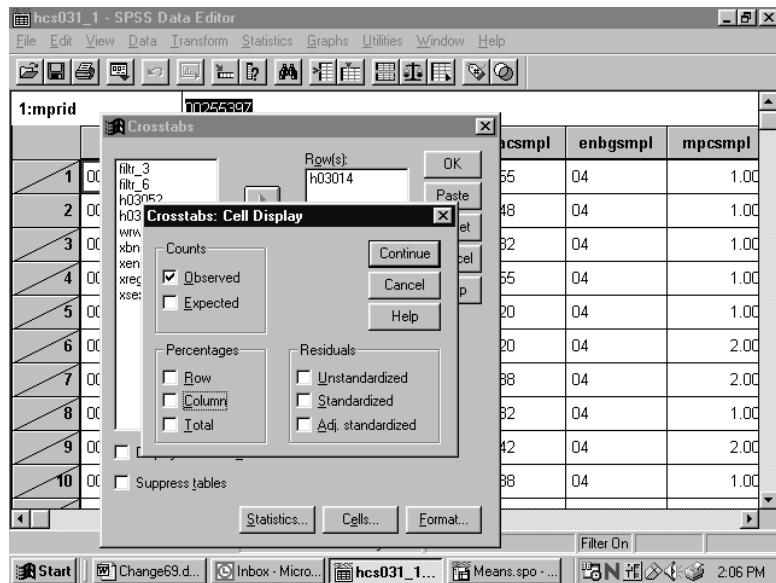

Move **H03014** from the variable list on the left into the box marked **Row(s):**, and move the variable **cacsmpl** into the box marked **Column(s):**. The screen will resemble the following:

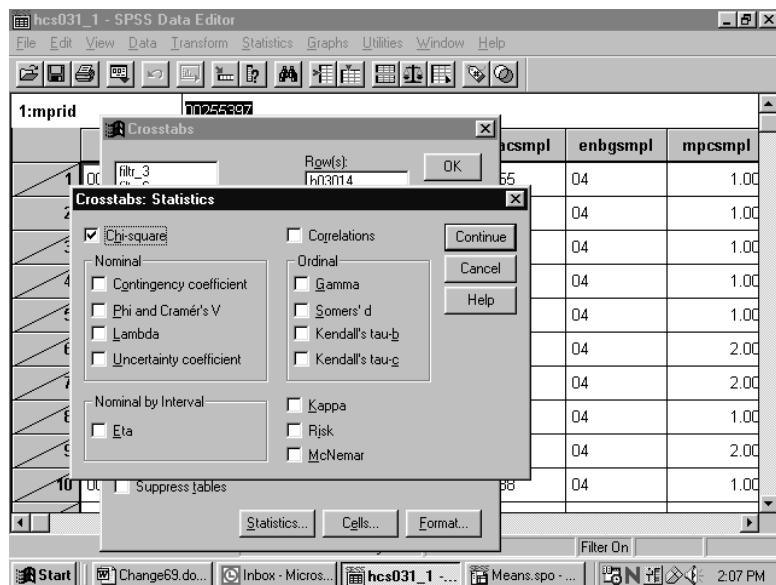

For this analysis, there are no **Layer** variables, so you can proceed to format the table cells.

Click on **Cells...** and open the following dialog box.

Under **Counts, Observed** is checked. This refers to the cell count, a statistic you want to see, so you would leave it checked. Under **Percentages**, check **Column** because you are interested in the percentage of people in each catchment area. Click **Continue** and return to the original screen.

Suppose you also want to see the chi-square statistic. Click on **Statistics**, and the following screen will open:

Check **Chi-square** as in the screen above, click **Continue** to return to the first screen, and click **OK** to run the procedure. **Running Crosstabs** will appear on the status line, together with the case counter.

When the run is completed, the output window will open, and you can proceed to reformat the table. For a given work session, SPSS appends new output to previous output—in our case, the **Means** procedure. As shown in the next screen, a second section now appears in the left pane, headed by the word **Crosstabs**. Navigate to the **Title** section and double-click inside the title box to change the text in the box to fit the table, as in the example below.

The screenshot shows the SPSS Output Navigator window titled 'Means.spo - SPSS Output Navigator'. The left pane displays a tree structure of output sections: Means, Title, Notes, Case Process, Report, Crosstabs, Title, Notes, Case Process, and In Ist yr: did y. The 'Crosstabs' section is expanded, showing its sub-sections. The main pane displays a report titled 'Mean Rating of Health Plan w/ Health Assessment'. The report includes a table titled 'Mean Health Status With Mean Rating of Health Plan By Beneficiary Status and Gender'. The table has two rows: 'Plan Rating' and 'Health State'. The columns are grouped under 'Active Duty' and 'Family of Active'. The 'Active Duty' group contains 'Male', 'Female', and 'Total' columns. The 'Family of Active' group contains 'Male', 'Female', and 'Total' columns. The 'Plan Rating' row shows values: Active Duty (Male: 6.5158, Female: 7.2363, Total: 6.6710) and Family of Active (Male: 6.5486, Female: 7.0855, Total: 7.0544). The 'Health State' row shows values: Active Duty (Male: 3.8278, Female: 3.8421, Total: 3.8308) and Family of Active (Male: 3.7465, Female: 3.6181, Total: 3.6259). Below the table, a section titled 'Southwest Region: Saw Specialist In Last Year' is highlighted with a dashed border. The bottom of the window shows the 'Case Processing Summary' and the taskbar with various icons and the file name 'Means.spo...'.

As you did for the **Means** procedure, you would again evaluate the **Notes** and examine the **Case Processing Summary**. Hide the **Notes** and delete the **Case Processing Summary** as you did before.

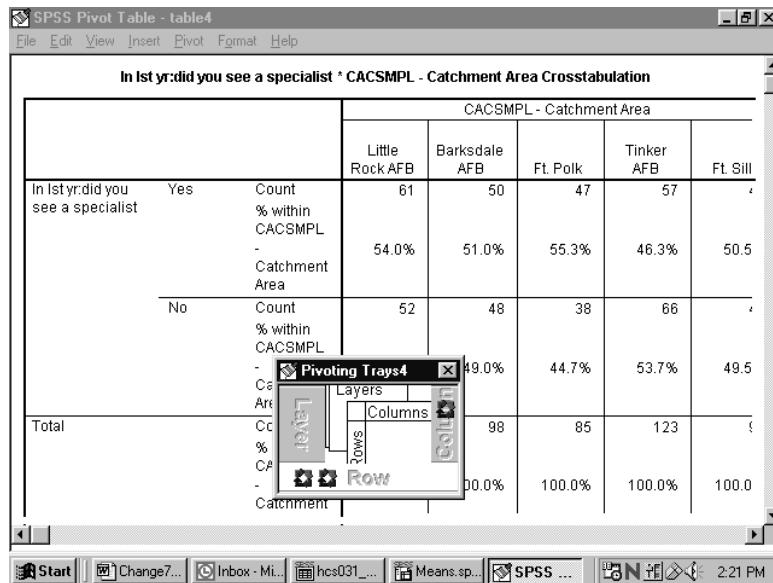

Navigate to the procedure icon. Follow the procedure for opening an **SPSS Pivot Table Object**, open the table in the special editor and maximize the screen as in the following:

		CACSMPL - Catchment Area					
		Little Rock AFB	Barksdale AFB	Ft. Polk	Tinker AFB	Ft. Sill	
In Ist yr:did you see a specialist	Yes	Count % within CACSMPL - Catchment Area	61 54.0%	50 51.0%	47 55.3%	57 46.3%	50.5
	No	Count % within CACSMPL - Catchment Area	52 46.0%	48 49.0%	38 44.7%	66 53.7%	49.5
	Total	Count % within CACSMPL - Catchment	113 100.0%	98 100.0%	85 100.0%	123 100.0%	100.0

The information you requested is in the table, but the table is hard to read. The first possibility is to realign the percent statistic, bringing it into the row dimension. To do this, open the **Pivot** menu and choose **Pivoting Trays**, as in the following screen:

		CACSMPL - Catchment Area					
		Little Rock AFB	Barksdale AFB	Ft. Polk	Tinker AFB	Ft. Sill	
In Ist yr:did you see a specialist	Yes	Count % within CACSMPL - Catchment Area	61 54.0%	50 51.0%	47 55.3%	57 46.3%	50.5
	No	Count % within CACSMPL - Catchment Area	52 46.0%	48 49.0%	38 44.7%	66 53.7%	49.5
	Total	Count % within CACSMPL - Catchment	113 100.0%	98 100.0%	85 100.0%	123 100.0%	100.0

The pivoting tool will appear:

This tool reflects the table structure: rows, columns, and layers. The icons in the margins of the pivoting trays represent the table elements: the variables and the cell statistics. Place the mouse pointer on each icon and notice the element name appear. In this example, on the ROW axis, you would find the variable, **H03014** – saw specialist in the last 12 months, and **Statistics** – the percent of people in each catchment area. On the column axis is the variable, **cacsmpl** – the catchment area.

Place the mouse pointer on the **Statistics** icon. Click and drag the icon from the ROW to the COLUMN dimension. The table immediately reformats as in the following screen:

Close the pivoting tool and scroll from side to side in the table. Again, the table appears too wide, but the report will print properly. Notice that the table is much more readable.

The label at the top of the table is the **Variable Label** for **cacsmp1**. Select it by double-clicking and edit it for clarity (see the screen below).

The table is now formatted to accommodate the long percent label, creating a lot of wasted space. Double-click this element, delete the text, and replace it with the word, “Percent”. The empty space disappears and the table appears as follows:

A screenshot of the SPSS Pivot Table interface. The title bar reads "SPSS Pivot Table - table4". The menu bar includes File, Edit, View, Insert, Pivot, Format, and Help. The main window displays a crosstabulation titled "In 1st yr: did you see a specialist * CACSMPL - Catchment Area Crosstabulation". The table has "Southwest Region Catchment Areas" in the header. It shows data for Little Rock AFB, Barksdale AFB, and Ft. Polk across three rows: "In 1st yr: did you see a specialist" (Yes, No, Total), and "Year" (1997, 1998, Total). The data is presented in a grid format with counts and percentages. The bottom of the window shows the Windows taskbar with various open application icons.

		Southwest Region Catchment Areas					
		Little Rock AFB		Barksdale AFB		Ft. Polk	
		Count	Percent	Count	Percent	Count	Percent
In 1st yr: did you see a specialist	Yes	61	54.0%	50	51.0%	47	55.3%
	No	52	46.0%	48	49.0%	38	44.7%
	Total	113	100.0%	98	100.0%	85	100.0%

Next, notice that the label for **H03014** is awkward. Select and clear it.

Last, edit the text in the table label so that it better expresses the content of the table. The finished table appears as follows:

		Southwest Region Catchment Areas						
		Little Rock AFB		Barksdale AFB		Ft. Polk		T
		Count	Percent	Count	Percent	Count	Percent	C
Yes		61	54.0%	50	51.0%	47	55.3%	
No		52	46.0%	48	49.0%	38	44.7%	
Total		113	100.0%	98	100.0%	85	100.0%	

Check **Print Preview** to see if the table is acceptable.

The last example shows you how to add a **Layer** dimension to a **Crosstabs** analysis. Using the same row variable, **H03014**, suppose you want to look at the percentage of people by their enrollment status in TRICARE Prime, **xenrlimt**, who saw a specialist in the past 12 months. Suppose you are also interested in sex differences, **xsexa**, among the groupings. **Xsexa** is the **Layer** variable. You want to remain in the Southwest region, using **filtr_6** as the filter variable. The cases will be weighted by **wrwt**.

The status line indicates **Weight On** and **Filter On**. Verify that both the weight and the filter variables are appropriate.

Once more, open the **Crosstabs** dialog box, enter the analysis variables, and set the **Cells** options, checking **Column** under **Percentages** until the dialog box looks like the following:

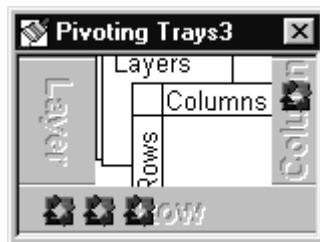

Do the following:

- Run **Crosstabs**.
- Edit the **Title** element in the **Output Navigator**.
- Examine **Notes** and the **Case Processing Summary** to verify that the crosstab ran as expected.
- Open the table as an **SPSS Pivot Table Object**, and the following will appear:

Male or Female - R			Enrollment in TRICARE Prime				
			Active Duty-under 65	Enrolled-under 65	Not enrolled-under 65	Not enrolled 65 or over	
Male	In 1st yr:did you see a specialist	Yes	Count % within Enrollment in TRICARE Prime	62416 40.6%	39621 56.3%	53091 52.8%	8700 74.8%
		No	Count % within Enrollment in TRICARE Prime	91169 59.4%	30774 43.7%	47520 47.2%	2924 25.2%
Total			Count % within Enrollment in TRICARE Prime	153585 100.0%	70395 100.0%	100611 100.0%	11625 100.0%
Female	In 1st yr:did you	Yes	Count	18298	83809	59627	8467

The table is difficult to read, but you can improve it by doing the following.

Select the **Pivot** menu to activate the **Pivoting Trays**. The table structure is reproduced in the tool as follows:

Place the mouse pointer on each small icon to find the second grouping variable, labeled **MALE OR FEMALE-R**, in the ROW dimension. Move it to the COLUMN dimension, and the table changes to the following:

		Enrollment in TRICARE Prime				
		Active Duty - under 65		Enrolled - under 65		Not enrolled
		Male or Female - R		Male or Female - R		Male or
		Male	Female	Male	Female	Male
In Ist yr:did you see a specialist	Yes	Count	62416	18298	39621	83809
		% within Enrollment in TRICARE Prime	40.6%	58.9%	56.3%	54.5%
	No	Count	91169	12762	30774	69892
		% within			43.7%	45.5%
	Total	Count	153585	31060	70395	153701
		% within Enrollment in TRICARE Prime	100.0%	100.0%	100.0%	100.0%

Pivoting Trays5

The Pivoting Trays5 dialog box shows the current dimension assignments:
 - Rows: In Ist yr:did you see a specialist
 - Columns: Enrollment in TRICARE Prime
 - Sub-Columns: Male or Female - R

Then drag the **Statistics** icon to the COLUMN dimension to produce the following change:

		Enrollment in TRICARE Prime				
		Active Duty - under 65		Enrolled - under 65		Male or
		Male or Female - R		Male or Female - R		Male or
		Male	Female	Male	Female	Male
		Count	Count	Count	Count	% within Enrollment in TRICARE Prime
In Ist yr:did you see a specialist	Yes	62416	18298	39621	83809	56.3%
	No	91169	12762	30774	69892	43.7%
	Total	153585	31060	70395	153701	100.0%

Pivoting Trays5

The Pivoting Trays5 dialog box shows the updated dimension assignments:
 - Rows: In Ist yr:did you see a specialist
 - Columns: Enrollment in TRICARE Prime
 - Sub-Columns: Male or Female - R
 - Statistics: Active Duty - under 65, Enrolled - under 65

Close the **Pivoting Trays** and hide the dimension label, **MALE OR FEMALE-R**, in the table. Then, change the percent label to “Percent” and delete the label for **H03014** in the row dimension. Last, revise the label above the table to make it more informative.

The resulting table is both clear and informative.

In 1st yr. did you see a specialist	Enrollment in TRICARE Prime							
	Active Duty - under 65				Enrolled - under 65			
	Male		Female		Male		Female	
Count	Percent	Count	Percent	Count	Percent	Count	Percent	Count
Yes	62416	40.6%	18298	58.9%	39621	56.3%	83809	54.5%
No	91169	59.4%	12762	41.1%	30774	43.7%	69892	45.5%
Total	153585	100.0%	31060	100.0%	70395	100.0%	153701	100.0%

The Print Preview, as in the view below, shows how the report will print.

In 1st yr. did you see a specialist	Enrollment in TRICARE Prime

CALCULATING VARIANCES OF ESTIMATES

Sampling error occurs when estimates are derived from a sample rather than a complete census of the population. The sample used for a particular survey is only one of a large number of possible samples of the same size and design that could have been selected. Even if the same questionnaire and instructions were used, the estimates from each sample would differ from the others. The standard error (or square root of the variance) indicates the magnitude of the sampling error and thus measures the precision expected from a particular sample.

It is desirable to assess the accuracy of an estimate. The standard error of a survey estimate measures the precision with which an estimate from one sample approximates the true population value. The standard error can be used to construct confidence intervals for survey parameters, within which the true parameter lies within a measurable degree of certainty.

This section explains how to estimate standard errors or variances for estimators computed from the 2003 Adult HCSDB. For a full discussion of variance estimation methods, see Wolter (1985) and references cited therein.

Variance Estimation Methods

To account for the sample design,¹ it is customary to use either Taylor series linearization or a resampling method for variance estimation. Neither variance estimation method is, in general, better so the choice of one or the other is largely a matter of convenience. To help users to estimate standard errors using Taylor series linearization or jackknife replication, the public release files for the Quarter I 2003 Adult HCSDB include the following variables:

- The stratum variable and the final annual (ADJ_CELL and WRWT) weight for the Taylor series linearization method
- Quarterly final weight (WRWT) and jackknife replicate weights (WRWT01 to WRWT60)

Two popular software packages are available for performing Taylor series linearization or the jackknife replication method: SUDAAN™ (Shah et al. 1997) and WesVarPC (Brick et al. 1996), respectively.² The discussion below explains how SUDAAN and WesVarPC are used to calculate variance estimates using Taylor series linearization and jackknife replication methods.

Taylor Series Linearization Method

For most sample designs (including the 2003 Adult HCSDB), design-based variance estimates for linear estimators of totals or means can be obtained with explicit formulas. However, nonlinear functions such as ratios do not have exact expressions for the variance. The Taylor series linearization method approximates the variance of a nonlinear estimator with the variances of the linear terms from the Taylor series expansion. Woodruff (1971) presented applications of this technique to sample surveys. Details on this method can also be found in "The 2003 Health Care Survey of DoD Beneficiaries: Adult Technical Manual".

¹The 2003 HCSDB uses a stratified sampling design. For details, see N.A. Clusen and D.S. Jang. "The 2000 Health Care Survey of DoD Beneficiaries: 2001 Adult Sample Design." Washington, DC: Mathematica Policy Research, November 2001.

²The latest version for SUDAAN 7.5 and SAS 8.0 can be used for replication methods including jackknife variance estimation.

To calculate variance estimates based on Taylor series linearization method with HCSDB's stratified sampling design, both the stratum variable (ADJ_CELL) and the final weight (WRWT) specified for each data record are needed.

SUDAAN incorporates the final analysis weight and the survey design to obtain estimates and their sampling errors. With a small overall sampling rate of about 1 percent, you can use the with-replacement design procedure (STRWR) in calculating standard errors.

All SUDAAN procedures require the following:

- The specification of sampling designs. The terminology for the stratified with-replacement sample design is DESIGN = STRWR.
- The data file sorted by the variable specified in the NEST statement. For the Quarter I 2003 Adult HCSDB, the data file for adults must be sorted by ADJ_CELL before using any SUDAAN procedure.
- A FILE TYPE appropriate for SUDAAN, if you use a stand-alone SUDAAN program. For example, some SUDAAN PC versions under Windows or MS-DOS accept only V6.02 through V6.04 SAS files, and FILE TYPE must be specified as SAS. SAS-callable SUDAAN is also available and can be invoked directly in a SAS program with any available SAS file as input; FILE TYPE is not needed here.
- The WEIGHT variable is WRWT

The following program is an example of how to use SUDAAN to calculate variance estimates for a mean statistic. Suppose you want to estimate:

- H03015 among all beneficiaries in the past 12 months who saw a specialist (H03014=1) for each region (XREGION)

```
PROC DESCRIPT DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    H03014=1;  
  SUBGROUP    XREGION;  
  LEVELS     16;  
  VAR         H03015;
```

The following program is an example of how to use SUDAAN to calculate variance estimates for column percentages or row percentages. Suppose you want to estimate:

- A cross tabulation of respondents in region 3 who last had a blood pressure reading less than 12 months ago, 1 to 2 years ago, and more than 2 years ago (H03055) by TRICARE enrollment (XENRLLMT).

```
PROC CROSSTAB DATA=HCSDB /*FILETYPE=SAS*/ DESIGN=STRWR;  
  WEIGHT      WRWT;  
  NEST        ADJ_CELL;  
  SUBPOPN    XREGION = 3;  
  SUBGROUP    H03055 XENRLLMT;  
  LEVELS     3 5;  
  TABLES     H03055 *XENRLLMT;
```

From the above examples, users should note that:

- PROC DESCRIPT can be used to compute estimates of means and the corresponding standard errors.
- PROC CROSSTAB can be used to compute estimates of proportions and the corresponding standard errors.

For a more detailed and complete discussion of how to use SUDAAN, see Shah et al. (1997).

Jackknife Replication Method

Another popular way to estimate the variance is to use a resampling method such as jackknife replication, balanced repeated replication, random groups, or the bootstrap method. Like other replication methods, jackknife replication constructs a number of subsamples (replicates) from the full sample and computes the statistics of interest for each replicate (with the same formula as the full sample estimate). The mean square error of the replicate estimates around their corresponding full estimate provides an estimate of the sampling variance of the statistic of interest regardless of the functional form of the statistic.

There are 60 replicate weights (WRWT01-WRWT60) for the 2003 Adult HCSDB in the Quarter 1 file. Construction of these weights is described in the Adult Technical Manual. With the replicate weights, you can produce jackknife standard errors using in-house or custom written software, or you can use a publicly available software package such as WesVarPC or SUDAAN 7.5. Because WesVarPC 2.02 is available as freeware on the World Wide Web (<http://www.westat.com/wesvarpc/index.html>), the following example explains how it is used to produce jackknife variance estimates for statistics from the 2003 Adult HCSDB.

Suppose you want to estimate the mean rating of specialists (H03015) by beneficiaries who went to a specialist in the past 12 months (H03014=1) for each region (XREGION). You would use WesVarPC as follows.

- **Create a SAS V6.04 file, SAS Transport file, or ASCII file.** WesVarPC has a restriction for the input data format. All files must be converted to one of these three types of files before being imported to WesVarPC.
- **Create a WesVarPC data file.** From the **Prep** menu, choose the **Import Data Files** screen and import all variables for the analysis. For this example, input H03014, and XREGION into the **Variables** box, WRWT01-WRWT60 into the **Replicates** box, and MPRID into the **ID** box. Also specify the replication method as JK1 on this screen.
- Create a data file for the subpopulation. Specify the subpopulation by choosing the **Subpop WesVarPC Data File** from the **Prep** menu: H03014=1.
- **Calculate estimates.** From the **Tables** menu, choose **New** and select the file created from the above procedure. Then, from the **Table Request** screen, specify H03015 as the **Analysis** variable, MEAN (H03015) as the **Compute Statistics**, and XREGION as the **Table**.

The above steps can also be followed to produce standard errors. The WesVarPC user's manual (Brick et al. 1996) provides other possible methods for producing standard errors. The latest WesVarPC 4.0 is no longer freeware and can be purchased from Westat.

Codebook

This chapter describes every variable in the database. This codebook will also be helpful in identifying which data are available for various analyses, and what, if any, recoding of variables will meet your needs. It may also be useful in reviewing output.

The variables are in order based on their order in the database. An alphabetical listing (see Table of Contents) is provided to assist in locating variables.

The codebook contains frequency distributions for both discrete and continuous variables. A discrete variable is one that has only a few values. A continuous variable may have many possible values.

Below are two examples of the presentation of variables in the codebook. For each variable, we include the variable name, definition, weighted and unweighted frequency distributions, and the format value for each value. The first example contains a frequency distribution for a discrete variable.

H03009 - Health plan: problem to get a personal doctor or nurse you are happy with					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
.	1034	7.43	481375.80	7.10	Did not answer
N	4162	29.91	2269729.00	33.46	Didn't get a new personal doctor/nurse
A	24	0.17	9894.11	0.15	Invalid multiple responses
C	736	5.29	411915.20	6.07	Should be skipped
1	909	6.53	401431.70	5.92	A big problem
2	1666	11.97	738897.20	10.89	A small problem
3	5384	38.69	2469483.00	36.41	Not a problem

The table below contains an example of a frequency distribution for a continuous variable: age. The frequency does not list every possible value of age individually but instead shows several age ranges that together cover all possible values of age. You will notice that the last range representing ages “75 years and older” includes 823 respondents age 75 and older.

DAGEQY - Age (As of 31 August 2002)					
Value	Unweighted		Weighted		Formatted Value
	Count	Percent	Count	Percent	
018 -- 034	3892	27.97	1505448.00	22.20	018--034

APPENDIX A

ANNOTATED QUESTIONNAIRE – QUARTER I

Health Care Survey of DoD Beneficiaries

July 2002

22328349

SURVEY INSTRUCTIONS

Answer all the questions by checking the circle to the left of your answer. You are sometimes told to skip over some questions in this survey. When this happens you will see a note that tells you what question to answer next, like this:

- Yes Go to Question 1
 No

Please return the completed questionnaire in the enclosed postage-paid envelope within **seven days**. If you have misplaced the envelope, our address is:

Office of the Assistant Secretary of Defense (Health Affairs)
c/o Survey Processing Center
PO Box 82660
Lincoln, NE 68501-9462

According to the Privacy Act of 1974 (Public Law 93-579), the Department of Defense is required to inform you of the purposes and use of this survey. Please read it carefully.

Authority: 10 U.S.C., Chapter 55, Public Law 102-484, E.O. 9397.

Purpose: This survey helps health policy makers gauge beneficiary satisfaction with the current military healthcare system and provides valuable input from beneficiaries that will be used to improve the Military Health System.

Routine Uses: None

Disclosure: Voluntary. Failure to respond will not result in any penalty to the respondent. However, maximum participation is encouraged so that data will be as complete and representative as possible.

-----SURVEY STARTS HERE-----

This survey is about the health care of the person addressed in the cover letter. The questionnaire should be completed by that person. If you are not the addressee, please give this survey to the person named in the cover letter.

002AMD26

0107077

1. Are you the person whose name appears on the mailing label of this envelope?

- Yes Go to Question 2
- No Please give this questionnaire to the person addressed on the envelope.

2. By which of the following health plans are you currently covered? MARK ALL THAT APPLY.

a. Military Health Plans

- TRICARE Prime
- TRICARE Extra or Standard (CHAMPUS)
- TRICARE Plus
- TRICARE for Life

b. Other Health Plans

- Medicare
- Federal Employees Health Benefit Program (FEHBP)
- Medicaid
- A civilian HMO (such as Kaiser)
- Other civilian health insurance (such as Blue Cross)
- Uniformed Services Family Health Plan (USFHP)
- The Veterans Administration (VA)
- Not Sure

3. Currently, are you covered by Medicare Part A? Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part A helps pay for inpatient hospital care.

- Yes, I am now covered by Medicare Part A
- No, I am not covered by Medicare Part A

4. Currently, are you covered by Medicare Part B? Medicare is the federal health insurance program for people aged 65 or older and for certain disabled people. Medicare Part B helps pay for doctor's services, outpatient hospital services, and certain other services.

- Yes, I am now covered by Medicare Part B
- No, I am not covered by Medicare Part B

002AMD37

0107077

5. **Currently, are you covered by Medicare supplemental insurance?** Medicare supplemental insurance, also called Medigap or MediSup, is usually obtained from private insurance companies and covers some of the costs not paid for by Medicare.

- Yes, I am now covered by Medicare supplemental insurance
 No, I am not covered by Medicare supplemental insurance

6. **Which health plan did you use for all or most of your healthcare in the last 12 months? MARK ONLY ONE.**

- TRICARE Prime
 TRICARE Extra or Standard (CHAMPUS)
 TRICARE Plus
 Medicare
 Federal Employees Health Benefit Program (FEHBP)
 Medicaid
 A civilian HMO (such as Kaiser)
 Other civilian health insurance (such as Blue Cross)
 Uniformed Services Family Health Plan (USFHP)
 The Veterans Administration (VA)
 Not sure
 Did not use any health plan in the last 12 months **Go to Question 8**

For the remainder of this questionnaire, the term health plan refers to the plan you indicated in Question 6.

7. **How many months or years in a row have you been in this health plan?**

- Less than 6 months 12 up to 24 months 5 up to 10 years
 6 up to 12 months 2 up to 5 years 10 or more years

-----YOUR PERSONAL DOCTOR, OR NURSE-----

The next questions ask about your own healthcare. Do not include care you got when you stayed overnight in a hospital. Do not include the times you went for dental care visits.

8. **A personal doctor or nurse is the health provider who knows you best. This can be a general doctor, a specialist doctor, a nurse practitioner, or a physician assistant.**

When you joined your health plan or at any time since then, did you get a new personal doctor or nurse?

- Yes No **Go to Question 10**

002AMD48

0107077

9. With the choices your health plan gave you, how much of a problem, if any, was it to get a personal doctor or nurse you are happy with?

- A big problem A small problem Not a problem I didn't get a new personal doctor or nurse.

10. Do you have one person you think of as your personal doctor or nurse?

- Yes No Go to Question 12

11. We want to know your rating of your personal doctor or nurse.

Use any number from 0 to 10 where 0 is the worst personal doctor or nurse possible, and 10 is the best personal doctor or nurse possible. How would you rate your personal doctor or nurse now?

- 0 Worst personal doctor or nurse possible
 1
 2
 3
 4
 5
 6
 7
 8
 9
 10 Best personal doctor or nurse possible
 I don't have a personal doctor or nurse.

-----GETTING HEALTHCARE FROM A SPECIALIST-----

When you answer the next questions, do not include dental visits.

12. Specialists are doctors like surgeons, heart doctors, allergy doctors, skin doctors, and others who specialize in one area of healthcare.

In the last 12 months, did you or a doctor or nurse think you needed to see a specialist?

- Yes No Go to Question 14

002AMD59

0107077

13. In the last 12 months, how much of a problem, if any, was it to get a referral to a specialist that you needed to see?

- A big problem Not a problem
 A small problem I didn't need to see a specialist in the last 12 months.

14. In the last 12 months, did you see a specialist?

- Yes No Go to Question 17

15. We want to know your rating of the specialist you saw most often in the last 12 months, including a personal doctor if he or she was a specialist.

Use any number from 0 to 10 where 0 is the worst specialist possible, and 10 is the best specialist possible. How would you rate the specialist?

- 0 Worst specialist possible

-----YOUR HEALTHCARE IN THE LAST 12 MONTHS-----

19. A health provider could be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for healthcare.

In the last 12 months, did you make any appointments with a doctor or other health provider for regular or routine healthcare?

Yes No Go to Question 22

20. In the last 12 months, how often did you get an appointment for regular or routine healthcare as soon as you wanted?

Never Usually I didn't need an appointment for regular or routine care in the last 12 months.
 Sometimes Always

21. In the last 12 months, how many days did you usually have to wait between making an appointment for regular or routine care and actually seeing a provider?

Same day 4-7 days 31 days or longer
 1 day 8-14 days I tried but could not get an appointment.
 2-3 days 15-30 days I didn't need an appointment for regular or routine care in the last 12 months.

22. In the last 12 months, did you have an illness or injury that needed care right away from a doctor's office, clinic, or emergency room?

Yes No Go to Question 25

23. In the last 12 months, when you needed care right away for an illness or injury, how often did you get care as soon as you wanted?

Never Usually I didn't need care right away for an illness or injury in last 12 months.
 Sometimes Always

24. In the last 12 months, how long did you usually have to wait between trying to get care and actually seeing a provider for an illness or injury?

Same day 3 days 15 days or longer
 1 day 4-7 days I didn't need care right away for an illness or injury in the last 12 months.
 2 days 8-14 days

25. In the last 12 months, how many times did you go to an emergency room to get care for yourself?

None 1 2-3 4-6 More than 6

26. In the last 12 months (not counting times you went to an emergency room), how many times did you go to a doctor's office or clinic to get care for yourself?

None Go to Question 37 1 2 3 4 5 to 9 10 or more

002AMD7B

0107077

27. In the last 12 months, how much of a problem, if any, was it to get the care you or a doctor believed necessary?

- A big problem A small problem Not a problem I had no visits in the last 12 months.

28. In the last 12 months, how much of a problem, if any, were delays in healthcare while you waited for approval from your health plan?

- A big problem A small problem Not a problem I had no visits in the last 12 months.

29. In the last 12 months, how often did you wait in the doctor's office or clinic more than 15 minutes past your appointment time to see the person you went to see?

- Never Sometimes Usually Always I had no visits in the last 12 months.

30. In the last 12 months, how often did office staff at a doctor's office or clinic treat you with courtesy and respect?

- Never Sometimes Usually Always I had no visits in the last 12 months.

31. In the last 12 months, how often were office staff at a doctor's office or clinic as helpful as you thought they should be?

- Never Sometimes Usually Always I had no visits in the last 12 months.

32. In the last 12 months, how often did doctors or other health providers listen carefully to you?

- Never Sometimes Usually Always I had no visits in the last 12 months.

33. In the last 12 months, how often did doctors or other health providers explain things in a way you could understand?

- Never Sometimes Usually Always I had no visits in the last 12 months.

34. In the last 12 months, how often did doctors or other health providers show respect for what you had to say?

- Never Sometimes Usually Always I had no visits in the last 12 months.

35. In the last 12 months, how often did doctors or other health providers spend enough time with you?

- Never Sometimes Usually Always I had no visits in the last 12 months.

002AMD8C

0107077

36. We want to know your rating of all your healthcare in the last 12 months from all doctors and other health providers.

Use any number from 0 to 10 where 0 is the worst healthcare possible, and 10 is the best healthcare possible. How would you rate all your healthcare?

- 0 Worst healthcare possible

- 5
- 6
- 7
- 8
- 9
- 10 Best customer service possible
- I did not fill any prescriptions at a MTF pharmacy

40. In the past 12 months, did you talk about your medications and treatment with the pharmacist or technician at the military pharmacy you used most?

- Yes
- No
- I did not use a MTF pharmacy

002AMD9D

0107077

41. In the past 12 months, how long (on average) did you wait for prescriptions to be filled at a military pharmacy?

- Less than 15 minutes Between 31 and 45 minutes More than 60 minutes
 Between 15 and 30 minutes Between 45 and 60 minutes

42. In the last 12 months, where did you go most often for your healthcare? MARK ONLY ONE ANSWER.

- A military facility - This includes: Military clinic, Military hospital, PRIMUS clinic, NAVCARE clinic
 A civilian facility - This includes: Doctor's office, Clinic, Hospital, Civilian TRICARE contractor
 Uniformed Services Family Health Plan facility (USFHP)
 Veterans Affairs (VA) clinic or hospital
 I went to none of the listed types of facilities in the last 12 months.

43. In the last 12 months, have you received any healthcare at a military facility (MTF)?

- Yes No [Go to Question 45](#)

44. How did the overall physical condition of the MTF that you used most compare to the condition of most civilian healthcare facilities in your area?

- The MTF is in much better condition than civilian facilities
 The MTF is in somewhat better condition than civilian facilities
 The MTF is in similar condition to civilian facilities
 The MTF is in somewhat worse condition than civilian facilities
 The MTF is in much worse condition than civilian facilities
 There are no civilian facilities in my area

-----TRICARE'S CIVILIAN NETWORK-----

The following questions ask about your experiences with the TRICARE civilian network. TRICARE, including TRICARE Prime and Extra, is the healthcare system of the Department of Defense that provides care for active duty and retired military personnel and their dependents. TRICARE includes the hospitals, clinics and pharmacies of the three services, supplemented by a civilian network. The TRICARE civilian network is made up of the doctors, clinics, hospitals and other health care providers who are part of DoD's preferred provider pool. The next five questions refer to health services you received from the civilian network.

45. In the past 12 months, how much of your healthcare did you receive from the TRICARE civilian network?

- All of my healthcare None of my healthcare
 Most of my healthcare I did not need healthcare in the past 12 months [Go to Question 50](#)
 Some of my healthcare

46. In the past 12 months, how much of a problem was it to get the healthcare you wanted from the TRICARE civilian network?

- A big problem Not a problem
 A small problem I did not try to get healthcare from the civilian network

002AMDAE

0107077

47. In the past 12 months, how much of a problem was it to find a conveniently located doctor from the TRICARE civilian network?

- A big problem Not a problem
 A small problem I did not try to find a doctor from the civilian network

48. In the past 12 months, how much of a problem was it to find a conveniently located lab or x-ray facility in the TRICARE civilian network?

- A big problem Not a problem
 A small problem I did not try to find a lab or x-ray facility in the civilian network

49. In the past 12 months, did you learn that a physician whom you wanted to see had left the TRICARE civilian network?

- Yes No I did not want to see any network physicians

-----YOUR HEALTH PLAN-----

The next questions ask about your experience with your health plan. By your health plan, we mean the health plan you marked in Question 6.

50. Claims are sent to a health plan for payment. You may send in the claims yourself, or doctors, hospitals, or others may do this for you.

In the last 12 months, did you or anyone else send in any claims to your health plan?

- Yes No Go to Question 54

51. In the last 12 months, how often did your health plan handle your claims in a reasonable time?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

52. In the last 12 months, how often did your health plan handle your claims correctly?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

53. In the last 12 months, before you went for care, how often did your health plan make it clear how much you would have to pay?

- Never Usually Don't know
 Sometimes Always No claims were sent for me in the last 12 months.

54. In the last 12 months, did you look for any information in written materials from your health plan?

- Yes No Go to Question 56

002AMDBF

0107077

55. In the last 12 months, how much of a problem, if any, was it to find or understand information in the written materials?

- A big problem Not a problem
 A small problem I didn't look for information from my health plan in the last 12 months.

56. In the last 12 months, did you call your health plan's customer service to get information or help?

- Yes No Go to Question 58

57. In the last 12 months, how much of a problem, if any, was it to get the help you needed when you called your health plan's customer service?

- A big problem Not a problem
 A small problem I didn't call my health plan's customer service in the last 12 months.

58. In the last 12 months, have you called or written your health plan with a complaint or problem?

- Yes No Go to Question 61

59. How long did it take for the health plan to resolve your complaint?

- Same day 4 or more weeks
 1 week I am still waiting for it to be settled.
 2 weeks I haven't called or written with a complaint or problem in the last 12 months.
 3 weeks

60. Was your complaint or problem settled to your satisfaction?

- Yes I am still waiting for it to be settled.
 No I haven't called or written with a complaint or problem in the last 12 months.

61. Paperwork means things like having your records changed, processing forms, or other paperwork related to getting care.

In the last 12 months, did you have any experiences with paperwork for your health plan?

- Yes No Go to Question 63

62. In the last 12 months, how much of a problem, if any, did you have with paperwork for your health plan?

- A big problem Not a problem
 A small problem I didn't have any experiences with paperwork for my health plan in the last 12 months.

63. We want to know your rating of all your experience with your health plan.

Use any number from 0 to 10 where 0 is the worst health plan possible, and 10 is the best health plan possible. How would you rate your health plan now?

- 0 Worst health plan possible
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best health plan possible

64. In the last 12 months how many times have you received briefings on TRICARE eligibility, benefits, services offered at your local MTF(s), or claims processing and resolution?

- Never
- Once
- Twice
- Three or more times

65. If you are currently enrolled in TRICARE Prime, how likely are you to disenroll from TRICARE Prime for a different type of health plan in the next 12 months?

- Very unlikely
- Unlikely
- Neither likely nor unlikely
- Likely
- Very likely
- Not sure
- I am not currently enrolled in TRICARE Prime.

-----PREVENTATIVE CARE-----

Preventative care is medical care you receive that is intended to maintain your good health or prevent a future medical problem. A physical or a cholesterol screening are examples of preventative care.

66. Not counting when you were sick or pregnant, when was the last time you had a general medical or physical examination or checkup?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 but less than 5 years ago
- 5 or more years ago
- Never had a general physical or checkup

67. When did you last have a blood pressure reading?

- Less than 12 months ago
- 1 to 2 years ago
- More than 2 years ago

68. Do you know if your blood pressure is too high?

- Yes, it is too high
- No, it is not too high
- Don't know

002AMDDH

0107077

69. When did you last have a cholesterol screening, that is, a test to determine the level of cholesterol in your blood?

- Less than 12 months ago More than 2 but less than 5 years ago Never had a cholesterol screening
 1 to 2 years ago 5 or more years ago

70. When did you last have a flu shot?

- Less than 12 months ago 1 to 2 years ago More than 2 years ago Never had a flu shot

71. Have you ever smoked at least 100 cigarettes in your entire life?

- Yes No [Go to Question 75](#) Don't know [Go to Question 75](#)

72. Do you now smoke every day, some days or not at all?

- Every day [Go to Question 74](#) Not at all [Go to Question 73](#)
 Some days [Go to Question 74](#) Don't know [Go to Question 75](#)

73. How long has it been since you quit smoking cigarettes?

- Less than 12 months [Go to Question 74](#) Don't know [Go to Question 75](#)
 12 months or more [Go to Question 75](#)

74. In the last 12 months, on how many visits were you advised to quit smoking by a doctor or other health provider in your plan?

- None
 1 visit
 2 to 4 visits
 5 to 9 visits
 10 or more visits
 I had no visits in the last 12 months.

75. Are you male or female?

- Male [Go to Question 76](#) Female [Go to Question 77](#)

76. When was the last time you had a prostate gland examination or blood test for prostate disease?

- Within the last 12 months More than 2 but less than 5 years ago Never had a prostate gland examination
 1 to 2 years ago 5 or more years ago

[Go to Question 90](#)

77. When did you last have a Pap smear test?

- Within the last 12 months More than 3 but less than 5 years ago Never had a Pap smear test
 1 to 3 years ago 5 or more years ago

002AMDEI

0107077

78. Are you under age 40?

Yes [Go to Question 81](#) No

79. When was the last time your breasts were checked by mammography?

Within the last 12 months More than 2 years but less than 5 years ago Never had a mammogram
 1 to 2 years ago 5 or more years ago

80. When was the last time you had a breast exam by a healthcare professional?

Within the last 12 months More than 2 years but less than 5 years ago Never had a breast exam
 1 to 2 years ago 5 or more years ago

81. Have you been pregnant in the last 12 months or are you pregnant now?

Yes, I am currently pregnant [Go to Question 82](#)
 No, I am not currently pregnant, but have been in the past 12 months [Go to Question 83](#)
 No, I am not currently pregnant, and have not been pregnant in the past 12 months [Go to Question 90](#)

82. In what trimester is your pregnancy?

First trimester Second trimester Third trimester

83. In which trimester did you first receive prenatal care?

First trimester Second trimester Third trimester Did not receive prenatal care [Go to Question 86](#)

84. Did you see the same doctor or midwife for the majority of your prenatal appointments?

Yes No

85. Did your doctor or midwife encourage you to include family members or significant others to help prepare for your baby's arrival?

Yes No

86. How much of a problem was it for you to make appointments for prenatal visits?

A big problem A small problem Not a problem

87. Did you try to get training to prepare for breastfeeding?

Yes No [Go to Question 89](#)

002AMDFJ

0107077

88. On a scale of 0 to 10 where 0 is the worst training possible and 10 is the best training possible, how would you rate the training for breastfeeding you received?

- 0 Worst
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10 Best training possible
- I did not receive training for breastfeeding

89. Did your physician or midwife work with you to develop a birth plan?

- Yes
- No
- Don't Know

-----ABOUT YOU-----

90. Would you say that in general your health is:

- Excellent
- Very Good
- Good
- Fair
- Poor

91. Are you limited in any way in any activities because of any impairment or health problem?

- Yes
- No

CODING SCHEME AND CODING TABLES

2003 HEALTH CARE SURVEY OF DOD BENEFICIARIES (HCSDB)
CODING SCHEME AND CODING TABLES

BASIC SAS AND ASCII/EBCDIC MISSING DATA AND NOT APPLICABLE CODES

SAS	ASCII/EBCDIC	
Numeric	Numeric	Description
.	-9	No response
.A	-8	Multiple response error
.O	-7	Out of range error
.N	-6	Not Applicable or valid skip
.D	-5	Scalable response of “Don’t know” or “not sure”
.I	-4	Incomplete grid error
.C	-1	Question should have been skipped.

Missing values ‘.’, multiple responses ‘.A’, and incomplete grids ‘.I’ are encoded prior to implementation of the Coding Scheme Notes (see below).

Coding Table for Note 1:
H03006, H03007

N1	H03006 is:	H03007 is:	H03006 is coded as:	H03007 is coded as:	*
1	1-11, health plan, -5, not sure	Marked, missing, or multiple response	Stands as original value	Stands as original value	
2	-6, no usage in past 12 months	Marked or multiple response	Stands as original value	.C, question should be skipped	F
3	-6, no usage in past 12 months	Missing response	Stands as original value	.N, valid skip	F
4	Missing response	Marked, missing, or multiple response	Stands as original value	Stands as original value	
5	Multiple response	Marked or multiple response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	-6: Did not use any health plan in the last 12 months	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 2:
H03008, H03009

N2	H03008 is:	H03009 is:	H03008 is coded as:	H03009 is coded as:	*
1	1: yes	1-3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't get a new doctor	2: No	.C question should be skipped	B F
3	2: no, missing, or multiple response	1- 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't get a new doctor	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 3:
H03010, H03011

N3	H03010 is:	H03011 is:	H03010 is coded as:	H03011 is coded as:	*
1	1: yes	0-10, missing, or multiple response	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	-6, I don't have a personal doctor or nurse	2: no	.C, question should be skipped	B F
3	2: no, missing, or multiple response	0-10 or multiple response	1: yes	Stands as original value	B
4	2: no	-6, I don't have a personal doctor or nurse, or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 4:
H03012, H03013

N4	H03012 is:	H03013 is:	H03012 is coded as:	H03013 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't need to see a specialist	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't need to see a specialist	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

**Coding Table for Note 5:
H03014, H03015, H03016**

N5	H03014 is:	H03015, H03016 Are:	H03014 is coded as:	H03015, H03016 Are coded as:	*
1	1: yes	"All are blank" or at least one is "marked"	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	"Blank or NA"	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is "marked"	1: yes	Stand as original value	B
4	2: no	"All are blank" or "blank or NA"	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	"All are blank"	Stands as original value	Stand as original value	
6	Multiple response	"All are blank"	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of "all are blank" in Coding Table for Note 5:
H03015 and H0316 are both missing.

Definition of "blank or NA" in Coding Table for Note 5:
H03015 and H03016 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of "marked" in Coding Table for Note 5:
Any pattern of marks outside the definitions "all are blank" and "blank or NA."

Coding Table for Note 6:
H03017, H03018

N6	H03017 is:	H03018 is:	H03017 is coded as:	H03018 is coded as:	*
1	1: yes	1-4: how often, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: no calls	2: no	.C, question should be skipped	B F
3	2: no, missing or multiple response	1-4: how often, multiple response	1: yes	Stands as original value	B
4	2: no	-6: no calls or missing	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 7:
H03019, H03020, H03021

N7	H03019 is:	H03020 & H03021 are:	H03019 is coded as:	H03020 & H03021 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 7:
Responses to H03020 and H03021 are both missing.

Definition of “blank or NA” in Coding Table for Note 7:
Responses to H03020 and H03021 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 7:
Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 8:
H03022, H03023, H03024**

N8	H03022 is:	H03023 & H03024 are:	H03022 is coded as:	H03023 & H03024 are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 8:

Responses to H03023 and H03024 are both missing.

Definition of “blank or NA” in Coding Table for Note 8:

Responses to H03023 and H03024 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 8:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

**Coding Table for Note 9:
H03026, H03027-H03036**

N9	H03026 is:	H03027- H03036 are:	H03026 is coded as:	H03027- H03036 are coded as:	*
1	1: None	At least one is “marked”, “All are blank”, or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
2	2-7, missing, or multiple response	“Blank or NA”	1: None	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2-7	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
4	Missing response	“All are blank”	Stands as original value	Stand as original value	
5	Multiple response	“All are blank”	1: None	.N, valid skip	B
6	Missing or Multiple response	At least one is “marked”	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 9:

Responses to H03027-H03036 are all missing.

Definition of “Blank or NA” in Coding Table for Note 9:

Responses to H03027-H03036 are either all not applicable (-6) or a combination of missing response and not applicable (-6)

Definition of “marked” in Coding Table for Note 9:

Any pattern of marks outside the definitions “all are blank” and “Blank or NA.”

Coding Table for Note 10:
S03R01, S03R02-S03R04

N10	S03R01 is: Are:	S03R02-S03R04 Are:	S03R01 is coded as:	S03R02-S03R04 Are coded as:	*
1	1: yes	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 10:
S03R02-S03R04 are all missing.

Definition of “blank or NA” in Coding Table for Note 10:
S03R02-S03R04 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 10:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

Coding Table for Note 12:
S03F01, S03F02

N4	S03F01 is:	S03F02 is:	S03F01 is coded as:	S03F02 is coded as:	*
1	1: yes	1, 2, 3,4,5,6, missing, or multiple response	Stands as original value	Stands as original value	
2	2: no, missing, or multiple response	1, 2, 3,4,5,6, multiple response	1: yes	Stands as original value	B
3	2: no	Missing	Stands as original value	.N, valid skip	F
4	Missing response	Missing response	Stands as original value	Stands as original value	
5	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 13:
S03V01, S03V02-S03V05

N10	S03V01 is:	S03V02-S03V05 Are:	S03V01 is coded as:	S03V02-S03V05 Are coded as:	*
1	1,2,3,4: some or no healthcare	“All are blank” or at least one is “marked”	Stands as original value	Stand as original value	
2	1,2,3: at least some healthcare, missing, or multiple response	“Blank or NA”	-6: didn’t need healthcare in past 12 months	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	4: no healthcare	“Blank or NA”	Stands as original value	Stands as original value	
4	-6: didn’t need healthcare in past 12 months	At least one is “marked”, “All are blank” or “blank or NA”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stands as original value	
6	Multiple response	“All are blank”	-6, didn’t need healthcare in past 12 months	.N, valid skip	B
7	Missing or Multiple response	At least one is “marked”	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 13:
S03V02-S03V05 are all missing.

Definition of “blank or NA” in Coding Table for Note 13:
S03V02-S03V05 are either not applicable (-6), or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 13:
Any pattern of marks outside the definitions “all are blank” and “blank or NA.”

**Coding Table for Note 14:
H03039, H03040-H03042**

N14 H03039 is:		H03040-H03042 are:	H03039 is coded as:	H03040-H03042 are coded as:	*
1	1: yes	At least one is “marked”, “all are blank” or “blank or don’t know”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B
3	2: no, missing, or multiple response	At least one is “marked” or “blank or don’t know”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 14:

Responses to H03040-H03042 are all missing.

Definition of “blank or NA” in Coding Table for Note 14:

Responses to H03040-H03042 are either all not applicable (-6) or a combination of missing and not applicable (-6).

Definition of “blank or don’t know” in Coding Table for Note 14:

Responses to H03040-H03042 are either all don’t know (-5) or a combination of missing and don’t know (-5).

Definition of “marked” in Coding Table for Note 14:

Any pattern of marks outside the definitions “all are blank,” “blank or NA,” or “blank or don’t know.”

Table for Note 15:
H03043, H03044

N15	H03043 is:	H03044 is:	H03043 is coded as:	H03044 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't look for information in health plan	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't look for information in health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 16:
H03045, H03046

N16	H03045 is:	H03046 is:	H03045 is coded as:	H03046 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't call health plan	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't call health plan	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 17:
H03047, H03048, H03049

N17	H03047 is:	H03048 & H03049 are:	H03047 is coded as:	H03048 & H03049 are coded as:	*
1	1: yes	At least one is “marked” or “all are blank”	Stands as original value	Stand as original value	
2	1: yes, missing, or multiple response	“Blank or NA”	2: no	.N, valid skip if missing; .C, question should be skipped if marked	B F
3	2: no, missing, or multiple response	At least one is “marked”	1: yes	Stand as original value	B
4	2: no	“Blank or NA” or “all are blank”	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
5	Missing response	“All are blank”	Stands as original value	Stand as original value	
6	Multiple response	“All are blank”	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 17:

Responses to H03048 and H03049 are both missing.

Definition of “blank or NA” in Coding Table for Note 17:

Responses to H03048 and H03049 are either all not applicable (-6) or a combination of not applicable (-6) and missing.

Definition of “marked” in Coding Table for Note 17:

Any pattern of marks outside the definitions “all are blank” and “blank or NA”

Coding Table for Note 18:
H03050, H03051

N18	H03050 is:	H03051 is:	H03050 is coded as:	H03051 is coded as:	*
1	1: yes	1, 2, 3, missing, or multiple response	Stands as original value	Stands as original value	
2	1: yes, missing, or multiple response	-6: didn't have any experience	2: No	.C question should be skipped	B
3	2: no, missing, or multiple response	1, 2, 3, multiple response	1: yes	Stands as original value	B
4	2: no	Missing, or -6: didn't have any experience	Stands as original value	.N, valid skip if missing, .C, question should be skipped if marked	F
5	Missing response	Missing response	Stands as original value	Stands as original value	
6	Multiple response	Missing response	2: no	.N, valid skip	B

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19A:
H03026, H03062

N19A	H03026 is:	H03062 is:	H03026 is coded as:	H03062 is coded as:	*
1	1: none	Missing, or multiple response	Stands as original value	-6: no visits in the last 12 months	F
2	1: none	1-5, -6	Stands as original value	Stands as original value	
3	2-7, missing, or multiple response	1-5, -6, missing, or multiple response	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19:
H03059--H03062

N19	H03059 Is:	H03060 is:	H03061 is:	H03062 is:	H03059 is coded as:	H03060 is coded as:	H03061 is coded as:	H03062 is coded as:	*
1	1: ever smoked	3 or 4: still smoke	Marked or multiple response	Any value	Stands as original value	Stands as original value	.C, question should be skipped	Stands as original value	F
2	1: ever smoked	3 or 4: still smoke	Missing response	Any value	Stands as original value	Stands as original value	.N, valid skip	Stands as original value	F
3	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Marked or multiple response	Stands as original value	Stands as original value	Stands as original value	.C, question should be skipped	F
4	1: ever smoked	2: quit	2: quit >1 year ago or -5: don't know	Missing response	Stands as original value	Stands as original value	Stands as original value	.N, valid skip	F
5	1: ever smoked	2: quit	3: quit <1 year ago, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
6	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Marked or multiple response	Stands as original value	2: quit	Stands as original value	.C, question should be skipped	F B
7	1: ever smoked	-5: don't know, missing, or multiple response	2: quit >1 year ago	Missing response	Stands as original value	2: quit	Stands as original value	.N, valid skip	F B
8	1: ever smoked	-5: don't know, missing, or multiple response	3: quit <1 year ago	Any value	Stands as original value	2: quit	Stands as original value	Stands as original value	B
9	1: ever smoked	-5:don't know, missing, or multiple response	-5: don't know, missing, or multiple response	Any value	Stands as original value	Stands as original value	Stands as original value	Stands as original value	
10	2: never, -5: don't know, missing, or multiple response	3 or 4: still smoke	Marked or multiple response	Any value	1: ever smoked	Stands as original value	.C, question should be skipped	Stands as original value	B F

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 19 continued:

N19	H03059 Is:	H03060 is:	H03061 is:	H03062 is:	H03059 is coded as:	H03060 is coded as:	H03061 is coded as:	H03062 is coded as:	*

Coding Table for Note 20:

Note 20 (Part A):
H03069, H03070, H03071

N2 0A	H03069 is: 1: Yes, currently pregnant	H03070 is: Missing	H03071 is: Marked, or multiple response	H03069 is coded as: 2: No, but have been in past year	H03070 is coded as: .N, valid skip	H03071 is coded as: Stands as original value	*
1	1: Yes, currently pregnant	Any response	Missing	Stands as original value	Stands as original value	Stands as original value	F
2	1: Yes, currently pregnant	Marked, multiple response	Any response	Stands as original value	Stands as original value	Stands as original value	
3	2, 3, Missing, Multiple	Any response	Any response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

Note 20(Part B):**H03063, SEX, XSEXA, H03064-H03071, S03O01-S03O06**

N20B	H03063:	SEX is:	H03064 is:	H03065--H03071, S03O01-S03O06 are:	XSEXA is coded as:
1	Missing or multiple response	F	Marked	Any marked	2, female
2	Missing or multiple response	F	Missing or multiple response	All missing or multiple response	2, female
3	Missing or multiple response	M	Marked	Any marked	1, male
4	Missing or multiple response	M	Missing or multiple response	All missing or multiple response	1, male
5	Missing or multiple response	Any value	Marked	All missing or multiple response	1, male
6	Missing or multiple response	Any value	Missing or multiple response	Any marked	2, female
7	Missing or multiple response	Z	Marked	Any marked	., missing value
8	Missing or multiple response	Z	Missing or multiple response	All missing or multiple response	., missing value
9	1, male	Any value	Marked	All missing or multiple response	1, male
10	1, male	F	Missing or multiple response	Any marked	2, female
11	1, male	M or Z	Missing or multiple response	Any marked	1, male
12	1, male	Any value	Marked	Any marked	1, male
13	1, male	Any value	Missing or multiple response	All missing or multiple response	1, male
14	2, female	Any value	Missing or multiple response	Any marked	2, female
15	2, female	M	Marked	All missing or multiple response	1, male
16	2, female	F or Z	Marked	All missing or multiple response	2, female
17	2, female	Any value	Marked	Any marked	2, female
18	2, female	Any value	Missing or multiple response	All missing or multiple response	2, female

SEX is the gender from the DEERS file. This variable is not used to override questionnaire responses, but to clear up any omissions or discrepancies in the responses.

XSEXA is the recoded gender variable after taking into account the self-reported response (H03063), any responses to gender-specific questions, and the gender of the sample beneficiary from DEERS.

Note 20 (Part C):
XSEXA, H03064

N20C	XSEXA is:	H03064 is:	H03064 is coded as:	*
1	1: Male	Marked, missing, or multiple response	Stands as original value	
2	2: Female	Marked or multiple response	.C, question should be skipped	F
3	2: Female	Missing response	.N, valid skip	F
4	Missing	Any response	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Note 20 (Part D):
XSEXA, H03065 - H03071, S03O01-S03O06

N20D	XSEXA is:	H03065--H03071, S03O01-S03O06 are:	H03065 --H03071, S03O01-S03O06	*
			are coded as:	
1	1: Male	“All are blank”	.N, valid skip	F
2	1: Male	At least one is “marked”	.N, valid skip if missing; .C, question should be skipped if marked	F
3	2: Female	“All are blank” or at least one is “marked”	Stands as original value	
4	Missing	“All are blank” or at least one is “marked”	Missing value	F

* Indication of backward coding (B) or forward coding (F).

Definition of “all are blank” in Coding Table for Note 20c:
 All variables H03065--H03071, S03O01-S03O06 are missing.

Definition of “marked” in Coding Table for Note 20c:
 Any pattern of marks outside the definition “all are blank.”

Coding Table for Note 21
XSEXA, AGE, H03066, H03067, H03068

N21	XSEXA is:	AGE is:	H03066 is:	H03067 & H03068 are:	H03066 is coded as:	H03067 & H03068 are coded as:	*
1	1: Male	Any value	.C, question should be skipped, or .N, valid skip	C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	
2	2: Female	Any value	2: 40 or over	Marked, missing, or multiple response	Stands as original value	Stand as original value	
3	2: Female	Any value	1: under 40	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	F
4	2: Female	Any value	Multiple response	Marked or multiple response	2: > 40	Stand as original value	
5	2: Female	Any value	Multiple response	Missing	1: < 40	.N, valid skip	B F
6	2: Female	Any value	Missing	Marked or multiple response	2: > 40	Stand as original value	B
7	2: Female	< 40	Missing	Missing	1: < 40	.N, valid skip	F
8	2: Female	>=40	Missing	Missing	1: < 40	.N, valid skip	B
9	2: Female	Missing	Missing	Missing	Stands as original value	Stand as original value	
10	Missing	Any value	Missing	Missing	Stands as original value	Stand as original value	

* Indication of backward coding (B) or forward coding (F).

Coding Table for Note 22:
XSEXA, H03069, H03070, H03071, S03O01-S03O06

N22	XSEXA	H03069 is: is:	H03070 is:	H03071, S03O01-S03O06 are:	H03069 is coded as:	H03070 is coded as:	H03071, S03O01-S03O06 are coded as:	*
1	1: Male	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	.C, question should be skipped, or .N, valid skip	Stands as original value	Stands as original value	Stands as original value	
2	2: Female	1: pregnant now	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	Stands as original value	Stands as original value	
3	2: female	2: pregnant in last 12 months	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	Stands as original value	F
4	2: Female	3: not pregnant in past 12 months	Marked, missing, or multiple response	Marked, missing, or multiple response	Stands as original value	.N, valid skip if missing; .C, question should be skipped if marked	.N, valid skip if missing; .C, question should be skipped if marked	F
5	2: Female	Missing or multiple response	Marked, or multiple response	Marked, missing or multiple response	1: pregnant now	Stands as original value	Stands as original value	B
6	2: Female	Missing response	Missing response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	
7	2: Female	Multiple response	Missing response	Marked, missing or multiple response	3: not pregnant in past 12 months	.N, valid skip	.N, valid skip if missing; .C, question should be skipped if marked	B F
8	Missing	Missing or multiple response	Marked, missing or multiple response	Marked, missing or multiple response	Stands as original value	Stands as original value	Stands as original value	

* Indication of backward coding (B) or forward coding (F).

20	E8	Char	1	82	\$E_.		Eligibility indicator for period = 8
21	E9	Char	1	83	\$E_.		Eligibility indicator for period = 9
6	ENBGSMPL	Char	2	35	\$ENBGS.		Enrollment by beneficiary category
30	FIELDAGE	Char	3	108			Age as of January 1st 2003
158	FLAG_FIN	Char	5	604	\$FINAL.	\$5.	Final Disposition
160	FNSTATUS	Num	8	612	FNSTATS.		Final Status
39	H03001	Num	4	129	YN.	11.	Are you the person listed on envelope
52	H03003	Num	4	181	MEDA.	11.	Currently Covered Medicare Part A
53	H03004	Num	4	185	MEDB.	11.	Currently Covered Medicare Part B
54	H03005	Num	4	189	MEDSUPP.	11.	Currently Covered Medicare Supplemental
55	H03006	Num	4	193	HPLAN1_.	11.	Which health plan did you use most
56	H03007	Num	4	197	HPTIME.	11.	yrs in a row with health plan
57	H03008	Num	4	201	YN.	11.	When joined hlth plan, rcv new prsln Dr
58	H03009	Num	4	205	PROB1_.	11.	Health plan: prblm to get Dr happy with
59	H03010	Num	4	209	YN.	11.	Have one person think of as personal Dr
60	H03011	Num	4	213	RATE1_.	11.	Rating of your personal Dr or nurse
61	H03012	Num	4	217	YN.	11.	In 1st yr:you/Dr think you need spclst
62	H03013	Num	4	221	PROB2_.	11.	In 1st yr:how much prblm rfrl to spclst
63	H03014	Num	4	225	YN.	11.	In 1st yr:did you see a specialist
64	H03015	Num	4	229	RATE2_.	11.	Rating of specialist seen in 1st yr
65	H03016	Num	4	233	YNOFT.	11.	In 1st yr:spclst saw same as persnl Dr
66	H03017	Num	4	237	YN.	11.	In 1st yr:call Dr for help/advice
67	H03018	Num	4	241	OFTEN1_.	11.	In 1st yr:when call how often get hlp nd
68	H03019	Num	4	245	YN.	11.	In 1st yr:make appts for reg hlth care
69	H03020	Num	4	249	OFTEN2_.	11.	In 1st yr:appt reg hlth care when wnted
70	H03021	Num	4	253	TIME1_.	11.	In 1st yr:days btwn appt & see prvder

The CONTENTS Procedure

-----Alphabetic List of Variables and Attributes-----

#	Variable	Type	Len	Pos	Format	Informat	Label
71	H03022	Num	4	257	YN.	11.	In 1st yr:illness/injry care right away
72	H03023	Num	4	261	OFTEN3_.	11.	In 1st yr:get care as soon as wanted
73	H03024	Num	4	265	TIME2_.	11.	In 1st yr:wait btwn try get care,see prv
74	H03025	Num	4	269	OFTEN4_.	11.	In 1st yr:goto emrgnky rm for own care
75	H03026	Num	4	273	OFTEN5_.	11.	In 1st yr:goto Dr office/clinic for care
76	H03027	Num	4	277	PROB3_.	11.	In 1st yr:prblm to get care thght ncssry
77	H03028	Num	4	281	PROB3_.	11.	In 1st yr:prblm w/delays wait for apprv
78	H03029	Num	4	285	OFTEN9_.	11.	In 1st yr:wait > 15 min past appt see Dr
79	H03030	Num	4	289	OFTEN9_.	11.	In 1st yr:how oftn treat w/crtsy/rspct
80	H03031	Num	4	293	OFTEN9_.	11.	In 1st yr:how oftn staff helpful
81	H03032	Num	4	297	OFTEN9_.	11.	In 1st yr:how oftn Drs listen to you
82	H03033	Num	4	301	OFTEN9_.	11.	In 1st yr:how oftn Drs explain things
83	H03034	Num	4	305	OFTEN9_.	11.	In 1st yr:how oftn Drs show respect
84	H03035	Num	4	309	OFTEN9_.	11.	In 1st yr:how oftn Drs spend enough time
85	H03036	Num	4	313	RATE3_.	11.	Rating of all health care in 1st yr
86	H03037	Num	4	317	OFTENPX.	11.	In 1st yr:cvln prscrptn filled at Mltry
87	H03038	Num	4	321	PLACE.	11.	In 1st yr:fclty use most for Health care
88	H03039	Num	4	325	YNDNK.	11.	In 1st yr:send in any claims
89	H03040	Num	4	329	OFTEN6_.	11.	In 1st yr:Hlth pln handle in rsmble time
90	H03041	Num	4	333	OFTEN6_.	11.	In 1st yr:how oftn handle correctly
91	H03042	Num	4	337	OFTEN6_.	11.	In 1st yr:before care, know amt to pay
92	H03043	Num	4	341	YN.	11.	In 1st yr:info in written materials
93	H03044	Num	4	345	PROB7_.	11.	In 1st yr:prblm to find/undrstnd mtrls
94	H03045	Num	4	349	YN.	11.	In 1st yr:health plan's cstmr svrc help
95	H03046	Num	4	353	PROB8_.	11.	In 1st yr:prblm get help from cstmr svrc
96	H03047	Num	4	357	YN.	11.	Call or write plan with complaint/prblm
97	H03048	Num	4	361	TIME3_.	11.	How long for Hlth pln to resolve cmplnt
98	H03049	Num	4	365	YNSET.	11.	Complaint/prblm settled to satisfaction
99	H03050	Num	4	369	YN.	11.	In 1st yr:experiences with paperwork
100	H03051	Num	4	373	PROB9_.	11.	In 1st yr:prblms with paperwork
101	H03052	Num	4	377	RATE5_.	11.	Rating of all experience with hlth plan
102	H03053	Num	4	381	LIKELY.	11.	In nxt yr:lkly to dsrnl in TRICARE Prime
103	H03054	Num	4	385	TIME4_.	11.	Not sick/prgnnt: 1st mdcl/physcl exam
104	H03055	Num	4	389	TIME5_.	11.	Blood pressure: when 1st reading
105	H03056	Num	4	393	YNBP_.	11.	Blood pressure: know if too high or not
106	H03057	Num	4	397	TIME6_.	11.	When 1st have cholesterol screening
107	H03058	Num	4	401	TIME7_.	11.	When did you 1st have a flu shot
108	H03059	Num	4	405	YNDNK.	11.	Smoked at least 100 cigarettes in life
109	H03060	Num	4	409	TIME8_.	11.	Smoke everyday, some days or not at all
110	H03061	Num	4	413	TIME9_.	11.	How long since you quit smoking
111	H03062	Num	4	417	OFTEN8_.	11.	1st yr: # visits advised to quit smoking
112	H03063	Num	4	421	SEX.	11.	Are you male or female
113	H03064	Num	4	425	TIME10_.	11.	1st prostate disease exam or blood test
114	H03065	Num	4	429	TIME11_.	11.	1st have a Pap smear test
115	H03066	Num	4	433	YN.	11.	Are you under age 40
116	H03067	Num	4	437	TIME12_.	11.	1st time: breasts checked mammography
117	H03068	Num	4	441	TIME13_.	11.	1st time: breast exam by professional
118	H03069	Num	4	445	YNPREG.	11.	Been pregnant in 1st yr or pregnant now
119	H03070	Num	4	449	PREG1_.	11.	In what trimester is your pregnancy
120	H03071	Num	4	453	PREG2_.	11.	Trimester first received prenatal care
121	H03072	Num	4	457	HEALTH.	11.	In gnrl, how would you rate ovrlly hlth
122	H03073	Num	4	461	YN.	11.	Impairment/Hlth prblm limit activities
123	H03074	Num	4	465	TIME14_.	11.	Last 30 days:Days physical hlth not good
124	H03075	Num	4	469	TIME14_.	11.	Last 30 days:Days mental hlth not good
125	H03076	Num	4	473	TIME14_.	11.	Last 30 days:Days Health hinder actvty
126	H03077	Num	4	477	TIME14_.	11.	Last 30 days:Days Pain hndr usual actvty
127	H03078	Num	4	481	TIME14_.	11.	Last 30 days:Days felt Sad/Depressed
128	H03079	Num	4	485	TIME14_.	11.	Last 30 days:Days wrried/tense/anxious
129	H03080	Num	4	489	TIME14_.	11.	Last 30 days:Days without enough sleep
130	H03081	Num	4	493	TIME14_.	11.	Last 30 days:Days hlthy, full of enrgy
131	H03082	Num	4	497	HISP.	11.	Are you Spanish/Hispanic/Latino
40	H03002A	Num	4	133	MARKED.	11.	Health plan(s) covered: TRICARE Prime
41	H03002C	Num	4	137	MARKED.	11.	Health plan(s) covered: TRICARE Ext/Stnd
